Amman Stock Exchange

CHAIRMAN'S STATEMENT

Honorable Members of the General Assembly of the Amman Stock Exchange,

On behalf of myself and my colleagues, members of the Amman Stock Exchange (ASE) Board of Directors, it is my pleasure to extend to you a warm welcome to our annual meeting; I would like to welcome in particular the new members who joined the ASE General Assembly. It is my pleasure to meet you here for the fifth year in a row, and to present to you the achievements of the past year, as well as the projects and futures aspirations still on our agenda. Let us also hear your suggestions and opinions that would benefit our work and the level of our performance.

We, at the ASE, both management and employees, have every right to be proud of what has been achieved during last year. It is an accomplishment that casts upon us the burden of responsibility and constant commitment to the promise we made to ourselves in terms of the need to work continuously to preserve the bright image that the ASE has acquired on the local, Arab and international levels, and to push hard in order to place the ASE at par with the other developed markets.

Allow me now to shed light on the most important accomplishment of the year 2006, and I will leave to you the opportunity to learn more about the details that are provided in this annual report.

Despite the severe decline faced by the majority of stock exchanges in the region during the year 2006, the ASE was able to maintain a coherent level of performance, and was able to achieve record numbers in some performance indicators, such as the number of traded shares and the number of executed transactions. This is indicative of the increasing demand on investment in the ASE as well as the level of trust that Jordanian and Arab investors have in it, despite the instability that our regional has been facing.

By the end of 2006; number of listed companies at the ASE has reached 227, indicating an increased market depth and the diversity of investment opportunities it provides. This has prompted the ASE to adopt a new sector classification that is in line with international standards, and which reflects a more accurate image of the listed companies to investors in terms of the nature of the work, and facilitates the processes of analysis and comparison of companies' performance by financial analysts and other concerned parties. Moreover, the ASE has launched a new index that adopts the method used by leading international institutions in the field of indices, as this new index is weighted by the market capitalization of the free-float shares of companies and limits the influence

New Sector
Classification

New Index

of companies with large market capitalization. Additionally, the ASE signed an agreement with Dow Jones to calculate a new index for the ASE to be launched in the near future.

New Listings

Likewise, securities listing of all types continued at the ASE during 2006. The ASE has listed the shares of 26 new companies, as well as the listing of 9 Treasury bonds issues. Moreover and for the first time at the ASE, 6 issues of Treasury bills of the Central Bank of Jordan and 22 right issues were listed, which provides investors with more options and different investment alternatives.

Directives

The ASE accomplished a package of directives. In 2006, it completed the draft directives for Internet trading. It also amended the trading directives in line with the activation of the Internet trading service in order to prepare for launching this project in the near future. Moreover, the ASE listed a new security during 2006, namely the right issues through listing a new market for trading this type of securities. The ASE also amended some of the directives in effect, adding more transparency and fairness to trading operations and achieving more protection for investors. The ASE, in cooperation with capital market institutions, has also finalized the draft corporate governance guide to be endorsed in its final format. This is considered a qualitative step forward in the field of enhancing monitoring and transparency over public shareholding companies, and one that preserves the rights of all parties in these companies.

Technical Developments

The ASE continuously endeavors to develop its technical structure in order to ensure sound transactions, to improve the level of performance, and to meet the increasing demand on the capital market. In 2006, the ASE has put into effect the new version of the electronic trading system (NSC V2+), which is characterized by its superior ability to accommodate and execute a large number of orders of up to 200 thousand transactions per day. The ASE also completed a series of technical projects in the area of information dissemination, safety and upgrade of internal stock exchange systems.

Information Dissemination

In the field of information dissemination, and in addition to the ASE's disseminating for real-time trading and other material information about public shareholding companies through its website, the archival system and all other means, the ASE has signed a number of information distribution and dissemination agreements with international, Arab and local data vendors. This is designed to broadcast live trading information through the networks of these companies, or through information display screens or mobile telephones, and others.

Awareness and Marketing

In the field of awareness and marketing, to which the ASE affords special importance, the ASE has participated in a number of local exhibitions, as well as a series of educational lectures on capital markets were held by the ASE. These lectures have attracted a great deal of attention from the

public and were attended by more than 500 participants. The ASE also conducted training courses for financial brokers, as well as comprehensive introductory courses for various parties. Moreover, the ASE has received a number of delegations at its premises from a variety of local, Arab and international educational, economic, and social institutions.

The ASE was always keen on enhancing cooperation with Arab stock exchanges. In this context, the ASE has signed two agreements with the Dubai Financial Market and Abu Dhabi Securities Market in order to regulate the issue of cross listing in each of the countries and to facilitate the process of cross listing of companies from both countries. This is designed to meet the needs of investors locally and abroad, Jordanian and foreigners alike, and to bring benefit to the securities markets in both countries.

The ASE has always endeavored to maintain its presence at all Arab and international arenas. In this context, the ASE has distinguished itself with its attendance and active participation in a large number of conferences, meetings and forums on the Arab, regional and international levels.

Ambition does not stop at any certain level and thoughts of advancement and improvement are always an obsession of any successful institution that endeavors to stay in the lead. There still remain a number of aspirations and projects on the ASE's agenda for 2007, which will be finalized in the near future. During 2007, the ASE will seek to join the World Federation of Exchanges (WFE) as a full member. It will also work on implementing Internet trading, as well as the upgrade of its website and means of information dissemination. Moreover, the ASE has adopted a comprehensive strategy for marketing and promotion designed to spread the culture of investment in the Jordanian society. The implementation of this strategy will commence this year, and we hope it will accomplish the aspired benefit to all investors.

Finally, I would like to extend my thanks to the Jordan Securities Commission for its continuous cooperation with market institutions towards the advancement of the Jordan capital market. I would also like to thank all ASE employees for their efforts. We hope that the ASE will continue to be the symbol of success and development, working together under the wise Hashemite leadership towards Jordan's growth and progress.

Future Outlook

ECONOMIC SITUATION

The Jordanian economy continued its march of growth, with the real growth rate in the Gross Domestic Product (GDP) in 2006 reaching about 6.0%, in spite of large increases in the international oil prices, while the real growth rate in 2005 reached about 7.2%. GDP at current prices reached JD9012.2 million in 2005. Within this framework, the consumer price index increased by 6.25% during the year 2006.

At the monetary policy level, the Central Bank of Jordan raised the re-discount rate from 6.5% at the end of 2005 to 7.5% at the end of 2006. Interest on three-month certificates of deposit increased from 6.20% to 6.70%. The weighted average interest rates on credit facilities extended in the form of loans and advances increased from 8.10% to 8.56% in 2006. Liquidity as measured by M2 grew at the end of 2006 by about 14.1% compared with 2005. On the other hand, foreign currency reserves reached JD4326.7 million in 2006, compared to JD3363.3 million in 2005; an increase of 28.6%. This is the highest level of foreign currency reserves in the history of Jordan.

With regard to the performance of public finance, figures show an increase in revised total revenues for the year 2006 by 12.7% from its actual value in the year 2005. Total expenditures for 2006 has increased by 25.7% from its actual value for 2005. Hence, the financial deficit is estimated at JD450 million, or 4.5% of the estimated GDP for 2006.

Foreign trade figures issued by the Department of Statistics indicate an increase in the volume of foreign trade in 2006 as compared to 2005. Jordanian exports (national exports and re-exports) have increased by 20.1%, while imports increased by 9.0%. The deficit in the Trading Balance has increased by 1.3% as compared to 2005.

Data also indicate that the gross domestic debt increased, as of the end of November 2006, reaching JD2845 million, or 28.6% of the estimated GDP for 2006, as compared to JD2467 million, or 27.4% of the GDP for 2005.

The outstanding external debt by the end of November 2006 reached JD5225.3 million, representing 52.2% of the estimated GDP for 2006, as opposed to JD5056.7 million, or 56.1% of the GDP for 2005.

In the field of privatization, the Government has implemented a number of privatization transactions in 2006, selling part of its share in the Jordan Phosphate Mines Company, Jordan Telecom Company, Jordan Airline Training and Simulation, and Jordan Aircraft Maintenance Company, raising privatization proceeds by US\$650 million, reaching the total amount to US\$2 billion since the start of the privatization program in Jordan in the late 1990's. A number of ongoing transactions are currently underway in a number of companies including Royal Jordanian Airlines, Jordanian Post Company, Amman-Zarqa Light Railway project, and the expansion of Queen Alia International Airport. Work is also underway to privatize the electricity sector.

ARAB AND INTERNATIONAL STOCK EXCHANGES

Arab Stock Exchanges

Most Arab stock exchanges witnessed a decline in their performance during 2006, with the Composite Price Index calculated by the Arab Monetary Fund (AMF), valued in US Dollars showing a drop of 42.5% this year as compared to 2005. According to data published by the AMF, the market capitalization of Arab stock exchanges at the end of 2006 dropped by 31.2%, reaching US\$888.1 billion, compared to US\$1290.9 billion recorded at the end of 2005. The Saudi Stock Market came first, with a market capitalization of US\$326.9 billion, representing 36.8% of the total value of Arab markets at the end of 2006. The Kuwait Stock Exchange came second with a percentage of 11.9% and a market capitalization of US\$106.0 billion, Figure (1).

Figure (1)
Market Capitalization of Arab Stock Exchanges, 2006

Trading volumes witnessed an increase in 2006 compared to 2005. The value of traded shares increased by 17.4%, reaching US\$1685.0 billion, compared to US\$1434.8 billion in 2005. The value of shares traded on the Saudi Stock Market reached US\$1402.9 billion or 83.3% of the total value of shares traded in Arab markets. The Dubai Financial Market came second with a value of US\$94.7 billion or 5.6% of the total value of shares traded in Arab markets. The number of shares traded in Arab markets in 2006 reached 168.6 billion shares, compared to 110.8 billion shares in 2005, with an increase of 52.1%. The Saudi Stock Market took the lead in the number of traded shares as compared to other Arab markets, with 32.3% of the total number of shares traded on Arab markets, followed by Dubai Financial Market with 23.5% of the total shares traded.

According to available figures of shares prices indices denominated in local currencies; the performance of Casablanca Stock Exchange was the best during 2006 of about 71.1% increase. Tunis Stock Exchange came next with an increase of 40% in its price index. Muscat Securities Market came third with a 14.5% increase in its price index. Stock prices also

increased in Cairo and Alexandria Stock Exchanges by 6.3% to assume the fourth position, and Bahrain Stock Exchange came fifth with a 1.0% increase. Stock prices dropped in the Saudi Stock Market, Palestine Securities Exchange, Dubai Financial Market, Abu Dhabi Securities Market, Doha Stock Exchange, Amman Stock Exchange, Kuwait Stock Exchange, Beirut Stock Exchange, and Khartoum Stock Exchange by 52.5%, 46.4%, 44.4%, 42.3%, 35.5%, 32.6%, 12.0%, 8.7%, and 6.7% respectively, as compared to 2005, Table (1), Figure (2).

Figure (2)
Arab Stock Exchanges Performance in 2006

International and Emerging Markets

Unlike Arab Stock Exchanges, most of the international stock exchanges witnessed a growth in their performance as measured by their price indices. The World Index as calculated by the Morgan Stanley Capital International Perspective (MSCI-P) for the whole world increased in 2006 by 18.8% as compared to 2005. The MSCI-P index for Europe, Asia and the Far East increased by 23.5% for the year 2006 compared to 2005.

Emerging markets also witnessed a significant improvement in their performance. Indices calculated by Standard and Poors (S&P) showed an increase in 2006, with the IFC Regional Index-Europe and the Regional Index-Asia showing increases by 46.9% and 34.7% respectively. The IFC Composite Index for emerging markets, including Jordan, showed a 22.6% increase compared to 2005. The Middle East and North Africa index for emerging markets (IFC Regional Index ME & Africa) dropped by 16.5% against 2005, Table (2).

Within this framework, stock prices in American stock exchanges increased during 2006 as compared to 2005. The Nasdaq composite index increased by 9.5%, and stock prices at the New York Stock Exchange increased by 13.6%, according to the S&P 500 index.

The main stock markets in Europe and Asia witnessed also an improvement in their performance, whereby the Straits Times Index of the Singapore Stock Exchange increased by 27.2%, and the Xetra DAX Index for the Frankfurt Stock Exchange increased by 22.0%. The CAC40 Index of the Paris Stock Exchange increased by 17.5%. London Stock Exchange FTSE 100 index increased by 10.7%. Finally, stock prices at the Tokyo Stock Exchange increased by 6.9% according to the NIKKIE 225 index, Table (3), Figure (3).

As for emerging markets, reports by Standard & Poors during 2006 indicated a growth in most emerging markets performance as measured by stock price indices valued in US Dollars. The prices in 30 stock exchanges increased compared to drop in 9 stock exchanges. Stock prices at the stock exchanges of China, Peru, Venezuela, Indonesia, Russia, and Argentina valued in US Dollars for 2006 increased by 93.1%, 86.9%, 79.0%, 68.8%, 60.9% and 57.5% respectively, as compared to 2005. Istanbul Stock Exchange showed a drop of 4.0% as compared to 2005, Figure (4).

PERFORMANCE OF AMMAN STOCK EXCHANGE IN THE YEAR 2006

First: The Secondary Market

Indicators of the secondary market (which includes the first market, second market, transfers off the trading system, bonds market, and the mutual funds market) registered a decline in their levels compared to 2005. The secondary market trading volume was JD15048 million for 2006 compared with JD17814 million for 2005; a decrease of 15.5%. The value of traded shares at the ASE constituted the major part of this volume that was approximately 94.4% of the total trading volume, Table (4).

Following is a review of the secondary market activity during the year 2006:

A- First and Second Markets:

The year 2006 witnessed establishing many shareholding companies, as a result the companies listed at ASE increased by the end of 2006 to 227, compared with 201 by the end of 2005. 96 companies listed at the first market and 131 companies at the second market. In this context, the capital of listed companies increased to JD 4.6 billion compared to JD 3.0 billion by the end of the year 2005, this increase came as a result of the increase of the number of listed companies, as well as the

capital increase of many existing companies in the year 2006. During the year 2006, the shares of 26 companies were newly listed, these companies are: Arab Pesticides & Veterinary Drugs Manufacturing, Al-Amal Financial Investment, Amad Investment & Real Estate Development, South Electronics, Emmar Investments & Real Estate Development, Al Faris National For Investment & Exports, Portfolio Management & Investment Services, Ihdathiat Co-ordinates, Hayat Pharmaceutical Industries, Winter Valley Tourism Investment, Nopar For Trading And Investment, Taameer Jordan, The Consulting And Investment, Masafat Transportation, Methaq Real Estate Investment, High Performance Real Estate, Middle East Diversified Investment, Contempro For Housing Projects, Al Bilad For Securities & Investments, First Finance, Awtad For Financial & Real Estate Investment, Sanabel International For Islamic Financial Investment, Zahrat

Alurdon Real Estate And Hotels Investment, Arab Investors Union For Real Estates Developing, Jordanian Management & Consulting, Jordan International Investment. The listing of the following companies was shifted from the second market to the first market: Jordan Diary, Falcon For Investment & Financial Services, The Arab Internatioanl For Education and Investment, Jordan Commercial Bank, National Cable & Wire Manufacturing, and Al-Salam International Transport & Trading. The listing of the shares of Arab Financial Investment was shifted from the first market to the second market. It is worth mentioning that in the year 2006 no company was de-listed.

Figure (5)
Trading Volume at the First & Second Markets

Table (5)

Trading Volume at the First & Second Markets by Sector
(JD Million)

Year	Financial	Services	Industrial	Total
2002	397.7	101.5	451.1	950.3
2003	832.2	203.1	819.9	1855.2
2004	2403.8	380.0	1009.5	3793.3
2005	13200.7	1195.9	2474.5	16871.1
2006*	11570.2	942.2	1697.5	14209.9

* Includes right issues.

The performance indicators declined in the year 2006. The trading volume in the First & Second Markets decreased by 15.8%, compared to 2005, Table (5).

The shares of 195 companies were traded during 2006; the share prices of 61 companies rose, 133 declined, and one company with no change in its price.

Within the context of sector distribution of the trading volume in the first and second markets; 2006 witnessed the adoption of a new sector classification, whereby companies listed were divided into three main sectors and 23 sub-sectors. The financial sector dominated by 81.4% of the total trading volume, followed by the industrial sector with 12.0%, and the services sector with 6.6% of the total trading volume, Table (5), Figure (6).

Figure (6)
Trading Volume of the First & Second Markets
by Sector, 2006

It should also be noted that trading in the real estate, diversified financial services and banks sub-sectors represented 30.9%, 29.7% and 20.2% of the total trading value respectively.

For the first time ever, trading of right issues took place at the ASE in 2006, with a total number of traded rights reaching 4.7 million valued JD5.4 million. The financial sector came first, where the value of traded rights was JD3.7 million or 69.5% of the total value of traded rights. The industrial sector was second with JD1.1 million, representing 21.2%, followed by the services sector at JD0.5 million representing 9.3% of the total value of traded rights.

The number of traded shares in 2006 rose by 59% compared to 2005 reaching 4104.3 million shares, and the number of executed transactions was 3.4 million compared to 2.4 million in 2005; an increase of 43.9%. These figures are the highest since the inception of the stock market. It is worth mentioning that the daily number of executed transactions exceeded 25 thousands in many days in the year 2006, Table (6).

Table (6)
Trading Volumes of the First & Second Markets

Year	No. of Traded Shares (million)	No. of Transactions (thousand)	No. of Trade Days	Turnover Ratio %
2002	461.8	448.6	249	26.5
2003	1008.6	786.2	241	49.1
2004	1338.7	1178.2	246	58.2
2005	2581.7	2392.5	244	94.1
2006*	4104.3	3442.6	242	101.1

* Includes right issues.

At the sector level for the traded shares; financial sector took the lead with 2979.2 million shares, a 72.7% of the total number of traded shares, the industrial sector came second with 733.8 million shares, a 17.9% of the total number of traded shares. Finally, the services sector with 386.5 million shares, a 9.4% of the total traded shares. The shares traded at the real estate, and diversified financial services sub-sectors represent 37.9%, and 26.7% of the total number of traded shares respectively.

The daily average trading volume decreased to JD58.7 million, or 15.1% compared to the daily average of 2005. The daily average of traded shares increased to 17 million shares, or 60.4% compared to 2005. The daily average of executed transactions, increased to 14.2 thousand transactions, or 44.9% compared to the year 2005.

The turnover ratio, representing the number of traded shares as a percentage of the number of listed shares, went up in 2006 to a 101.1%, compared to 94.1% in 2005. The turnover ratio was the highest for the financial sector with a 150.4%, followed by the industrial sector with 81.1%, and finally the services sector with 42.3%.

The ten most active companies in terms of traded shares represented 51.3% of the total number of traded shares in the market, while the ten most active companies by value traded formed 59.2% of the total trading value in the market.

B. ASE Price Indices

The ASE has introduced this year a new index weighted by free-float shares. The index was given a base value of 1000 points at the end of the year 1999. Index numbers were calculated for the three main sectors and 23 sub-sectors. The free-float weighted index dropped in 2006 to reach 3014 points, compared to 4260 points at the end of 2005; a 29.3% drop. The general index weighted by the market capitalization also dropped to 5518 points at the end of 2006, compared to 8192 points at the closing of 2005; a drop of 32.6%. The Un-weighted index also declined to reach 1608 points at the end of 2006, compared to 2181 points at the closing of 2005; a decline of 26.3%.

At the sector level, the free-float index for the financial sector dropped by 33.4%, as a result of the drop in all sub-sectors indices of diversified financial services, insurance, banks and real estate by 49.6%, 35.3%, 31.3% and 14.2% respectively. The index for the services sector dropped by 18.9% as a result of a drop in the sub-sectors indices for the transportation, media, technology and communications, health care services, utilities and energy, educational services, hotels and tourism, and commercial services at 45.7%, 26.9%, 25.1%, 22.9%, 19.5%, 16.1%, 2.9%, and 0.8% respectively. Finally, the industrial index dropped by 15.7% as a result of a drop in the sub-sectors indices of the glass and ceramic industries, tobacco and cigarettes, textiles, leather and clothing, pharmaceutical and medical industries, electrical industries, chemical industries, paper and cartoon industries, engineering and construction, food and beverage, mining and extraction industries, and printing and packaging at 48.6%, 38.0%, 33.5%, 21.5%, 21.3%, 15.9%, 11.0%, 6.7%, 6.4%, 6.2%, and 1.4% respectively, Table (7), Figure (7).

Table (7)
Price Index Weighted by Free Float Shares
 (1999 = 1000)

Year	Financial	Services	Industrial	General	% Chg
2002	1078.6	963.8	1065.3	1090.9	2.9
2003	2101.7	1268.9	1590.3	1761.5	61.5
2004	3510.7	1762.0	2344.5	2729.1	54.9
2005	6733.6	2259.4	2815.6	4259.7	56.1
2006	4486.3	1833.1	2372.3	3013.7	(29.3)

Figure (7)
Price Index Weighted by Free Float Shares
 (1999 = 1000)

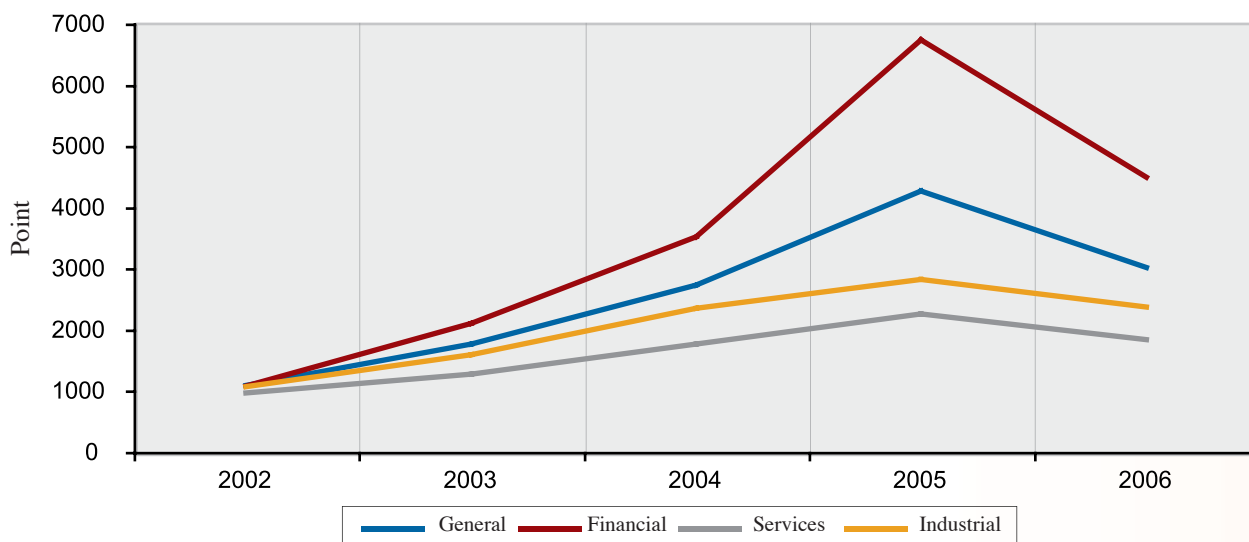

Table (8)
Market Capitalization of the ASE by Sector

(JD Million)

Year	Financial	Services	Industrial	Total
2002	2535.3	1194.8	1293.9	5024.0
2003	4562.0	1346.4	1864.4	7772.8
2004	7693.3	2123.9	3216.6	13033.8
2005	19346.1	3300.2	4020.9	26667.1
2006	14669.8	2882.8	3525.7	21078.2

As a result of the drop in stock prices in 2006 and the increase in the capital of most of listed companies, as well as listing new companies; the market capitalization of the ASE dropped at the end of 2006 to reach JD21078.2 million, compared to

JD26667.1 million at the end of 2005, a drop of 21.0%. The ASE market capitalization represents 233.9% of the GDP, Figure (8). On the sector level, the market capitalization of the financial sector, services sector and the industrial sector dropped by 24.2%, 12.6% and 12.3% respectively, Table (8).

The largest ten companies constituted 65.4% of the total market capitalization of the companies listed at the ASE, Figure (9).

Figure (8)
Market Capitalization of the ASE & its Percentage to the GDP

Figure (9)
Market Capitalization of the ASE

C. Bonds Market

The value of traded bonds during 2006 reached JD1.9 million, with a drop of 40.4% compared to 2005. The number of traded bonds dropped to 1.2 thousand bonds; a drop of 63.5% compared to 2005. The value of traded Treasury bonds was JD0.94 million, representing 50.3% of the total value of traded bonds, while the value of traded corporate bonds was JD0.93 million representing 49.7% of total bonds trading, Table (9).

Table (9)

D. Off-the Trading System Transactions

Off-the trading system transactions which were executed through the Securities Depository Center (SDC), including mainly inheritance, family transfers (ascendants and descendants) and companies excluded from trading.

Figures indicated a decrease in the volume of off-the trading system transactions, which reached JD835.9 million for 2006, compared to JD939.5 million for 2005. The number of transferred shares was 149.2 million shares compared to 61.0 million shares for the year 2005.

The value of inheritance transfers amounted to JD237.5 million, or 28.4% of the total transfers, family transfers were JD158.5 million, or 19.0% of the total transfers. Other transfers reached JD439.9 million or 52.6% of the total transfers, Table (10).

Second: Non-Jordanian Investments

The total value of shares that were bought by non-Jordanian investors during the year 2006 was JD1995.1 million, representing 14.0% of the overall trading value, while the value of shares sold by them amounted to JD1814.5 million. As a result, the net of non-Jordanian investments during 2006 showed an increase by JD180.6 million, compared to an increase by JD413.0 million in the year 2005.

Arab investors purchases during 2006 was JD1654.3 million, or 82.9% of the over all purchases by non-Jordanians, while the value of non-Arab purchases amounted to JD340.8 million, constituting 17.1%. Arab sales amounted to JD1552.7 million, 85.6% of non-Jordanian total sales, while the value of non-Arab sales amounted to JD261.8 million, representing 14.4% of the total sales by non-Jordanian.

Non-Jordanian ownership in companies listed at the ASE by end of the year 2006 represents 45.5% of total market value, 34.3% for Arab investors and 11.2% for non-Arab investors. At the sector level, non-Jordanian ownership in the financial sector was 47.7%, in the services sector was 36.6%, and in the industrial sector was 43.7%, Figure (10), Table (11).

Table (10)

Transactions through the Securities Depository Center

(JD million)

Year	Inheritance	Family	Others	Total
2002	213.7	3.2	65.2	282.2
2003	31.4	9.0	14.4	54.8
2004	57.5	25.5	30.9	114.0
2005	668.6	139.7	131.2	939.5
2006	237.5	158.5	439.9	835.9

Table (11)

Non-Jordanian Ownership at the Listed Companies, 2006

Third: Primary Market

The strong activity in trading at the secondary market and the rise in stocks prices during the year 2005 was reflected on the activity of the primary market in the year 2006 in the form of: encouraging the establishment of new companies, as well as, the existing companies to raise their capital. In addition to that the liquidity available for investors which resulted from the increase in stock prices, as well as the increase in demand for investing in stocks due to their high returns. As a result, the primary issues witnessed large-scale activity in 2006, whereby a large number of public shareholding companies were established, and a large number of existing companies increased their capital. Primary issues of stocks and bonds increased, reaching JD3308.3 million in 2006; an increase of 111.6% over its 2005 level. This was the highest level since the establishment of the market in 1978. Stocks issues in 2006 reached JD2408.8 million, compared to JD888.8 million in 2005. It is worth mentioning that 16 new public shareholding companies were established in the year 2006 with a total capital of JD356.4 million. The real estate and diversified financial services companies dominated these issues. Seven real estate companies were established with a capital of JD237.2 million, and six financial services companies were established with a total capital of JD98.5 million. In the year 2006 also, 7 companies changed their legal status from limited liability companies to public shareholding companies, with a total capital of JD57.9 million. It is also worth mentioning that when shares were offered for public subscription, they were over subscribed. The value of corporate bonds issues in 2006 reached JD56.5 million, compared to JD60.6 million in 2005. Treasury bonds issues reached JD543 million in 2006, compared to JD614.0 million in 2005. Also in the year 2006 the Central Bank of Jordan issued Treasury bills valued at JD300 million, Table (12).

Table (12)
Value of Primary Market Issues

(JD million)

Year	Shares			Bonds				Total (Shares + Bonds)
	Newly* Established	Established	Shares Total	T-Bills	Corporate	Treasury	Bonds Total	
2002	11.5	24.3	35.8	-	170.0	100.0	270.0	305.9
2003	-	56.2	56.2	-	57.5	500.0	557.5	613.6
2004	29.5	177.6	207.1	-	222.4	330.0	552.4	759.5
2005	198.2	690.6	888.8	-	60.6	614.0	674.6	1563.4

* Includes converted companies and new companies registered at the JSC

THE ASE ACCOMPLISHMENTS DURING THE YEAR 2006

First: Legislative Developments

The Amman Stock Exchange carried out the following in the context of legislative development:

1. Implementing the provisions of the Securities Listing Directives at the ASE after amending Article (11), whereby companies listed on the ASE shall undertake to file a listing application for their capital-increase shares within five working days from the completion of issuance procedures. This amendment intended to expedite procedures for listing the capital increase shares and henceforth provide additional liquidity to investors.
2. Completing all the necessary procedures to implement the Directives of Dealing in Right Issues approved by the Board of Commissioners of the JSC, applied as of April 1st 2006, whereby the ASE listed a new market on the trading system and completed technical testing in this regard. The implementation of these directives contributed to enable investors to buy and sell right issues to subscribe in the shares of companies that increase their capital through private subscription.
3. Implementing the necessary amendments to the Electronic Trading System User's Manual to accommodate the implementation of the new edition of the Electronic Trading System (NSC V2+). The new terms include deleting open price orders, canceling the same broker priority, which is the broker's priority over it's entered orders at best price on the other side of the market by order book, and amending price limits for cross orders to become within the best prices on the buying and selling sides. These amendments aim at providing fair treatment to those trading in securities.
4. Amending Trading Directives to permit Internet trading. The ASE also completed the draft directives for Internet trading in 2006, and it is expected that the draft will be ratified during the first quarter of 2007. These directives aim at organizing Internet trading through guaranteeing the rights of all trading parties.
5. Participating in drafting the guide for the corporate governance of companies listed at the ASE. The guide has been presented to a number of parties for review, and their perspectives and recommendations have been taken into consideration in preparation for final approval in 2007.

Second: Technical Developments

In the area of technical developments, the ASE has carried out the following:

1. Activate the new edition of the Electronic Trading System (NSC V2+), the use of which came within the framework of fulfilling the increasing requirements of the capital market in Jordan, and for the purpose of increasing the capacity of the electronic trading system used at the ASE to accommodate the large increase in daily trading volumes and

number of executed transactions, in addition to achieving the ASE's policy of maintaining the integrity of dealing in securities, and equal treatment of all those who deal in securities.

2. Transfer the ASE website host from the United States of America to the Hashem1 Satellite Earth Station in Jordan. The importance of this project lies in the fact that the whole site is in Jordan and on appropriate servers owned by the ASE, which provides it with full control over the website, and henceforth the ability to provide a better service for the website users and a rapid response to solve any problems that may occur. Six servers were installed to host the site, in addition to a Load Balancer to distribute the load over the servers and provide the necessary statistics. It is worth mentioning that the ASE website receives 120 million hits per month.
3. Complete the SMS Master project which enables brokers to notify their clients in real time of their executed orders through text messaging. A number of brokerage firms have launched this service for their clients.
4. Complete the project to link the ASE switchboard with the brokerage offices operating in the Housing Bank Complex and all offices outside the complex using the IP Telephony technology, whereby IP Telephones were installed at brokers offices with internal numbers utilizing the internal network of the ASE. This way, brokerage firms are connected with the ASE through internal lines, saving effort and time and increasing the connection efficiency.
5. Leased lines connecting the ASE location with Al-Abdali switchboard have been replaced with fiber optic conduits, to increase the capacity of these circuits and solve most problems resulting from the use of leased copper cables.
6. Complete the necessary technical structure for the Internet trading project. The first stage of this project has commenced, and the appropriate environment for testing programs prepared for it were developed by a number of programming companies in cooperation with brokerage companies wishing to provide this service. This step includes preparing a server and uploading GL Messenger program which was specially prepared for this service, as well as testing a number of programs submitted by brokerage companies utilizing the FIX communications method.
7. Develop the Management Information System (MIS) due to implementation of the new sector classification by adding new reports and implementing amendments on the companies' and brokers' information screens. The Market Analysis System (MAS) program was also developed, increasing the number of reports and the information available through this program. The program was also uploaded on another server in order to accommodate a larger number of users and increase the speed of information retrieval. A Market Show system was also developed in order to be placed on the ASE website.
8. Purchase a number of servers in order to absorb the increasing growth in the number of the ASE systems and users. Replace all old computers with new ones.
9. Purchase of a SAN Storage system (Storage Area Network) to connect the main servers at the ASE. This system facilitates the connection of any server on the internal network of the ASE on one storage system, in addition to easy management, identification and control of magnetic disks through one central program.
10. Purchase of a program to organize the back-up storage operation. The "Tape Library" storage and archiving system was used to help reduce cost and increase the ability to deal with a wide range of storage, archiving and data-retrieval requirements. The "Tivoli Storage Manager" was also implemented to help organize and classify the storage and archiving process of data in an organized and automatic manner during and outside office hours without the need to halt systems and applications used at the ASE.

11. Develop a system that provides the user with a set of real-time reports on entered orders and trading operations during the session. These reports include client trading above a specific level in a particular company shares or for the whole market, trading in brokerage firms' portfolios, trading of banks and investment funds, and an analysis of the index sample. This program also permits the Surveillance and Inspection Department at the ASE to monitor the session.

Third: Disclosure and Dissemination of Information

1. The ASE has signed an agreement to distribute on-line trading information with Bloomberg, whereby the Bloomberg transmits trading information of the ASE live and in real-time over its networks worldwide.
2. Throughout the past year, the ASE has signed a number of information dissemination agreements with a number of information providers and financial services companies through mobile phones, market monitors, information display screens or the ASE's Ticker Tape. During 2006, the ASE signed 15 agreements to display the ASE's Ticker Tape on their websites, bringing the total number of agreements signed for this purpose to 55. Three agreements to transmit information on mobile phones were also signed, raising the total number to 9 agreements. Six information display screens agreements were signed during 2006, bringing the total number to 11 agreements. Nine agreements were also signed for market monitors, bringing the total number to 16 agreements. The ASE provides real-time information to investors against a monthly subscription fee, and the connection is carried out through leased lines or the Integrated Service Digital Network (ISDN).

Fourth: New Sector Classification

The ASE has implemented a new sector classification of companies listed on the ASE in line with international standards in this field. and to portray a clearer picture of the listed companies. ASE has carried out a comprehensive study of the international standards applied in this field and reviewed sector classifications of some Arab and international stock exchanges. The S&P classification has been adopted, with some amendments to accommodate the nature of Jordanian companies.

According to this classification, listed companies were classified into three main sectors, which in turn were divided into 23 sub-sectors, whereby companies with the same activity were put together. These sectors are:

1. The Financial Sector, which includes companies in the fields of banking, insurance, real estate and diversified financial services.
2. The Services Sector, which includes companies operating in the fields of health care services, educational services, utilities and energy, transportation, hotels and tourism, technology and communications, media and commercial services.
3. The Industrial Sector, which includes companies operating in the fields of pharmaceuticals and medical industries,

chemical industries, paper and cartoons industries, printing and packaging, mining and extraction industries, engineering and construction, food and beverage, tobacco and cigarettes, textile, leather and clothing, electrical industries and glass and ceramic industries.

The most important characteristic of this classification is that it highlights the nature and objectives of company operations in a clearer and more accurate manner for investors, which facilitates the financial analysis for a company and comparison with similar companies and sector it belongs to. It also enables investors to follow-up on price changes of shares in various sectors through indices that ASE has computed for each main and sub-sector.

Fifth: New Index Weighted By Free-Float Shares

The ASE has developed a new index based on free-float shares, whereby this index is calculated by weighting according to the market capitalization of free-float shares in companies and not the total number of listed shares for each company. This method is adopted by a large number of international institutions that are considered among the largest international companies in the field of index providers services, such as S&P, FTSE Group and Dow Jones and STOXX. This index better reflects stock price movements in the market, and reduces the effect of companies with large market capitalization. In addition, it provides a better opportunity for small and medium sized companies to influence its changes. It is worth mentioning that this index may be used as a base tool in forming financial derivatives.

Furthermore, the sample index will be reviewed twice a year, and a maximum weight for any company within this index has been set at 10%, whereby the weight is reduced in case it has increased at the time the semi-annual review of the sample index is carried out. The index has been allocated a base value of 1000 points as at the end of the year 1999, and has been calculated on daily basis for the years 2000-2006. Index numbers have been calculated for the three main sectors and the 23 sub-sectors in the same manner.

In this context, ASE has signed an agreement with the Dow Jones Company to calculate a new index weighted by free-float shares, named "The Amman Stock Exchange and Dow Jones". The importance of this step stems from this company's international reputation in the field of financial markets indices. The index will be calculated through weighting by market capitalization of free-float shares for companies where a cap is set for the influence of any company on the index changes. This index may be used as a base tool in forming financial derivatives. This Index will be a composite one and will include most of listed companies, which will be selected based on a number of criteria related to the company's trading activity and liquidity, in addition to the company's market capitalization, revenues and profits.

As a result of signing this agreement, and in order not to confuse investors and users of the index, the ASE will adopt the index which will be calculated with Dow Jones as the only price index for stocks listed at the ASE. It will be disseminated on the electronic trading system and the ASE website as well as data vendors. ASE will continue to compute the sectors and sub-sector indices.

Sixth: Awareness and Marketing

As part of its effort to market itself locally and internationally, and to increase awareness among the public, the ASE has adopted a marketing and promotion strategy based on three main axes: Awareness, Marketing and Media. In the field of awareness, the ASE is planning to hold a series of educational lectures for the public in general and those interested in trading in securities in particular, covering all geographic regions of Jordan. Furthermore, leaflets, booklets and anecdotal instructions will be published, in addition to holding retreats with media personnel.

In the field of marketing, the ASE is planning a series of 'road shows' outside Jordan to introduce investors and investment managers abroad to the benefits of investing in Jordan in general and in the ASE in particular. In addition, the participation of the ASE in local and international exhibitions and conferences will be increased, important economic events will be sponsored and the ASE will be marketed by increasing newspaper advertising locally and internationally to highlight the investment opportunities in the ASE.

In the field of media; the ASE will equip a special hall to transmit daily trading sessions, provide viewers with the latest developments and host specialists and analysts. The ASE website will be updated to include games as a training tool in investment and investment decision-making.

During 2006, the ASE achieved the following:

1. Held a series of lectures at the Investors Gallery on the fundamentals of securities markets and the functions of capital market institutions in Jordan. These lectures aimed at raising awareness among public and those interested in the securities market. The number of participants exceeded 500. Lectures, which lasted for three days for each course, concentrated on directing investors towards benefiting from all information available to them in taking their investment decisions.

2. Participated in a number of local exhibitions for the purpose of strengthening its relations with the local community and enhancing continued communication with it, in line with the ASE policy in the area of spreading the investment culture and increasing awareness among citizens and securities dealers.
3. Held two courses for training financial brokers, in cooperation with capital market institutions and with the participation of a number of trainees from licensed brokerage firms. These courses introduced participants to the basic concepts and skills for dealing in securities, and the functions and duties undertaken by the JSC, the ASE and the SDC, in addition to practical training courses on the electronic trading system adopted by the ASE and the systems of the SDC.
4. Held a training course for the economic news bulletin presenters at the Jordan Television in which they were provided with a comprehensive presentations on the Jordanian capital market and the ASE, as well as the main concepts and issues regarding the market.

Seventh: Local, Arab And International Cooperation

The ASE strives continuously to promote cooperation with local, Arab and international institutions. Within this framework, the following were achieved during 2006:

1. At the local level, the ASE participated in the following:

- Meeting with top executive managers of the US pension funds in Aqaba.
- Training course for Certifying Compliance Officers organized by the JSC in Amman.
- Training course for Certifying Issue Managers organized by the JSC in Amman.
- Lecture organized by the Athens Stock Exchange and Thessalonik Stock Exchange Center regarding the Greek experience in derivatives and manners of utilizing them in the Jordan capital market.
- Arab Capital Markets Conference organized by the Economy and Business Magazine in Amman.
- Second Competition Conference organized by the Ministry of Industry and Trade, as well as the meeting of Arab trade chambers organized by the Amman Trade Chamber.
- Hosting a number of local delegations from the Jordanian Armed Forces officers, Al Hussein Ibn Talal University, Irbid National University, and the Applied Science University.

2. At the Arab level:

- A. The ASE signed two agreements with Dubai Financial Market and Abu Dhabi Securities Market to organize cross listing in the securities market in each country. This was done within the framework of enhancing cooperation with these two markets. The agreements aim at facilitating the process of cross listing of companies which are listed in the ASE and who wish to list their shares on the United Arab Emirates (UAE) markets, and the same for companies on the UAE markets that wish to list their shares on the ASE, which will enhance investment opportunities available and deepen capital markets in both countries.

B. ASE participated in the following conferences, meetings, forums and exhibitions:

- Fourth working session of the Sixteenth Annual International Conference on Financing Medium and Small Enterprises / Future Steps, which was held at the Licensed Accounting Experts Association in Lebanon, in cooperation with the World Bank and the International Accounting Standards Board (IASB) in Beirut / Lebanon.
- Banking installations, Insurance and Stock Exchange Exhibition (BINTEX 06) in Damascus / Syria.
- The Twenty Seventh Annual Meeting of the Union of Arab Stock Exchanges held in Beirut / Lebanon.
- Conference on Surveillance in Capital Markets Participating in the First Jordanian Gulf Economic Conference in Manama / Bahrain.
- Experts Meeting on the Role of Capital Markets in Economic Development, organized by the United Nations Economic and Social Committee for Western Asia (ESCWA) in Abu Dhabi / United Arab Emirates.
- Conference on Corporate Governance in the Middle East and North Africa Region, held in Dubai / United Arab Emirates.
- Meeting of The French Electronic Trading System (NSC-UNIX) Users' Group held in Muscat / Oman.
- GITEX Exhibition held in Dubai / United Arab Emirates.
- Second Investment and Capital Markets Conference held in Damascus / Syria.

C. The ASE hosted at its premises a number of Arab delegations, including the Palestine Securities Exchange delegation, Cairo and Alexandria Stock Exchanges delegation, the delegation of the National Institute of Public Administration in Syria, and the Libyan Securities Market delegation.

3. At the international level, the ASE participated in the following functions and activities:

- Chairing the annual meeting of the French Electronic Trading System (NSC-UNIX) Users' Group held in Paris / France.
- Participation in the Corporate Governance Conference organized by the Federation of Euro Asian Stock Exchanges (FEAS) and the Organization for Economic Cooperation and Development (OECD) in Istanbul / Turkey.
- Participation in the Annual Meeting for Developing the Capital Markets organized by the Securities and Exchange Commission (SEC) held in Washington / United States of America.
- Participation in a workshop on the technologies used in capital markets held in Boston / United States of America.
- Chaired meetings of Working Committee of the FEAS held in Chisinau / Moldova.
- Participating in the Annual Meeting of the International Organization of Securities Commissions (IOSCO) held in Hong Kong.
- Participating in a round-table meeting held as part of the Annual Meeting of the Arab Financial Forum held by the OECD in London / United Kingdom.
- Participating in the Annual Meeting of the Emerging Markets Committee held by the IOSCO in cooperation

with China Securities Regulatory Commission held in Shanghai / China.

- Participating in the Annual Meeting of the World Federation of Exchanges (WFE) held in Sao Paolo / Brazil.
- Participating the Twelfth Annual Meeting of the FEAS held in Cairo and Sharm El Shaikh / Egypt. The ASE chaired the Working Committee of the Federation, after it was elected to chair the Working Committee unanimously for the second time in a row.
- Participating in an investment seminar organized by the Jordan Investment Board in cooperation with the Jordanian British Trade Bureau and the United Kingdom Office of Trade and Investment, titled “Investment Opportunities in Jordan” held in London / United Kingdom.
- Participating in a delegation of capital market institutions within a visit to the Malaysian Monitoring Agency and the Bursa Malaysia Securities in Kuala Lumpur / Malaysia.
- Participating in a workshop on Investor Education held in Phuket / Thailand.
- Participating in the bilateral cooperation programs among member stock exchanges in the FEAS.
- Receiving the International Monetary Fund Mission in Amman / Jordan.

Eighth: Listing Securities at The ASE

1. Stocks

153 companies listed at the ASE have increased their capital during 2006 and were listed at a total value of JD1.1 billion. The ASE also listed the stock of 26 new companies with a total capital of JD454.5 million during 2006. These companies are:

Newly Listed Companies in 2006

No.	Company's Name	Code	Listing Date	Listed Capital (JD mil.)
1	Arab Pesticides & Veterinary Drugs Mfg.	MBED	02/01/2006	6.0

25	Jordanian Management & Consulting	JOMC	26/11/2006	0.5
26	Jordan International Investment	JIIG	17/12/2006	10.0

2. Bonds and Treasury Bills

The ASE has listed 9 issues of Government Treasury Bonds during 2006, valued at JD450 million. It is worth mentioning that no issue of corporate bonds was listed in 2006. Three issues of the Water Authority bonds were listed at a value of JD58 million.

ASE also listed 6 issues of Treasury Bills issued by the Central Bank of Jordan, valued at JD300 million. This was the first time that short-term financial instruments are listed at the ASE.

3. Right Issues

During 2006, the ASE listed 22 right issues after taking all the necessary steps for implementing directives for trading in these rights and adding a new market to the electronic trading system, as well as completing technical tests in this context.

Right Issues Listed in 2006

No.	Company's Name	Code	Listed Rights (million)
1	The Housing Bank For Trade And Finance	THBK	100.0
2	Al- Quds Ready Mix	AQRM	7.0
3	Jordan Steel	JOST	6.0
4	Jordan Kuwait Bank	JOKB	15.0
5	Jordan Press & Publishing /Ad-Dustour	JOPP	0.35
6	The Arab International Food Factories	AIFF	3.0

20	Jordan Islamic Bank For Finance & Inv.	JOIB	15.0
21	Al-Ahlia Commercial Centers	ABLA	2.12
22	Comprehensive Land Development And Investment	ATTA	6.05

Ninth: Membership

The membership of 23 financial service companies that have been licensed by the JSC to practice financial brokerage were accepted as members of the ASE in 2006, bringing the number of ASE's members to 65. These companies are divided into 17 new companies and 6 companies transfers of license. The new companies are:

Osool Investment And Financial Services	Al Wameedh For Financial Services And Investment
Horizons Invest	Delta Financial Investments
Shua'a For Securities Trading And Investments	Indemaj Financial Services
Al-Sahm International For Investment & Brokerage	Al-Omana'a Portfolio And Investment
Alsafwa Financial Investments	Aljazeera For Financial Investments
Tadawol For Securities & Financial Services	Al-Salam For Financial Investments
Elite Financial Services	The Bankers For Brokerage And Financial Invest
Al-Fajr For Securities Trading	Al-Nadwa For Financial Services And Investment
Al-Bilad For Securities And Investment	

In accordance with licensing directives issued by the JSC, stipulating the need to segregate the bank's account from the account of its brokerage firm, and the need for banks to establish independent companies, the ASE has approved the transfer of membership licenses from the following banks to the companies they have established:

- Transfer of the Jordan Islamic Bank for Finance and Investment membership to Sanabel Al Khair for Financial Investment Company.
- Transfer of the Jordan Investment and Finance Bank membership to Al- Mawared for Brokerage Company.
- Transfer of the Bank of Jordan membership to Excel for Financial Investment Company.
- Transfer of the Jordan National Bank membership to Al-Ahli Brokerage Company.
- Transfer of the Union Bank for Savings and Investment membership to the Union Financial Brokerage Company.
- Transfer of the Societe Generale Bank-Jordan membership to Societe Generale -Jordan Brokerage.

INDEPENDENT AUDITOR'S REPORT

504 0702

**To the Members of
Amman Stock Exchange
Amman- The Hashemite Kingdom of Jordan**

Report on the Financial Statements

We have audited the accompanying Financial Statements of the Amman Stock Exchange which comprise the balance sheet as at December 31, 2006 & 2005 and the Statement of Revenues and Expenses, Statement of Changes in General Reserve and Statement of Cash Flow for the years then ended. And a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these Financial Statements in accordance with International Financial Reporting Standards. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of Financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial Statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the Financial Statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Financial Statements. The procedures selected depend on the auditor's judgment, including the assessing the risks of material misstatement of the Financial Statements, whether due to fraud or error; In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the Financial Statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the Financial Statement.

We believe that the audit evidence we have obtained is sufficient and appropriated to provide a basis for our audit opinion.

Opinion

In our opinion, the Financial Statements present fairly, in all material respects the Financial Position of the Amman Stock Exchange as of December 31, 2006 & 2005 and of its financial performance and its Cash Flows for the years then ended in accordance with the International Financial Reporting Standards.

As discussed in note (13) to the financial statements, the Amman Stock Exchange is a defendant in law suit alleging the failure to apply the procedures for transferring shares. These actions are still in progress, the ultimate outcome of the litigation can't presently be determined. Accordingly, no provision for any liability that may result upon adjudication has been made in the accompanying financial statements.

Based on the above we recommend the General Assembly to approve the accompanying Financial Statement.
