REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
TO THE BOARD OF DIRECTORS OF UNION INVESTMENT CORPORATION
PUBLIC SHAREHOLDING COMPANY
AMMAN - JORDAN

Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of Union Investment Corporation (the "Company") and its subsidiaries (the "Group") as at 31 March 2020, comprising of the interim condensed consolidated statement of financial position as at 31 March 2020 and the related interim condensed consolidated statement of profit or loss, interim condensed consolidated statement of comprehensive income, interim condensed consolidated statement of changes in equity and interim condensed consolidated statement of cash flows for the three-month period then ended and explanatory information. The Board of Directors is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard IAS 34 Interim Financial Reporting" ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the independent Auditor of the Entity". A review of Interim financial information consists of making inquiries, primarily of persons responsible for the financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis of qualified conclusion

- The Group's management did not perform impairment testing on the intangible assets valued at JD 3,647,535 as of 30 June 2020 related to the acquisition of the subsidiary "Union Tobacco and Cigarettes Industries Company – Public Shareholding Company" in accordance with the requirements of International Accounting Standard 36. We were unable to determine the impact, if any, on the interim condensed consolidated financial statements of the Group. Our conclusion on the interim condensed consolidated financial statements for the period ended 31 March 2019 and our audit report for the year ended 31 December 2019 were qualified for the same reason.

The Group's management did not perform a comprehensive study for the provision for expected credit losses based on the historical credit loss experience adjusted for forward looking factors and the economic environment as of 31 March 2020 in accordance with the requirements of IFRS 9. We were unable to determine the impact on the interim condensed consolidated financial statements of the Group. Our audit report for the year ended 31 December 2019 was qualified for the same reason.

Qualified conclusion

Based on our review, except for the effect of the matters described in the basis of qualified conclusion paragraph, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

Material uncertainty related to going concern

Without further qualification in our conclusion, we draw attention to note (2-4) to the interim condensed consolidated financial statements. As stated therein, the accumulated losses of the group amounted to 57% of the paid-in capital as at 31 March 2020 and its current liabilities exceeded its current assets by JD 31,565,007 as at 31 March 2020, in addition to incurring a gross loss of JD 1,220,506 for the period then ended. These events and conditions in addition to the other matters related to the impact of coronavirus (Covid-19) outbreak as described in note (15) indicate that a material uncertainty exists that may cast doubt about the Group's ability to continue as a going concern.

Emphasis of matter

Without further qualification in our conclusion, and as disclosed in note (9) to the interim condensed consolidated financial statements, investment properties include land plots amouning to JD 2,785,399 that are not registered in the name of the Group as of 31 March 2020.

(2-3) CHANGES IN ACCOUNTING POLICIES -

The accounting policies used in the preparation of the interim condensed consolidated financial statements are consistent with those used in the preparation of the annual consolidated financial statements for the year ended 31 December 2019 except for the adoption of new standards effective as of 1 January 2020 shown below:

Amendments to IFRS 3: Definition of a Business

The IASB issued amendments to the definition of a business in IFRS 3 Business Combinations to help entities determine whether an acquired set of activities and assets is a business or not. They clarify the minimum requirements for a business, remove the assessment of whether market participants are capable of replacing any missing elements, add guidance to help entities assess whether an acquired process is substantive, narrow the definitions of a business and of outputs, and introduce an optional fair value concentration test.

The amendments are applied to transactions that are either business combinations or asset acquisitions for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1 January 2020. Consequently, the Group did not have to revisit such transactions that occurred in prior periods. Earlier application is permitted and must be disclosed.

These amendments did not have any impact on the Group's interim condensed consolidated financial statements.

Interest Rate Benchmark Reform Amendments to IFRS 9 and IFRS 7

Interest Rate Benchmark Reform Amendments to IFRS 9 and IFRS 7 includes a number of reliefs, which apply to all hedging relationships that are directly affected by interest rate benchmark reform. A hedging relationship is affected if the reform gives rise to uncertainties about the timing and or amount of benchmark-based cash flows of the hedged item or the hedging instrument. As a result of interest rate benchmark reform, there may be uncertainties about the timing and or amount of benchmark-based cash flows of the hedged item or the hedging instrument during the period before the replacement of an existing interest rate benchmark with an alternative risk-free interest rate (an RFR). This may lead to uncertainty whether a forecast transaction is highly probable and whether prospectively the hedging relationship is expected to be highly effective.

The amendments provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the replacement of an existing interest rate benchmark with an alternative risk-free interest rate (an "RFR"). The effective date of the amendments was for annual periods beginning on or after 1 January 2020, with early application permitted. The requirements must be applied retrospectively. However, any hedge relationships that have previously been dedesignated cannot be reinstated upon application, nor can any hedge relationships be designated with the benefit of hindsight.

UNION INVESTMENT CORPORATION - PUBLIC SHAREHOLDING COMPANY NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS 31 MARCH 2020 (UNAUDITED)

With phase one completed, the IASB is now shifting its focus to consider those issues that could affect financial reporting when an existing interest rate benchmark is replaced with an RFR. This is referred to as phase two of the IASB's project. The Group was not be affected by these amendments on the date of transition and concluded that the uncertainty arising from IBOR reform is did not affect its hedge relationships to the extent that the hedge relationships need to be discontinued.

These amendments did not have any impact on the Group's interim condensed consolidated financial statements.

The accumulated losses of the Group amounted to 57% of the paid-in capital as of 31 March 2020 which conflicts with the provisions of Article (168) of Companies Law No. (22) for the year 1997 and its amendments. In addition, the current liabilities exceeded its current assets by JD 31,565,007 as at 31 March 2020, in addition to incurring a gross loss of JD 1,220,506 for the period then ended.
