INDEPENDENT AUDITORS' REPORT

To The Shareholders of
Invest Bank
Public Shareholding Company - Limited
Amman – Jordan

Report on the Audit of Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of invest Bank (the "Bank") and its subsidiaries (together the "Group") which comprise the consolidated statement of financial position as of December 31, 2021, consolidated statements of profit or loss, consolidated other comprehensive income, consolidated changes in equity and consolidated cash flows for the year then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of Invest Bank (the "Bank") and its subsidiaries (together the "Group") as of December 31, 2021, and their consolidated financial performance and their consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards as amended by the Central Bank of Jordan instructions.

Basis of Opinion

We conducted our audit in accordance with International Standards on Auditing. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Bank in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is enough and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters	How we responded to the key audit matter
<p>Measurement of expected credit loss</p> <p>The Group applies the Expected Credit Loss model (ECL) on all its financial instruments measured at amortized cost, debt instruments measured at fair value through other comprehensive income and financial guarantee contracts including financing commitments in accordance with International Financial Reporting Standards (9) as amended by the Central Bank of Jordan instructions.</p>	<p>We performed the following audit procedures on the computation of the ECL included in the Group's consolidated financial statements for the year ended December 31, 2021:</p> <ul style="list-style-type: none"> -We assessed and tested the design and operating effectiveness of the controls over the calculation of the expected credit losses model. -We tested the completeness and accuracy of the data used in the calculation of ECL. -For a sample of exposures, we checked the appropriateness of the Group's application of the staging criteria.

<p>The Group exercises significant judgment and makes a number of assumptions in developing its ECL models, which includes the probability of default computation separately for corporate and individuals' portfolios, determining loss given default and exposure at default for both funded and unfunded exposures, forward-looking adjustments, and staging criteria.</p> <p>For defaulted exposures, the Group uses judgments to estimate the expected future cash flows related to each exposure individually, considering the value of the collateral.</p> <p>The Group's impairment policy under IFRS 9 as amended by the Central Bank of Jordan Instructions is presented in Note (3) to the consolidated financial statements.</p> <p>Measurement of ECL is considered as a key audit matter as the Group applies significant judgments and makes a number of assumptions in the staging criteria applied to the financial instruments as well as in developing ECL models for calculating its impairment provisions.</p>	<p>-We involved our internal specialists to assess the following areas:</p> <ul style="list-style-type: none">• Conceptual framework used for developing the Group's impairment policy in the context of its compliance with the requirements of IFRS 9 as amended by the Central Bank of Jordan instructions.• ECL methodology and calculations model used to compute the probability of default (PD), loss given default (LGD), and exposure at default (EAD) for the Group's classes of financial instruments.• Reasonableness of the assumptions made in developing the modelling framework including assumptions used for estimating forward looking scenarios and significant increase in credit risk.• Recalculation of the expected credit losses for a sample of the financial assets "subject to the impairment" at each stage.• Evaluating the impact of COVID 19 on the expected credit losses model in relation to the future economic outlook, macroeconomic data, the probability of default, and the losses given default and its associated weights. <p>-In addition, for the corporate portfolio classified under Stage 3, the appropriateness of provisioning assumptions was independently assessed for a sample of exposures selected on the basis of risk and the significance of individual exposures. An independent review was performed on the levels of provisions recognized, based on the available details over the loans and related collaterals in the loan's credit file, For the retail portfolio classified under Stage 3, assumptions were independently assessed for each product category and an independent review was performed on the levels of provisions recognized at each category level.</p> <p>-We recalculated the provision for non-performing loans in accordance with the Central Bank of Jordan Instructions Number (47/2009).</p> <p>-We compared the expected credit loss provision calculated in accordance with IFRS 9 as amended by the Central Bank of Jordan Instructions with the provision for expected credit losses calculated in accordance with the instructions of the Central Bank of Jordan No. (47/2009) and ensured that the Group has recorded whichever is higher for each stage.</p> <p>-We assessed the consolidated financial statement disclosures to ensure compliance with IFRS 7 and IFRS 9 as amended by the Central Bank of Jordan Instructions. We have also ensured completeness and accuracy of the disclosures by verifying the information to accounting records.</p>
---	---

Other Information

The board of directors is responsible for the other information. The other information comprises the board of directors' report which is expected to be available to us after the date of this auditor's report. (But does not include the consolidated financial statements and our auditor's report thereon),

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements, or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the other information not yet received, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of management and those charged with governance for the consolidated financial statements

The management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards as amended by the Central Bank of Jordan instructions and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's consolidated financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

The Group maintains proper accounting records duly organized prepared in accordance with International Financial Reporting Standards (IFRSs) as amended by the Central Bank of Jordan instructions and in line with the accompanying consolidated financial statements. We recommend that the General assembly of shareholders approve these consolidated financial statements.

**INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021**

(1) General information

INVESTBANK (the Bank) is a Jordanian Shareholding public limited company established under No. (173) on 12 August 1982 under the Companies Law No. (12) for the year 1964 with a capital of JD 6,000,000 distributed over 6,000,000 shares with a nominal value of JD 1 per share. The Bank's capital was increased several times until it reached JD 77,500,000/ share as of December 31, 2010, and the Bank's capital was increased during the year 2011 so the subscribed and paid-up capital was JD 85,250,000/ share. The Bank's capital was also increased by JD 14,750,000 on 10 April 2012, so the subscribed and paid-up capital of the Bank was JD 100 million/ share.

The head office of the bank is located in the city of Amman in the Shmeisani area, Abdul Hameed Sharaf Street, Tel. 5001500, P.O. 950601, Amman 11195, the Hashemite Kingdom of Jordan.

The Bank provides all banking and financial works related to its activity through its twelve branches and branches inside the Kingdom and through its subsidiaries.

INVESTBANK is a public shareholding company and is listed in Amman Stock Exchange.

The consolidated financial statements were approved by the Board of Directors at its session number 01/ 2022 on February 9, 2021, and are subject to the approval of the General Assembly of Shareholders.

(2) Summary of significant accounting policies

The significant accounting policies adopted by the Bank in the preparation of these consolidated financial statements.

2-1 Basis of the preparation of the consolidated financial statements

- The consolidated financial statements for the year ended December 31, 2021, for the Bank and its subsidiaries (together “the Group”) were prepared in accordance with the standards issued by the International Accounting Standards Board and the interpretations issued by the International Financial Reporting Interpretations Committee affiliated to the International Accounting Standards Board, as amended by the Central Bank of Jordan instructions.

The main differences between the IFRSs as they shall be applied and what has been approved by the Central Bank of Jordan are the following:

- Provisions for expected credit losses are formed in accordance with the instructions of the Central Bank of Jordan (No. 13/ 2018) “Application of the IFRS (9)” dated 6 June 2018 and in accordance with the instructions of the supervisory authorities in the countries in which the bank operates, whichever is stricter. The significant differences are as follows:
 - Debt instruments issued or guaranteed by the Jordanian government are excluded, so that credit exposures are treated and guaranteed by the Jordanian government without credit losses.
 - When calculating expected credit losses against credit exposures, a comparison between the calculation results is conducted as per IFRS 9, and in accordance with Central bank of Jordan no. (47/2009) December 10, 2009 at each stage, the stricter results are used, and classified in accordance with Central bank of Jordan requirements in this regard.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

- According to the Central Bank of Jordan's instructions for the classification of credit facilities and the calculation of impairment provision number (47/2009) issued on December 10, 2009, the credit facilities were classified into the following categories:
- A- low risk credit facilities, which do not calculate provision dated:
 - 1) Granted to the Jordanian government with its guarantee, as well as to the governments of countries where Jordanian banks have branches, such facilities are granted the same currency as the host country.
 - 2) Cash Guaranteed by (100%) of the outstanding balance at any time.
 - 3) Guaranteed with a 100% banker's acceptance.
- B- Acceptable risk credit facilities, which do not calculate provision:
 - 1) Strong financial positions and adequate cash flows.
 - 2) Contracted and covered with duly accepted guarantees.
 - 3) Having good sources of payment.
 - 4) Active account movement and regular payment for principal amount and interest.
 - 5) Efficient management of the client.
- C- Watch – list credit facilities (requiring special attention) which impairment allowances for are calculated within a range of (1.5% - 15%):
 These credit facilities are characterized by any of the following:
 - 1) The existence of dues for a period of more than (60) days and less than (90) days for the principal of credit facilities and/or interest.
 - 2) Exceeding the overdraft predetermined limit by (10%), and for a period of more than (60) days and less than (90) days.
 - 3) Credit facilities that have previously been classified as non-performing credit facilities then removed from the list upon proper according careful scheduling.
 - 4) Acceptable-risk credit facilities that has been rescheduled twice in one year.
 - 5) Credit facilities that have been expired for more than (60) days and less than (90) days and have not been renewed.
 This is in addition to other conditions detailed in the instructions.
- D- Non- performing credit facilities:
 Which are characterized with any of the following:
 - 1) One of its installments has been accrued, the principal and/or interest asset slackened, or the overdraft account has been freeze for the following terms:

Classification	Number of Breach days	Ratio of the provision in to the first year
Substandard credit facilities	(90) - (179) days	25%
Doubtful credit facilities	(180) to (359) days	50%
Loss credit facilities	(360) days and more	100%

- 2) Overdrafts that exceed the granting limit by (10%) and more, and for the duration of (90) days and more.
- 3) Credit facilities that have been expired for (90) days or more and have not been renewed.
- 4) Credit facilities granted to any customer declared bankrupt or to any company that has been deemed under liquidation.
- 5) Credit facilities that have been restructured three times in a year.
- 6) Current and on-demand accounts overdrawn for (90) days or more.
- 7) The value of the guarantees paid on behalf of the customers and has not been debited to the accounts, for 90 days or more overdue.

The expected credit losses provision against credit facilities is calculated in accordance with the 47/2009 instructions for this category of facilities according to the above ratios and the amount to unguaranteed credit facilities during the first year, while the allocation of the covered amount is completed at 25% and over four years.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

- Interest and commissions are suspended on non-performing credit facilities granted to customers in accordance with the instructions of the Central Bank of Jordan accordance with the instructions of the supervisory authorities in the countries in which the bank operates, whichever is stricter.
- Assets seized by the bank presented in the consolidated statement of financial position within other assets at the amount of which they were seized by the Bank or the fair value, whichever is less, and are reassessed on the date of the consolidated financial statements individually. Any impairment in their value is recorded as a loss in the consolidated statement of profit or loss and the increase is not recorded as revenue. The subsequent increase is taken to the consolidated statement of profit or loss to the extent that it does not exceed the value of the previously recorded impairment. As of the beginning of 2015, a gradual provision was made for real estate acquired for more than 4 years against debts according to the Circular of the Central Bank of Jordan No. 15/1/4076 dated 27 March 2014 and No. 10/1/2510 dated 14 February 2017. Noting that the Central Bank of Jordan issued Circular No. 10/1/13967 dated 25 October 2018, in which the Circular No. 10/1/16607 dated 17 December 2017 was approved for extension. The Central Bank of Jordan also confirmed postponing the calculation of the provision until the end of the year 2019. According to the Central Bank's Circular No. 10/1/16239 dated 21 November 2019, deduction of the required provisions against real estate acquired is made at the rate of (5%) of the total book values of these properties (regardless of the period of violation) as of the year 2021, Also, in accordance with the letter of the Central Bank of Jordan No. 10/3/13246 dated September 2, 2021 addressed to the Association of Banks in Jordan, the completion of the calculation of the provision has been postponed Until the year 2022 so that the required percentage of 50% of these properties are reached by the end of the year 2030.
- Additional provisions are calculated in the consolidated financial statements against some of the Bank's external investments in some neighboring countries, if any, and in compliance to Central Bank of Jordan's request.
- The central bank's cash and balances caption includes the cash reserve requirements, which represents balances that are restricted in withdrawal sought in accordance with the instructions of the Central Bank and in accordance with the instructions of the regulatory authority in the countries in which the Bank operates, whichever is more strict.
- The consolidated financial statements have been prepared in accordance with the historical cost principle, except for financial assets at fair value through the consolidated income statement and financial assets at fair value through other comprehensive income that appear at fair value at the date of the consolidated financial statements, as well as financial assets and liabilities that have been hedged against the risks of change in their value at fair value.
- The Jordanian Dinar is the presentation currency for the consolidated financial statements which represent the functional currency of the bank.
- The accounting policies used in preparation of the consolidated financial statements for the year ended December 31, 2021 are consistent with the accounting policies adopted for the year ended December 31, 2020 except as mentioned in Note 2-2.

2-2 Changes in accounting policy and disclosures

- The accounting policies used in the preparation of these consolidated financial statements are consistent with those followed in the preparation of the last consolidated financial statements for the year ended December 31, 2020, except for the adoption of new standards and amendments to the existing standards as mentioned below.

A- SIGNIFICANT ACCOUNTING POLICIES:

New standards or amendments	Effective date
Interest rate benchmark reform- Phase2 (Amendment to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16)	1 January 2021
Covid-19 Related rent concessions beyond 30 June 2021 (Amendment IFRS 16)	1 April 2021

The application of these amended standards did not have a significant effect on the consolidated financial statements.

**INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021**

B- New IFRSs and Amendments issued but not yet effective:

number of new standards, amendments to standards and interpretations that were issued but not yet effective, and have not A been applied when preparing these consolidated financial statements:

<u>New standards or amendments</u>	<u>Application Date</u>
Annual improvement to IFRS standards 2018-2020	1 January 2022
Reference to the conceptual framework (Amendments to IFRS3)	
Property, Plant and Equipment: Proceeds before intended use (Amendments to IFRS16)	1 January 2022 1 January 2022
Loss-making contracts (a contract in which the total cost required to fulfil the contract is higher than the economic benefit that can be obtained from it) - the cost of implementing the contract (Amendments to IAS 37)	1 January 2022
IFRS 17 Insurance Contracts*, including amendments Initial Application of IFRS 17 and IFRS 9 – Comparative Information	1 January 2023
Classification of liabilities into current or non-current liabilities (amendments to IAS 1)	1 January 2023
Definition of accounting estimates (Amendments to IAS 8)	1 January 2023
Disclosure of accounting policies (Amendments to IAS 1 and IFRS practice statement 2)	1 January 2023
Deferred tax related to assets and liabilities arising from a single transaction (Amendments to IAS 12)	1 January 2023
Sale or grant of assets between an investor and an affiliate company or a joint venture (amendments to IFRS 10 and IAS 28)	Optional

The management does not expect that there will be a material impact from the above standards upon implementation

Basis of the consolidation of financial statements:

The consolidated financial statements include the financial statements of the Bank and the companies under its control (its subsidiaries), and control is achieved when the Bank:

- Has the ability to control the investee;
- Is exposed to variable returns, or has the right to variable returns, resulting from its association with the investee;
- Has the ability to use its power to influence the returns of the investee.

The bank will re-estimate whether it controls the investees or not if the facts and circumstances indicate that there are changes on one or more of the control points referred to above.

In the event that the Bank's voting rights fall below the majority of voting rights in any of the investees, it will have the power to control when voting rights are sufficient to give the Bank the ability to unilaterally direct the related subsidiary activities. The bank takes into account all facts and circumstances when estimating whether the Bank has voting rights in the investee that are sufficient to give it the ability to control or not. These facts and circumstances include:

- The volume of voting rights the Bank has in relation to the number and distribution of other voting rights;
- Potential voting rights held by the Bank and any other voting rights holders or parties;
- Rights arising from other contractual arrangements; and
- Any additional facts and circumstances indicating that the bank has, or does not have, a current responsibility to direct the relevant activities at the time the required decisions are taken, including how to vote in meetings of previous general assembly's meetings.

The subsidiary is consolidated when the Bank controls the subsidiary and is deconsolidated when the Bank loses control of the subsidiary. Specifically, the results of operations of subsidiaries acquired or excluded during the year are included in the consolidated statement of Profit or loss from the date on which control is achieved until the date that control of the subsidiary is lost.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

Profits or losses and each item of the comprehensive income are distributed to the owners in the entity and the non-controlling interest, the comprehensive income for the subsidiaries is distributed to the owners in the entity and the non-controlling share even if this distribution will lead to a deficit in the balance of the non-controlling.

Adjustments are made to the financial statements of the subsidiaries, when required, to align their accounting policies with those used by the Bank.

All assets, liabilities, equity, income, and expenses related to transactions and balances between the Bank and its subsidiaries are eliminated upon consolidation.

The non-controlling interests in the subsidiaries are determined separately from the Bank's equity in these entities. The non-controlling interests of the shareholders currently present in the equity granted to their owners with a proportionate share of the net assets upon liquidation which be measured initially at fair value or by the proportionate share of non-controlling interests in the fair value of the identifiable net purchase amount of assets. The measurement is selected on an acquisition basis. Other non- controlling interests are initially measured at fair value. After acquisition, the carrying value of non- controlling interests is the value of these interests upon initial recognition, in addition to the non- controlling interest's share of subsequent changes in equity. Total comprehensive income is attributable to the non-controlling interests even if that results in a deficit in the non-controlling interests' balance.

Changes in the Bank's interest in subsidiaries that do not result in loss of control are accounted for as equity transactions. The present value of the Bank's and non-controlling interests are adjusted to reflect changes in their relative shares in the subsidiaries. Any difference between the amount by which the non- controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to the owners of the Bank.

When the bank loses control of a subsidiary, the profit or loss resulting from the disposal is calculated in the consolidated statement of profit or loss, with the difference between (1) the total fair value of the consideration received and the fair value of any remaining shares and (2) the present value of the assets (including goodwill), less the liabilities of the subsidiary and any non-controlling interests.

All amounts previously recognized in other comprehensive income in relation to that subsidiary are accounted for as if the Bank had directly disposed of the assets or liabilities related to the subsidiary.

The fair value of the investment that is held in the previous subsidiary at the date of loss of control is considered to be the fair value upon initial recognition of subsequent accounting under IFRS (9) "Financial instruments" when the provisions of this standard apply, or the cost of initial recognition of investment in an associate or a joint venture.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

These consolidated financial statements include the Bank its following subsidiaries as at December 31, 2021:

Name of the Company	Paid-in Capital (JOD)	Bank's Ownership %	Company's Activity Nature	Company's Head Office	Date of Acquisition
Al-Mwarded for Financial Brokerage	3,000,000	100%	Brokerage	Amman	2006
Tamkeen Leasing Co	20,000,000	97.5%	Finance lease	Amman	2006
Al Istethmari Latemweel Selselat Al Imdad Company	3,000,000	94%	Management and operation of bonded warehouses	Amman	2010
Jordanian Factoring Company	1,500,000	100%	Factoring of receivables	Amman	2011
Jordan Trade Facilities Company	16,500,000	95.3%	Granting loans and facilities	Amman	2016
Trade Facilities for Finance Leasing Co.	2,000,000	95.3%	Finance lease	Amman	2016
Bindar Trade and Investment Company	20,000,000	96.5%	Granting loans and facilities	Amman	2017
Ruboua Al Sharq Real Estate Company	50,000	96.5%	Sale of lands and properties owned by the Company	Amman	2017
Rakeen Real Estate Company	30,000	96.5%	Sale of lands and properties owned by the Company	Amman	2017
Bindar Finance Lease Company	1,000,000	96.5%	Finance lease	Amman	2017

- The financial statements of the subsidiaries are prepared for the same financial year of the Bank, using the same accounting policies used by the Bank. If the accounting policies adopted by the subsidiaries are different, the required adjustments are made on the financial statements of the subsidiaries to be consistent with the accounting policies used by the Bank.
- The financial statements of subsidiaries are consolidated into the consolidated profit or loss statement from the date they are owned, the date on which the bank's control over subsidiaries is actually transferred and ceased to be consolidated when the bank loses control.
- Non - controlling interest represent the share in net profit or loss and net assets not owned - directly or indirectly by the Bank in subsidiaries and are shown in the consolidated profit or loss statement. Property rights are also included in the consolidated financial position list separately from the rights of the Bank's shareholders.

In the case of preparing separate financial statements for the Bank as a separate entity, the investments in the subsidiaries are stated at cost.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

Segment Information

The business segment represents a group of assets and operations that jointly provide products or services subject to risks and returns that are different from those related to other business segments and that are measured according to the reports that are used by the executive management and decision makers in the Bank.

A geographical segment is associated with the provision of products or services in a particular economic environment that is subject to risks and rewards different from those related to segments operating in other.

Net interest income

Interest income and expense for all financial instruments with the exception of those classified as held for trading or measured at fair value through the consolidated statement of profit or loss in "net interest income" as "interest income" and "interest expenses" are recognized in the consolidated statement of profit or loss using the effective interest method. Interest on financial instruments measured at fair value through the consolidated statement of profit or loss is also included in the fair value movement during the period.

The effective interest rate (EIR) is the rate that discounts estimated future cash flows of the financial instrument through the expected life of the financial instrument or, where appropriate, a shorter period, to the net carrying amount of the financial asset or financial liability. The future cash flows are estimated taking into account all the contractual terms of the instrument.

The interest income/ interest expense is calculated by applying the EIR to the gross carrying amount of non-credit impaired financial assets (i.e., at the amortized cost of the financial asset before adjusting for any expected credit loss allowance), or to the amortized cost of financial liabilities. For credit-impaired financial assets the interest income is calculated by applying the EIR to the amortized cost of the credit-impaired financial assets (i.e., the gross carrying amount less the allowance for expected credit losses). For financial assets originated or purchased and are credit-impaired, the EIR reflects the ECL in determining the future cash flows expected to be received from the financial asset.

Interest income and expense in the Bank's consolidated statement of profit or loss also includes the effective portion of fair value changes for derivatives that are designated as hedging instruments in the cash flow hedges of interest rate risk. As for the fair value hedges of interest rate risk on interest expense and income, the effective portion of fair value changes for specific derivatives are also included, and fair value changes to the specific risks of the hedged item are also included in interest income and expense. Interest expenses also include the value of the interest against the lease obligations.

Net commissions income

Commissions' net income and expense include fees other than those that are an integral part of EIR. The commissions included in this part of the Bank's consolidated statement of profit or loss also include commissions charged for the loan service, non-use commissions related to loan obligations when this is unlikely to result in a specific arrangement for lending and commissions of co-financing loans.

Commission's expenses with regard to services upon receipt of services

Contracts with clients that result in recognition of financial instruments, part of which may be related to IFRS (9) or (15), in which case commissions are recognized in the part related to IFRS (9) and the remainder is recognized according to the IFRS (15).

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

Net income of financial instruments at fair value through the consolidated statement of profit or loss:

Net income from financial instruments at fair value through the consolidated statement of profit or loss includes all gains and losses resulting from changes in the fair value of financial assets and financial liabilities at fair value through the consolidated statement of profit or loss. The Bank has elected to present the movement at the full fair value of the assets and liabilities at fair value through the consolidated statement of profit or loss in this item, including interest income, expenses and related from dividends.

Dividend's income:

Dividend's income is recognized when the right to receive payment is established, being the date preceding the dividends of listed shares, and usually the date on which the shareholders agree to dividends of unlisted shares.

The dividends distribution in the consolidated statement of profit or loss depends on the classification and measurement of the shares, i.e.:

- With regard to equity instruments held through the consolidated statement of profit or loss, dividend income is included in the consolidated statement of profit or loss under the item of profit (loss) of financial assets at fair value through the consolidated statement of profit or loss.
- In the case of equity instruments classified as fair value through other comprehensive income, dividends are included in the consolidated statement of profit or loss as dividend from financial assets at fair value through other comprehensive income.

Financial instruments

Initial recognition of measurement:

Financial assets and financial liabilities are recognized in the consolidated statement of financial position of the Bank when the Bank becomes a party to the contractual provisions of the instrument and loans and advances to customers are recognized if they are credited to the customers' account.

Financial assets and liabilities are measured initially at fair value, and transaction costs that are directly attributable to the acquisition or issuance of financial assets and liabilities are added to the fair value of the financial assets or financial liabilities, or deducted therefrom, as necessary, upon initial recognition. Transaction costs that are directly related to the acquisition of financial assets or financial liabilities at fair value through the consolidated statement of profit or loss are recognized directly in the consolidated statement of profit or loss.

If the transaction price differs from fair value at initial recognition, the Bank will account for such difference as follows:

- When the fair value is evidenced by a quoted price in an active market for an identical asset or liability or based on a valuation technique that uses only data from observable markets, the difference is recognized on initial recognition (i.e., profit or loss on the first day).
- In all other cases, the fair value will be adjusted to align with the transaction price (i.e., day 1 profit or loss will be deferred by including it in the initial carrying amount of the asset or liability).

After initial recognition, the deferred gain or loss will be released to the consolidated statement of profit or loss on a rational basis, only to the extent that it arises from a change in a factor (including time) that market participants would take into account when pricing the asset or liability, or upon the de-recognition of such instrument.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

Financial assets:

Initial recognition:

All financial assets are recognized on the trade date where the purchase or sale of a financial asset is made under a contract whose terms require delivery of the financial asset within the timeframe established by the market concerned, and is initially measured at fair value, plus transaction costs, except for those financial assets classified as at fair value in the consolidated statement of profit or loss. Transaction costs directly attributable to the acquisition of financial assets classified as at FVTPL are recognized immediately in the statement of profit or loss.

Subsequent measurement:

All recognized financial assets that are within the scope of IFRS (9) are required to be subsequently measured at amortized cost or fair value on the basis of the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

Specifically:

- The financing instruments held in the business model that aims to collect contractual cash flows, and which have contractual cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding and are subsequently measured at amortized cost.
- The financing instruments held within the business model that aim to both collect contractual cash flows and sell debt instruments, which have contractual cash flows that are SPPI on the principal amount outstanding and are subsequently measured at fair value through other comprehensive income.
- All other financing instruments (such as debt instruments managed on fair value basis, or held for sale), and equity investments are subsequently measured at fair value through the consolidated statement of profit or loss. However, the Bank can take a non - irrevocable option/ determination after initial recognition of the financial asset on an asset-by-asset basis, as follows:
- The Bank can take the non - irrevocable option by including subsequent changes in the fair value of the investment in equity that is not held for trading or a possible replacement recognized by the buyer within the business combination to which the IFRS (3) applies, in other comprehensive income.
- The Bank can determine in a non-irrevocable manner the financing instruments that meet the criteria of amortized cost or fair value through other comprehensive income as measured by the fair value through the consolidated statement of profit or loss if it eliminates or significantly reduces mismatches in accounting (referred to as the fair value option).

Debt instruments at amortized cost or at fair value through other comprehensive income:

The Bank assesses the classification and measurement a financial asset based on the contractual cash flow characteristics and the Bank's business model for managing the asset.

For an asset to be classified and measured at amortized cost or at FVTOCI, its contractual terms should give rise to cash flows that are solely payments of principal and interest (SPPI) on the principal outstanding.

For the purpose of the SPPI test, the principal is the fair value of the financial asset at initial recognition. That principal amount may change over the life of the financial asset (e.g., if there are repayments of principal). Interest consists of consideration for the time value of money, for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending options and risks, as well as a profit margin. The SPPI assessment is made in the currency in which the financial asset is denominated.

The contractual cash flows represent SPPI, which are consistent with the basic financing arrangement. Contractual terms that introduce exposure to risks or volatility in the contractual cash flows that are unrelated to a basic financing arrangement, such as exposure to changes in equity prices or commodity prices, do not give rise to contractual cash flows that are SPPI. An originated or an acquired financial asset can be a basic financing arrangement irrespective of whether it is a loan in its legal form.

**INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021**

Business model assessment:

An assessment of business models for managing financial assets is fundamental to the classification of a financial asset. The Bank determines the business models at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. The Bank's business model does not depend on management's intentions for an individual instrument; therefore, the business model assessment is performed at aggregation rather than on an instrument-by-instrument basis.

The Bank may adopt more than one business model for managing its financial instruments which reflect how the Bank manages its financial assets in order to generate cash flows. The Bank's business models determine whether cash flows will result from collecting contractual cash flows, selling financial assets or both.

The Bank takes into account all relevant information available when making the business model assessment. However, this assessment is not performed on the basis of scenarios that expected to Bank does not reasonably expect to occur, such as the so-called 'worst case' or 'stress case' scenarios. the Bank also takes into account all relevant evidence available such as:

- The policies and declared objectives of the portfolio and the application of those policies and whether the management strategy focuses on obtaining contractual revenue, maintaining a specific rate of profit, and matching the period of financial assets with the period of financial liabilities in which those assets are financed cash flows are realized through the sale of assets.
- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the key management personnel.
- The risks that affect the performance of the business model (and financial assets held within that business model) and, in particular, the way in which those risks are managed.
- How managers of the business are compensated (e.g., whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected).

On initial recognition of the financial asset, the Bank determines whether the recently recognized financial assets are part of an existing business model or whether it reflects the beginning of a new business model. The Bank reassesses its business models in each reporting period to determine whether the business models have changed since the previous period.

When a debt instrument that is measured at fair value through other comprehensive income is derecognized, the cumulative gain/ loss previously recognized in other comprehensive income in equity is reclassified to the consolidated statement of profit or loss. On the other hand, as for equity investment measured at fair value through other comprehensive income, the cumulative gain/ loss previously recognized in other comprehensive income is not subsequently reclassified to the consolidated statement of profit or loss but is rather transferred directly within equity.

Debt instruments that are subsequently measured at amortized cost or at Fair value through other comprehensive income are tested for impairment.

Financial assets - Assessing whether contractual cash flows are payments of the principal and interest only:

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g., liquidity risk and administrative costs), as well as profit margin.

In assessing whether contractual cash flows are only SPPI, the Bank has considered the contractual terms of the instrument. This includes assessing whether the financial assets involve a contractual period that can change the timing or amount of contractual cash flows and therefore they do not meet the conditions of SPPI In making this assessment, the Bank considers:

- Contingent events that change the amount or timing of cash flows.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

- Prepaid features and the possibility to extend.
- Terms that limit the Bank's claim to cash flows from specified assets.

Financial assets at fair value through the statement of profit or loss:

Financial assets at fair value through statement of profit or loss are:

- Assets of contractual cash flows, and which have been not Principal debt and interest on the principal amount.
- Assets held within the business model other than those held to collect contractual cash flows or held for collection and sale.
- Assets designated at fair value through the consolidated statement of profit or loss using fair value option.

These assets are measured at fair value, and any gains/ losses arising from re-measurement are recognized in the consolidated statement of profit or loss.

Reclassification:

If the business model under which the Bank holds financial assets changes, the financial assets that were affected are reclassified. The classification and measurement requirements related to the new category apply prospectively from the first day of the first reporting period following the change in business model that results in reclassifying the Bank's financial assets. Changes in contractual cash flows are considered within the framework of the accounting policy for the amendment and exclusion of financial assets set out below.

Foreign exchange gains and losses:

The carrying amount of financial assets recorded in foreign currency is determined and translated at the rates prevailing at the end of each reporting period. Specifically:

- For financial assets measured at amortized cost that are not part of a designated hedging relationship, exchange differences are recognized in the consolidated statement of profit or loss.
- For debt instruments measured at at fair value through other comprehensive income that are not part of a designated hedging relationship, exchange differences on the amortized cost of the debt instrument are recognized in the consolidated statement of profit or loss. Other exchange differences are recognized in other comprehensive income in the investment's revaluation reserve.
- For financial assets measured at amortized cost through the consolidated statement of profit or loss that are not part of a designated hedging relationship, gains and losses of exchange differences are recognized in the consolidated statement of profit or loss.
- For equity instruments measured at fair value through other comprehensive income, exchange differences are recognized in other comprehensive income within investments revaluation reserve.

Fair value option:

A financial instrument with a fair value can be measured reliably at fair value through the consolidated statement of profit or loss (fair value option) upon initial recognition, even if the financial instruments are not acquired or incurred primarily for the purpose of selling or repurchasing. The fair value option for financial assets can be used if it substantially eliminates or reduces the inconsistency of the measurement or recognition that would otherwise have arisen from the measurement of assets or liabilities, or the recognition of related profit and loss on a different basis ("accounting mismatch"). The fair value option for financial liabilities can be chosen in the following cases:

- If the choice leads to the cancellation or substantially reduces accounting mismatch.
- If the financial liabilities are part of a portfolio managed on a fair value basis, according to a documented risk or investment management strategy.
- If there is a derivative that is included in the host financial or non-financial contract and the derivative is not closely related to the host contract.

These tools cannot be reclassified to fair value through the consolidated statement of profit or loss while they are held or issued. Financial assets designated at fair value through the consolidated statement of profit or loss are recorded at fair value with any unrealized gains or losses arising from changes in the fair value of investment income.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

Expected credit losses:

The Bank recognizes loss allowances for expected credit loss on the following financial instruments that are not measured at fair value through the consolidated statement of profit or loss:

- Loans and credit facilities (direct and indirect).
- Debt instruments carried at amortized cost.
- Debt instruments classified at fair value through other comprehensive income.
- Financial guarantees provided in accordance with the requirements of IFRS 9.
- Receivables related to leases are within the requirements of IAS (17) and IFRS (16).
- Trade receivables.
- Credit exposures to banks and financial institutions [excluding current balances used to cover the Bank's transactions such as remittances, guarantees and credits within a very short period of time (days)].

Provisions for expected credit losses are formed in accordance with the instructions of the Central Bank of Jordan (No. 13/ 2018) "Application of the IFRS (9)" dated 6 June 2018 and in accordance with the instructions of the supervisory authorities in the countries in which the bank operates, whichever is stricter. The significant differences are as follows:

- Debt instruments issued or guaranteed by the Jordanian government are excluded, so that credit exposures are treated and guaranteed by the Jordanian government without credit losses.
- When calculating credit losses against credit exposures, the calculation results are compared according to the IFRS (9) under the instructions of the Central Bank of Jordan No. (47/2009) dated 10 December 2009 for each stage separately and the stricter results are taken.

Impairment loss is not recognized in equity instruments.

With the exception and notes Impairment losses are Purchased or Originated Rating-Impaired' (POCI) financial assets (which are considered separately below), ECL are required to be measured through a loss allowance at an amount equal to:

- 12-month ECL, i.e., lifetime ECL that result from those default events on the financial instrument that can be realized within 12 months after the reporting date, referred to in Stage 1.
- 12-month ECL, i.e., lifetime ECL that result from those possible default events over the age of the financial instrument, referred to in Stage 2 and Stage 3.

A loss allowance for lifetime ECL is required for a financial instrument if the credit risk on that financial instrument has increased significantly since initial recognition. For all other financial instruments, ECL are measured at an amount equal to the 12-month ECL.

ECL are a probability-weighted estimate of the present value of credit losses. These are measured as the present value of the difference between the cash flows due to the Bank under the contract and the cash flows that the Bank expects to receive, which arise from the weighting of multiple future economic scenarios, discounted at the asset's effective interest rate.

For the unutilized limits, the expected credit loss is the difference between the present value of the difference between the contractual cash flows due to the Bank if the borrower withdraws the financing and the cash flows that the Bank expects to receive if the financing is utilized.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

For financial guarantee contracts, the ECL is the difference between the expected payments to reimburse the holder of the guaranteed debt instrument less any amounts that the Bank expects to receive from the instrument holder, the customer or any other party.

The Bank measures ECL on an individual basis, or on the portfolio basis that share similar economic risk characteristics. The measurement of the loss allowance is based on the present value of the asset's expected cash flows using the asset's original EIR, regardless of whether it is measured on an individual basis or a portfolio basis.

Credit-impaired financial assets:

A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Credit-impaired financial assets are referred to as Stage 3 assets. Evidence of credit-impairment includes observable data about the following:

- Significant financial difficulty faced by borrower or issuer.
- Breach of contract, for example, default or delay in payment.
- The Bank grants the borrower a waiver for economic or contractual reasons related to the borrower's financial difficulty.
- The disappearance of an active market for that financial asset because of financial difficulties.
- The purchase of a financial asset at a deep discount that reflects the incurred credit losses.

It may not be possible to identify a single discrete event, instead, the combined effect of several events may have caused financial assets to become credit impaired. The Bank assesses whether debt instruments that are financial assets measured at amortized cost or FVTOCI are credit-impaired at each reporting date. To assess if sovereign and corporate debt instruments are credit impaired, the Bank considers factors such as bond yields, credit ratings and the ability of the borrower to increase funding.

A loan is considered credit-impaired when a concession is granted to the borrower due to a deterioration in the borrower's financial condition, unless there is evidence that as a result of granting the concession the risk of not receiving the contractual cash flows has reduced significantly and there are no other indicators of impairment. For financial assets where concessions are contemplated but not granted, the asset is deemed credit impaired when there is observable evidence of credit-impairment including meeting the definition of default. The definition of default includes possibility of a backstop if amounts are overdue for 90 days or more. However, cases where the asset's impairment is not recognized after (90) days of maturity, are supported by reasonable information.

Purchased or originated credit-impaired' (POCI) financial assets:

POCI financial assets are treated differently because the asset is credit-impaired at initial recognition. For these assets, the Bank recognizes all changes in lifetime ECL since initial recognition as a loss allowance with any changes recognized in the consolidated statement of profit or loss. A favorable change for such assets creates an impairment gain.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

Definition of default:

The definition of default is deemed critical to the determination of ECL. The definition of default is used in measuring the amount of ECL and in the determination of whether the loss allowance is based on 12-month or lifetime ECL, as default is a component of the probability of default (PD) which affects both the measurement of ECL and the identification of a significant increase in credit risk as shown below.

The Bank considers the following as an event of default:

- The borrower defaults for more than 90 days on any significant credit obligation to the Bank.
- The borrower is unlikely to pay his credit obligations of the Bank in full.

The definition of default is appropriately tailored to reflect different characteristics of different types of assets. Overdrafts are considered as being past due once the customer has breached an advised limit or has been advised of a limit smaller than the current amount outstanding.

When assessing if the borrower is unlikely to pay its credit obligation, the Bank takes into account both qualitative and quantitative indicators. The information assessed depends on the type of the asset, for example in corporate lending a qualitative indicator used is the breach of covenants, which is not relevant for retail lending. Quantitative indicators, such as overdue status and non-payment of another obligation to the same counterparty are key inputs in this analysis. The Bank uses a variety of sources of information to assess default which are either developed internally or obtained from external sources.

Significant increase in credit risk:

The Bank monitors all financial assets, issued loan commitments and financial guarantee contracts that are subject to impairment requirements to assess whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk, the Bank will measure the loss allowance based on lifetime rather than 12-month ECL.

The Bank will not consider that financial assets with 'low' credit risk at the reporting date did not have a significant increase in credit risk. As a result, the Bank monitors all financial assets, issued loan commitments and financial guarantee contracts that are subject to impairment for significant increase in credit risk.

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Bank compares the risk of a default occurring on the financial instrument at the reporting date based on the remaining maturity of the instrument with the risk of a default that was anticipated for the remaining maturity at the current reporting date when the financial instrument was first recognized. In making this assessment, the Bank considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort, based on the Bank's historical experience and expert credit assessment including forward-looking information.

Multiple economic scenarios form the basis of determining the probability of default at initial recognition and at subsequent reporting dates. Different economic scenarios will lead to a different probability of default. It is the weighting of these different scenarios that forms the basis of a weighted average probability of default that is used to determine whether credit risk has significantly increased.

For corporate financing, forward-looking information includes the future prospects of the industries in which the Bank's counterparties operate, that can be obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organizations, as well as taking into consideration various internal and external sources of actual and forecast economic information.

For individuals financing, forward looking lending information includes the same economic forecasts as corporate lending with additional forecasts of local economic indicators, particularly for regions with a concentration to certain industries, as well as internally generated information of customer payment behavior. The Bank allocates its counterparties to a relevant internal credit risk grade depending on their credit quality.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

The quantitative information is a primary indicator of significant increase in credit risk and is based on the change in lifetime PD by comparing:

- The remaining lifetime PD at the date of reporting.
- The remaining lifetime PD at a point in time that was estimated based on facts and circumstances at the initial recognition of the exposure.

The PDs are considered forward-looking, and the Bank uses the same methodologies and data used to measure the expected credit loss provisions.

The qualitative factors that indicate significant increase in credit risk are reflected in PD models on a timely basis. However, the Bank still considers separately some qualitative factors to assess if credit risk has increased significantly. For corporate lending, there is particular focus on assets that are included on a 'watch list' given an exposure is on a watch list once there is a concern that the creditworthiness of the specific counterparty has deteriorated. For retail lending, the Bank considers the expectation of forbearance and payment holidays, credit scores and events such as unemployment, bankruptcy, divorce or death.

Given that a significant increase in credit risk since initial recognition is a relative measure, a given change, in absolute terms, in the PD will be more significant for a financial instrument with a lower initial PD than compared to a financial instrument with a higher PD.

As a backstop when an asset becomes 30 days past due, the Bank considers that a significant increase in credit risk has occurred and the asset is in stage 2 of the impairment model, i.e. the loss allowance is measured as the lifetime ECL.

Modification and de-recognition of financial assets

A modification of a financial asset occurs when the contractual terms governing the cash flows of a financial asset are renegotiated or otherwise modified between initial recognition and maturity of the financial asset. A modification affects the amount and/ or timing of the contractual cash flows either immediately or at a future date. In addition, the introduction or adjustment of existing covenants of an existing loan would constitute a modification even if these new or adjusted covenants do not yet affect the cash flows immediately but may affect the cash flows depending on whether the covenant is or is not met (e.g., a change to the increase in the interest rate that arises when covenants are breached).

The bank renegotiates loans with customers who face financial difficulties to increase collection and reduce the risk of default. The terms of repayment of the loan are facilitated in cases where the borrower has made all reasonable efforts to pay under the original contractual terms, and an important risk of default or default has occurred, and it is expected that the borrower will be able to fulfil the revised terms. The revised terms in most of the cases include an extension of the maturity of the loan, changes to the timing of the cash flows of the loan (principal and interest repayment), reduction in the amount of cash flows due (principal and interest forgiveness) and amendments to covenants. The bank has a waiting policy that applies to corporate and individual lending.

When a financial asset is modified, the bank assesses whether this amendment leads to de-recognition. As per the Bank's policy, the modification leads to de-recognition when it causes a significant difference in the terms.

- Qualitative factors, such as the non-existence of contractual cash flows after modification as SPPI, change in currency or change in the counterparty, or extent of change in interest rates, maturity, or covenants. If this does not clearly indicate a fundamental modification.
- Conducting a quantitative evaluation to compare the present value of the remaining contractual cash flows under the original terms with the contractual cash flows in accordance with the revised terms and deduct both amounts based on the original effective interest.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

In the case where the financial asset is derecognized, the loss allowance for ECL is remeasured at the date of de-recognition to determine the net carrying amount of the asset at that date the difference between this revised carrying amount and the fair value of the new financial asset with the new terms will lead to a gain or loss on de-recognition. The new financial asset will have a loss allowance measured based on 12-month ECL except in the rare occasions where the new loan is considered to be originated as credit-impaired. This applies only in the case where the fair value of the new loan is recognized at a significant discount to its revised paramount because there remains a high risk of default which has not been reduced by the modification. The Bank monitors credit risk of modified financial assets by evaluating qualitative and quantitative information, such as if the borrower is in past due status under the new terms.

When the contractual terms of a financial asset are modified and the modification does not result in de-recognition, the Bank determines if the financial asset's credit risk has increased significantly since initial recognition by comparing:

- The remaining lifetime PD estimated based on data at initial recognition and the original contractual terms.
- The remaining PD at the reporting date based on the revised terms.

For financial assets modified as part of the Bank's forbearance policy, where modification did not result in de-recognition, the estimate of PD reflects the Bank's ability to collect the modified cash flows taking into account the Group's previous experience of similar forbearance action, as well as various behavioral indicators, including the borrower's payment performance against the modified contractual terms. If the credit risk remains significantly higher than what was expected at initial recognition, the loss allowance will continue to be measured at an amount equal to lifetime ECL. The loss allowance on forborne loans will generally only be measured based on 12-month ECL when there is evidence of the borrower's improved repayment behavior following modification leading to a reversal of the previous significant increase in credit risk.

Where a modification does not lead to de-recognition, the Bank calculates the modification gain/loss comparing the gross carrying amount before and after the modification (excluding the ECL allowance). Then, the Bank measures ECL for the modified asset, where the expected cash flows arising from the modified financial asset are included in calculating the expected cash shortfalls from the original asset.

The Bank derecognizes a financial asset only when the contractual rights to the asset's cash flows expire, or when the financial asset and substantially all the risks and rewards of ownership of the asset are transferred to another entity. If the Bank neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Bank recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Bank retains substantially all the risks and rewards of ownership of a transferred financial asset, the Bank continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain/loss that had been recognized in OCI and accumulated in equity is recognized in the consolidated statement of profit or loss, with the exception of equity investment designated as measured at FVTOCI, where the cumulative gain/loss previously recognized in OCI is not subsequently reclassified to the consolidated statement of profit or loss.

Write-offs:

Financial assets are written off when there is no reasonable expectation of recovery, such as the customer not participating in a payment plan with the Bank. The Bank classifies the funds or amounts due for write-off after exhausting all possible payment methods and taking the necessary approvals. However, if the financing or receivable is written off, the Bank continues the enforcement activity to try to recover the outstanding receivables, which are recognized in the consolidated statement of profit or loss upon recovery.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

ECL provision of presentation in the consolidated statement of financial position :

Loss allowances for ECL are presented in the consolidated statement of financial position as follows:

- For financial assets measured at amortized cost: as a deduction from the gross carrying amount of the assets.
- For debt instruments measured at FVTOCI: no provision is recognized in the consolidated statement of financial position as the carrying amount is at fair value. However, the loss allowance is included as part of the revaluation amount in the investments revaluation reserve;
- Loan's commitments and financial guarantee contracts: as a provision.
- Where a financial instrument includes both a drawn and an undrawn component, and the Bank cannot identify the ECL on the loan commitment component separately from those on the drawn component, the Bank presents a combined loss allowance for both components. The combined amount is presented as a deduction from the gross carrying amount of the drawn component. Any excess of the loss allowance over the gross amount of the drawn component is presented as a provision.

Financial liabilities and equity:

Issued Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

A financial liability is a contractual obligation to deliver cash or another financial asset or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the Bank or a contract that will or may be settled in the Bank's own equity instruments and is a non-derivative contract for which the Bank is or may be obliged to deliver a variable number of its own equity instruments, or a derivative contract over own equity that will or may be settled other than by the exchange of a fixed amount of cash (or another financial asset) for a fixed number of the Bank's own equity instruments.

Loans and advances:

The "loans and advances" included in the statement of financial position comprise the following:

- Loans and advances measured at amortized cost; initially measured at fair value plus incremental direct transaction costs, and subsequently measured at amortized cost using the effective interest method.
- Loans and advances, which are measured at FVTPL or designated as at FVTPL; are measured at fair value with changes recognized immediately in profit or loss.
- Lease receivables.
- Interest and commissions are suspended on non-performing credit facilities granted to clients in accordance with the instructions of the Central Bank of Jordan.
- Credit facilities and their suspended interest covered by provisions are transferred entirely off the consolidated statement of financial position, in accordance with the decisions of the Board of Directors in this regard.

When the Group purchases a financial asset and concludes an agreement simultaneously to resell the asset (or a substantially similar asset) at a fixed price at a later date (repurchase or borrowing shares), the consideration paid is calculated as a loan or advance, and the asset is not recognized in the Group's financial statements.

Equity instruments:

Share capital:

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all its liabilities. Equity instruments issued by the Bank are recognized at the proceeds received, net of direct issue costs.

Treasury shares:

Repurchase of the Bank's own equity instruments is recognized and deducted directly in equity. No gain/loss is recognized in profit or loss on the purchase, sale, issue, or cancellation of the Bank's own equity instruments.

Composite instruments:

The component parts of the composite instruments (such as convertible notes) issued by the Bank are classified separately as financial liabilities and equity in accordance with the content of the contractual arrangements, definitions of financial liabilities and equity instruments. The transfer option that will be settled by exchanging a fixed cash amount or other financial asset for a specified number of the company's equity instruments is an equity instrument.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

At the date of issue, the fair value of the liability component is estimated using the prevailing interest rate in the market for similar non-convertible instruments. In the case of non-embedded related derivatives, they are first separated, and the remaining financial liabilities are recorded on an amortized cost basis using the effective interest method until they are extinguished upon conversion or on the instrument's maturity date.

Financial liabilities:

Financial liabilities are classified either as financial liabilities at fair value through the consolidated statement of profit or loss or other financial liabilities.

Financial liabilities at fair value through the consolidated statement of profit or loss:

Financial liabilities are classified at fair value through the consolidated statement of profit or loss when financial liabilities (a) are held for trading or (b) are classified at fair value through the consolidated statement of profit or loss. A financial liability is classified as held for trading if:

- It is incurred principally for the purpose of repurchasing in the near term.
- Upon initial recognition it is part of a portfolio of identified financial instruments that the Bank and has a modern actual pattern of short-term profit taking.
- It is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for the purpose of trading or the potential consideration that a buyer may pay as part of a business combination at fair value is determined through the consolidated statement of profit or loss upon initial recognition if:

- This designation substantially eliminates or reduces the inconsistency of the measurement or recognition that may otherwise arise.
- The financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Bank's documented risk management or investment strategy, and information about the grouping is provided internally on that basis.
- If the financial obligation forms part of a contract that contains one derivative or more. IFRS 9 allows a fully hybrid contract (composite) to be determined at fair value through the consolidated statement of profit or loss.

Financial liabilities at fair value through profit or loss are stated at fair value through the consolidated statement of profit or loss with any gains or losses arising on remeasurement recognized in the consolidated statement of profit or loss to the extent that they are not part of a designated hedging relationship. The net gain or loss recognized in the consolidated statement of profit or loss includes any interest paid on the financial liabilities and is incorporated in the item "net profit or loss from other financial instruments" at fair value through the consolidated statement of profit or loss.

However, in respect of non-derivative financial liabilities classified at fair value through the consolidated statement of profit or loss, the amount of the change in the fair value of the financial liabilities that resulted from changes in the credit risk of those liabilities is recognized in other comprehensive income, unless recognition of the effects of changes in the credit risk of liabilities in other comprehensive income would create or increase accounting mismatch in the consolidated statement of profit or loss. The remaining amount of changes in the fair value of the liability is recognized in the consolidated statement of profit or loss, and changes in the fair value attributable to the credit risk of financial liabilities recognized in other comprehensive income are not reclassified subsequently to the consolidated statement of profit or loss. Instead, it is transferred to retained earnings upon de-recognition of the financial liability.

With regard to liabilities for issued loans and financial guarantee contracts classified as fair value through the consolidated statement of profit or loss, all gains and losses are recognized in the consolidated statement of profit or loss.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

When determining whether recognition of changes in the credit risk of liabilities in other comprehensive income will create or increase the accounting mismatch in the consolidated statement of profit or loss, the Bank assesses whether it expects to offset the effects of changes in the credit risk of the liabilities in the consolidated statement of profit or loss with a change in the fair value of another financial instrument that has been measured at fair value through the consolidated statement of profit or loss.

Other financial liabilities:

Other financial liabilities, including deposits and loans, are initially measured at fair value, net of transaction costs. Other financial liabilities are then measured at amortized cost, using the effective interest method.

The effective interest method is a method for calculating the amortized cost of a financial liability and allocating interest expenses over the relevant period. An effective interest rate is the rate that exactly discounts estimated future cash payments during the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount at initial recognition to obtain details on the effective interest rate.

De-recognition of financial liabilities:

The Bank derecognizes financial liabilities when, and only when, the Bank's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in consolidated statement of profit or loss.

The exchange between the Bank and its existing lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Likely, the Bank treats the significant modification of the outstanding obligation conditions or part thereof as extinguishment of the original financial liabilities and the recognition of new liabilities. The terms are assumed to be substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10% different from the discounted present value of the remaining cash flows of the original financial liability.

Derivative financial instruments:

The bank enters a variety of derivative financial instruments, some of which are held for trading while others are maintained to manage exposure to interest rate risk, credit risk, and foreign exchange rate risk. Financial derivatives include foreign currency forward contracts, interest rate swaps, interest rate swaps across currencies and credit default swaps.

Derivatives are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at their fair value at the date of each statement of financial position. The resulting profits/ losses are recognized in the consolidated statement of profit or loss immediately unless the derivative is identified and are effective as a hedging instrument, in which case the timing of recognition in the consolidated statement of profit or loss depends on the nature of the hedge relationship. The Bank identifies certain derivatives as either fair value hedges for recognized assets and liabilities, or for the company's obligations (fair value hedges), potential forecasting hedges, foreign currency risk hedges for fixed obligations (cash flow hedges) or net investments in foreign operations (net investment hedges).

Derivatives with positive fair value are recognized as a financial asset, while derivatives with negative fair value are recognized as financial liabilities. Derivatives are presented as non-current assets or non-current liabilities if the residual maturity of the instrument is more than (12) months and is not expected to be realized or settled within (12) months. Other derivatives are presented as current assets or current liabilities.

Embedded derivatives:

Derivatives embedded in financial liabilities or other non-financial asset host contracts are treated as separate derivatives when their risks and characteristics are not closely related to those of the host contracts and the host contracts are not measured at fair value through the consolidated statement of profit or loss.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

An embedded derivative is presented as a non-current asset or a non-current liability if the remaining maturity of the hybrid instrument to which the embedded derivative relates is more than 12 months and is not expected to be realized or settled within 12 months. Other embedded derivatives are presented as other assets or other liabilities.

Financial guarantee contracts:

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss incurred because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by the Bank's entity are initially measured at their fair value, and if they are not determined at fair value through the consolidated statement of profit or loss that does not result from the transfer of a financial asset, they are subsequently measured:

- The amount of the loss allowance determined in accordance with IFRS (9).
- The amount initially recognized, less, where appropriate, the amount of accumulated profit or loss recognised in accordance with the Bank's revenue collection policies, whichever is greater.

Financial guarantee contracts that are not designated at fair value through the consolidated statement of profit or loss are presented as provisions in the consolidated statement of financial position and remeasurement is presented in other income.

The Bank did not specify any financial guarantee contracts at fair value through the consolidated statement of profit or loss.

Commitments to provide a loan at an interest rate lower than the market price:

Commitments to provide a loan at an interest rate lower than the market price are measured initially at their fair value, and if they are not determined at fair value through the consolidated statement of profit or loss, they are subsequently measured:

- The amount of the loss allowance determined in accordance with IFRS (9).
- The amount initially recognized, less, where appropriate, the amount of accumulated profit or loss recognized in accordance with the Bank's revenue collection policies, whichever is greater.

Commitments to provide a loan at an interest rate lower than the market price, which are not designated at fair value through the consolidated statement of income are presented as provisions in the consolidated statement of financial position, and remeasurement is presented in other income.

The bank did not designate any commitments to provide a loan at an interest rate lower than the market price, which are designated at fair value through the consolidated statement of profit or loss.

Hedge accounting

- The Bank identifies certain derivatives as hedging instruments with respect to foreign currency risk and interest rate risk in fair value hedges, cash flow hedges or net investment hedges in foreign operations, as appropriate. Foreign exchange risk hedges on the Bank's commitments are also accounted for as cash flow hedges. The Bank does not apply fair value hedge accounting to hedges of interest rate risk portfolio. In addition, the Bank does not use the exemption to continue to use hedge accounting rules using IAS (39), i.e., the Bank applies the hedge accounting rules of IFRS (9).
- At the beginning of the hedge relationship, the Bank documents the relationship between the hedging instrument and the hedged item, as well as the risk management objectives and strategy for undertaking various hedging transactions. Furthermore, at the commencement of the hedging and on a continuous basis, the Bank documents whether the hedging instrument is effective in offsetting changes in the fair value or cash flows of the hedged item that can be attributed to the hedged risk, and for which all hedging relationships meet the following hedging effectiveness requirements:
 - There is an economic relationship between the hedged item and the hedging instrument.
 - The effect of credit risk does not dominate the value changes that result from this economic relationship.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

- The hedge ratio for the hedge relationship is the same as that results from the amount of the hedged item to which the Bank actually hedges and the amount of the hedging instrument that the Bank actually uses to hedge that amount of the hedged item.
- The Bank rebalances the hedging relationship in order to comply with the requirements of the hedge rate when necessary. In such cases, the suspension may apply to only part of the hedge relationship. For example, the hedge ratio may be adjusted in such a way that part of the hedged item is not part of the hedge relationship, and therefore the hedge accounting is suspended only for the size of the hedging item that is no longer part of the hedge relationship.
- If the hedge relationship ceases to meet the hedge effectiveness requirements related to the hedge ratio but the risk management objective of this hedge relationship remains the same, the Group adjusts the hedge ratio for the hedging relationship (such as the hedge rebalance) so that the qualification criteria are combined again.
- In some hedging relationships, the Bank only determines the true value of the options. In this case, a change in the fair value of the component of the time value of the option in the other comprehensive income is deferred, over the hedging period, to the extent that it relates to the hedged item and is reclassified from equity to the consolidated statement of profit or loss when the hedged item does not lead to recognition of non-financial items. The Bank's risk management policy does not include hedging items that lead to recognition of non-financial items, because the Bank's risks relate to financial items only.
- The hedged items determined by the Bank are hedging items related to the period, which means that the original time value of the option related to the hedged item of equity is amortized to the consolidated statement of profit or loss on a rational basis (for example, according to the straight-line method) over the period of hedging relationship.
- In some hedging relationships, the Bank does not determine the forward component of a forward contract or the difference on a currency basis for the hedging instrument across the currencies. In this case, a similar treatment applies to the time value of the options. It is optional to treat the forward component of the forward contract and the difference on a currency basis, and the option is applied on a hedging basis separately, other than treating the time value of options that are mandatory. Regarding hedging relationships and forward derivatives or foreign currencies such as interest rate swaps across currencies, when the forward component or the difference on the currency basis is excluded from classification, the Bank generally recognizes the excluded item in other comprehensive income.
- Details of the fair values of the derivative instruments used for hedging purposes and movements in the hedging reserve are determined in equity.

Fair value hedges:

- The change in the fair value of the qualified hedging instrument is recognized in the consolidated statement of profit or loss except when the hedging instrument hedges the equity instrument designated at fair value through other comprehensive income, in which case it is recognized in other comprehensive income. The Bank has not specified fair value hedging relationships when the hedging instrument hedges the equity instrument designated at fair value through other comprehensive income.
- The carrying amount of the hedged item that was not measured at fair value is adjusted for the change in the fair value, which can be attributed to the hedged risk and a corresponding recognition in the consolidated statement of profit or loss. For debt instruments that are measured at fair value through other comprehensive income, the carrying amount is not adjusted as it is at fair value, but the profit or loss portion of the fair value on the hedged item associated with the risk hedged is included in the consolidated statement of profit or loss instead of the other comprehensive income. When the hedged item has a fair value equity instrument determined through other comprehensive income, the hedging gains/ losses remain in the other comprehensive income to match the hedging instrument.
- When the hedging gains/ losses are recognized in the consolidated statement of profit or loss, they are recognized in the same item as the hedged item.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

- The Bank does not suspend hedging accounting except when the hedging relationship (or part of it) ceases to meet the qualifying criteria (after rebalancing, if any). This includes cases where the hedging instrument expires, is sold, terminated, or exercised, and exclusion is stated for the future effect. Amortization is accounted for the fair value adjustment to the book value of the hedged items for which the effective interest method is used (i.e., tools we have measured at amortized cost or at fair value through other comprehensive income) that results from the hedged risk in the consolidated statement of profit or loss as of a date not later than the date of suspension of hedge accounting.

Cash flow hedges

- The effective portion of changes in the fair value of derivatives and other qualified hedging instruments that are determined and qualify as cash flow hedges in the hedging reserve for cash flow is recognized, as a separate component, in other comprehensive income. This is limited to the cumulative change in the fair value of the hedged item from the start of the hedge less any amounts recycled to the consolidated statement of profit or loss.
- Amounts previously recognized in other comprehensive income and the accumulation of shareholders' equity in the consolidated statement of profit or loss in the periods in which the hedging item affects profit or loss are reclassified in the same line of the hedged recognized item. If the Bank no longer expects the transaction to occur, then this amount is immediately reclassified to the consolidated statement of profit or loss.
- The bank does not suspend hedging accounting except when the hedging relationship (or part of it) ceases to meet the qualifying criteria (after rebalancing, if any). This includes cases where the hedging instrument expires, is sold, terminated, or exercised, or when the occurrence of a specific hedging transaction is not considered to be highly probable. Suspension is calculated with a future effect. Any gains/ losses recognized in other comprehensive income and accumulated in equity at that time remain in equity and recognized when the expected transaction is finally recorded in profit or loss. When the occurrence of a forecast transaction becomes unpredictable, the accumulated profits/ losses in shareholders' equity is reclassified and recognized directly in the consolidated statement of profit or loss.

Hedges of net investments in foreign operations

- Hedges of net investments in foreign operations are accounted for similarly to cash flow hedges. Any gains/ losses on the hedging instrument relating to the effective portion of the hedge are recognized in other comprehensive income and accumulated in the reserve of foreign exchange.
- The profits and losses resulting from the hedging instrument related to the effective portion of the hedging accumulated in the foreign currency translation reserve are reclassified into profits or losses in the same way as the foreign exchange differences of the foreign operation as described above.

Offsetting

- Financial assets and liabilities are offset and net amounts are reported in the consolidated statement of financial position, only when legally enforceable rights are established and when such amounts are settled on a net basis, and when assets and liabilities are settled simultaneously.

Accounts managed for the interest of clients

- Accounts managed by the Bank on behalf of clients are not considered as assets of the Bank. Fees and commissions for managing these accounts are shown in the consolidated statement of profit or loss. A provision is made against the decrease in the value of the capital-guaranteed portfolios, which are managed for the interest of clients.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

Fair Value

- Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Bank takes into account, when pricing the asset or liability, if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/ or disclosure purposes in these financial statements is determined on such a basis, except for measurements that have some similarities to fair value but are not fair value such as value as used in IAS (36).
- In addition, for the purposes of preparing financial reports, fair value measurements are categorized to level (1), (2) or (3) based on the clarity of the inputs in relation to the fair value measurements and the importance of the inputs in relation to the full fair value measurements, and they are defined as follows:
Level 1: inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.
Level 3: inputs for the asset or liability that are not based on observable market data.

Provisions

- Provisions are recognized when the Bank has obligations at the date of the consolidated statement of financial position arising from past events and obligations can be paid and measured reliably.

Employees' benefits

Employees' short-term benefits

- Employee's short-term benefits are recognized as expenses when providing related services. The commitment relating to the amount expected to be paid is recognized when the Bank has a current legal or constructive obligation to pay for the previous services provided by the employee and the obligation can be estimated reliably.

Employees' other long-term benefits

- The Bank's net liabilities in relation to employees' benefits are the number of future benefits that employees have received for their services in the current and previous periods. Those benefits are deducted to determine their present value. The remeasurement is recognized in the consolidated statement of profit or loss in the period in which it arises.

Income tax

- Tax expenses represent amounts of tax payable and deferred tax.
- Payable tax expenses are calculated based on taxable profits. Taxable profits are different from profits disclosed in the consolidated financial statements, as the disclosed profits include revenue that is not subject to tax, expenses that are not deductible in the financial year but in subsequent years or accumulated losses that are accepted in terms of tax, or items that are not taxable or deductible for tax purposes.
- Taxes are calculated as per the tax rates established by the laws, regulations and instructions applicable in the countries where the Bank operates.
- Deferred tax is the tax expected to be paid or recovered as a result of temporary timing differences between the value of assets or liabilities in the consolidated financial statements and the value based on which taxable profit is calculated. Deferred tax is calculated using the liability method in the statement of financial position, and deferred tax is accounted for in accordance with tax rates expected to be applied to settle the tax liability or realize deferred tax assets.
- Deferred tax balance is reviewed at the consolidated financial statements date and written down when it is not probable to utilize tax assets partially or fully.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

Assets seized by the Bank in settlement of due debts

- Assets seized by the Bank are recognized in the consolidated statement of financial position within the "other assets" item at the lower of the value reverted to the Bank and the fair value and are revaluated at the consolidated financial statements date at fair value separately. Any impairment is recorded as a loss in the consolidated statement of profit or loss and the increase is not recognized as revenue. Subsequent increase is included in the consolidated statement of profit or loss to the extent that impairment value does not exceed the previously recorded value.

As of the beginning of 2015, a gradual provision was made for real estate acquired for more than 4 years against debts according to the Circular of the Central Bank of Jordan No 15/1/4076 dated 27 March 2014 and No. 10/1/2510 dated 14 February 2017. Noting that the Central Bank of Jordan issued Circular No. 10/1/13967 dated 25 October 2018, in which the Circular No. 10/1/16607 dated 17 December 2017 was approved for extension. The Central Bank of Jordan also confirmed postponing the calculation of the provision until the end of the year 2019. According to the Central Bank's Circular No. 10/1/16239 dated 21 November 2019, deduction of the required provisions against real estate acquired is made at the rate of (5%) of the total book values of these properties (regardless of the period of violation) as of the year 2021. Also, according to the letter of the Central Bank of Jordan No. 10/3/13246 dated 2 September 2021 Addressed to the Association of Banks in Jordan, the completion of the provision calculation has been postponed until 2022, so that the required percentage of (50%) of these properties are reached by the end of the year 2030.

Pledged financial assets

- These are the financial assets pledged in favor of other parties, with the other party having the right to dispose of it (by selling or re-pledging). These assets continue to be evaluated according to the accounting policies used to evaluate each asset according to its original classification.

Repurchase or sale contracts

- Sold assets, which are simultaneously committed to be repurchased at a future date, because the Bank continues to control those assets and because any risks or benefits accrue to the Bank as they occur, continue to be recognized in the consolidated financial statements. They continue to be evaluated according to the accounting policies used. (In the event that the buyer has the right to dispose of these assets (sale or re-pledging), they must be reclassified as pledged financial assets). The amounts corresponding to the amounts received for these contracts are included in the liabilities in the borrowed funds line item, and the difference between the sale and repurchase price is recognized as interest expense to be accrued over the life of the contract using the effective interest method.
- As for the assets purchased with the simultaneous commitment to resell them on a specific future date, they are not recognized in the consolidated financial statements, due to the lack of control over these assets and because any risks or benefits that are not assigned to the bank if they occur, and the amounts paid related to these contracts, are included in deposits at banks and other financial institutions or within credit facilities, as the case may be. The difference between the purchase price and the resale price is treated as interest income due over the contract period using the effective interest method.

Property and equipment

- Property and equipment are stated at cost, less the accumulated depreciation and any impairment. Property and equipment are depreciated (excluding lands), when they are ready for use at the straight-line method over their expected useful lives using the following annual percentages:

	<u>%</u>
Buildings	2
Equipment, devices and furniture	10-25
Transport	15-20
Computers	20
Decorations	25

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

The value of an item of property and equipment is written down to its recoverable amount if its net carrying amount is greater than its recoverable amount. Impairment is recognized in the consolidated statement of profit or loss.

- The useful lives of property and equipment are reviewed at the end of each year, and if the expectations of the useful lives differ from the estimates made previously, then the change in the estimate for subsequent years is recognized as a change in the estimates.
- Property and equipment are derecognized at disposal or when there are no expected future benefits from their use or disposal.

Intangible assets

Goodwill

- Goodwill is recorded at cost which represents the increase in the acquisition or purchase cost of an investment over the fair value of the company's net assets at the acquisition date. Goodwill resulting from investing in subsidiaries is recorded in a separate item as intangible assets. Goodwill resulting from investing in associates appears as part of the investment account in the associate and the cost of goodwill is subsequently reduced by any impairment in the investment value.
- Goodwill is allocated to cash-generating unit(s) for the purpose of impairment testing.
- Goodwill impairment is tested at the reporting date. Goodwill is written down if there is an indication that it is impaired and if the estimated recoverable amount of cash-generating unit (s) to which the goodwill belongs is lower than the carrying amount of the cash-generating unit (s). Impairment is recognized in the consolidated statement of profit or loss.

Other intangible assets

- Intangible assets that are acquired through the merger are stated at fair value at the date of acquisition. The intangible assets that are obtained by a method other than the merger are stated at cost.
- Intangible assets are classified based on their estimated lifetime for a definite or indefinite period. Intangible assets that have a definite lifetime are amortized during this lifetime and are recognized in the consolidated statement of profit or loss. For intangible assets that have an indefinite lifetime, their impairment is reviewed at the date of the consolidated financial statements and any impairment is recognized in the consolidated statement of profit or loss.
- Intangible assets resulting from the Bank's business are not capitalized and are recognized in the consolidated statement of profit or loss in the same period.
- Any indications for the impairment of intangible assets are reviewed at the date of the financial statements. The estimate of the useful lives of those assets is reviewed and any adjustments are made for subsequent periods.
- Computer software and systems: these are amortized using the straight-line method over a period not exceeding 5 years from the date of purchase.

Impairment of non-financial assets:

- The carrying value of the Group's non-financial assets is reviewed at the end of each fiscal year except for the deferred tax assets, to determine whether there is an indication of impairment. In the event of an indication of impairment, the amount recoverable from these assets will be estimated.
- If the carrying amount of the assets exceeds the recoverable amount from those assets, the impairment loss is recorded in those assets.
- The recoverable amount is the higher of an asset's fair value -less costs to sale - and the value in use.
- All impairment losses are taken to the consolidated statement of profit or loss and other comprehensive.
- The impairment loss for goodwill is not reversed. For other assets, the impairment loss is reversed only if the carrying amount of the asset does not exceed the carrying amount that was determined after the depreciation or amortization has taken place if the impairment loss is not recognized.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

Foreign currencies:

- For the purpose of the consolidated financial statements, the results and financial position of each company in the Group are expressed in the functional currency of the Bank, and the presentation currency of the consolidated financial statements.
- The separate financial statements of the Bank's subsidiaries are prepared, and the separate financial statements of each of the Group's companies are presented in the main functional economic currency in which they operate. Transactions are recorded in currencies other than the Bank's functional currency, according to the exchange rates prevailing on the dates of those transactions. On the date of the statement of financial position, the financial assets and liabilities are translated into foreign currencies at the exchange rates prevailing on that date. Non-monetary items carried at fair value and denominated in foreign currencies are also translated at the exchange rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not reclassified.
- Exchange differences are recognized in the consolidated statement of profit or loss in the period in which they arise, except for:
 - Foreign currency exchange differences on transactions made in order to hedge foreign currency risk.
 - Foreign currency exchange differences on monetary items required to/ from a foreign operation that are not planned or unlikely to be settled in the near future (and therefore these differences are part of the net investment in the foreign operation), which is recognized initially in the calculation of other consolidated comprehensive income and are reclassified from equity to the consolidated statement of profit or loss upon sale or partial disposal of net investment.
- For the purpose of the presentation of the consolidated financial statements, assets and liabilities of foreign operations of the Bank are transferred according to the exchange rates prevailing at the date of the statement of financial position. Revenue is also transferred according to the average exchange rates for the period, unless exchange rates change significantly during that period, in which case exchange rates are used on the date of transactions. Emerging differences, if any, are recognized in the consolidated statement of comprehensive income and grouped into a separate component of equity.
- When excluding foreign operations (i.e. eliminating the Bank's entire share in foreign operations, or that resulting from the loss of control of a subsidiary within foreign operations or partial disposal of its share in a joint arrangement or an associate of a foreign nature in which the held share becomes a financial asset), all foreign currency exchange differences accumulated in the separate item that represent the equity of that operation attributable to the owners of the bank, are reclassified to the consolidated statement of profit or loss.
- In addition, with regard to partial disposal of a subsidiary that includes foreign operations and does not result in the Bank losing control of the subsidiary, its share of the accumulated exchange differences is reversed to net comprehensive income at a rate that is excluded and is not recognized in the consolidated statement of profit or loss. As for all other partial liquidations (such as partial liquidation of associates or joint ventures that do not result in the Bank losing significant influence or joint control), the share of accumulated exchange differences is reclassified to the consolidated statement of profit or loss.

Leases contracts

- The Bank has implemented IFRS (16) "Leases" that have replaced existing guidance on leases as of 1 January 2019, including IAS (17) "Leases" and IFRIC (4) "Determining whether an arrangement contains a lease", SIC (15) "Operating lease -incentives "and SIC (27) retrospectively from 1 January 2018"Evaluating the substance of transactions involving the legal form of a lease contract".

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

A- Accounting policy applied:

- The Bank determines whether the contract is a lease or includes lease. A contract is considered a lease or includes a lease if it includes transferring control of a specific asset for a specific period in exchange for a consideration according to the definition of a lease in the standard.

B- The Bank as a lessee

- On the date of signing the contract, or on the date of the revaluation of the contract that contains the lease elements, the Bank distributes the entire contract value to the contract components in a proportional manner consistent with the value. It is to be noted that the Bank has decided for leases that include land and building to treat the components of the contract as one item.

Short-term leases and leases for low-value assets:

- The Bank chose not to recognize the right of use assets and lease obligations for short-term leases for items with a 12-month lease term or less and the low-value leases. The Bank recognizes the lease payments associated with these contracts as operating expenses on a straight-line basis over the lease term.

C- The Bank as a lessor

- When the bank is lessor, at the start of the lease, it determines whether each lease is a finance lease or an operating lease.
- To classify each lease, the Bank performs a comprehensive evaluation to demonstrate whether the lease largely transfers all risks and benefits associated with ownership of this asset. If this is the case, the lease is a finance lease; if not, it is an operating lease. As part of this assessment, the Bank takes into account certain indicators such as whether the lease is the greater part of the economic life of the asset.
- The Bank applies the requirements of de-recognition and impairment in IFRS 9 for net investment in the lease. The Bank performs a periodic review of the expected non-guaranteed residual value that was used to calculate the total investment amount in the lease.

Cash and cash equivalents:

- Cash and cash equivalents comprise cash and cash balances that mature within three months. They include cash balances at Central banks and balances at banks and financial institutions, less deposits at banks and financial institutions that mature within three months, as well as restricted balances.

Earnings per share (EPS):

- Basic and diluted earnings per share are calculated for ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to the company's shareholders by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is calculated by adjusting the profit or loss for the year, which is attributable to the company's shareholders and the weighted average of ordinary shares, so that it shows the effect on the share's profit on all the ordinary shares traded during the year and its return is likely to decrease.

(3) Critical accounting judgments and key sources of estimation uncertainty:

- The preparation of the consolidated financial statements and the application of accounting policies require the Bank's management to make estimates and judgements that affect the amounts of assets and liabilities and the disclosure of contingent liabilities. These estimates and judgments generally affect the revenues, expenses, provisions and ECLs, as well as the changes in fair value that appears in the consolidated statement of comprehensive income and within shareholders' equity. Specifically, the Bank's management is required to issue critical judgements and assumptions to estimate the amounts of future cash flows and their timings. Such estimates are necessarily based on assumptions and several factors involving varying degrees of estimations and uncertainty. Therefore, actual results may differ from the estimates as a result of changes in conditions and circumstances of those estimates in the future.
- Judgements, estimates and assumptions are reviewed on an ongoing basis. The impact of change in estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

- **The Bank's management believes that its estimates in the consolidated financial statements are reasonable and detailed as follows:**

3-1 Impairment of seized properties:

Impairment of seized properties is recognized based on recent property valuation approved by credited valuers for the purposes of calculating the impairment. The impairment is reviewed periodically.

3-2 Useful lives of tangible assets and intangible assets:

Management reassessed the useful lives of tangible assets and intangible assets periodically for the purpose of calculating annual depreciation and amortization based on the overall condition of those assets and estimates of expected useful lives in the future useful lives. Impairment loss is taken to the consolidated statement of profit or loss for the year.

3-3 Income tax:

The financial year is charged with its own income tax expense in accordance with the laws and regulations, and accounting standards. Deferred tax assets and liabilities and required tax provision are accounted for.

3-4 Lawsuits provision:

A provision is made for any potential legal obligations based on the legal study prepared by the Bank's legal advisor that identifies the potential risks that may occur in the future. Such study is reviewed periodically.

3-5 Provision for end of service benefits:

The provision for end-of-service benefits that represents the Bank's obligations to employees is calculated and computed according to the Bank's internal regulations.

3-6 Assets and liabilities that are stated at cost:

Management reviews, on a regular basis, the assets and liabilities that are stated at cost to estimate impairments, if any. Impairment losses are recognized in the consolidated statement of profit or loss for the year.

3-7 Provision for expected credit loss:

The Bank's management is required to use significant judgments and estimates to estimate future cash flows amounts and timings and estimate the risks of a significant increase in credit risk for financial assets after initial recognition and future measurement information for expected credit losses. The most significant policies and estimates used by the Bank's management are detailed in Note (41).

3-8 Business model assessment:

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Bank determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence, including how the performance of the assets is evaluated and their performance is measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Bank monitors financial assets measured at amortized cost or fair value through other comprehensive income that are derecognized prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business held. Monitoring is part of the Group's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

3-9 Significant increase in credit risk:

ECLs are measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL assets for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. Some indicators were included within the instruction of IFRS 9 that indicate an increase in credit risk, such as a decrease in credit rating of the debt instrument by two degrees on the credit rating system since the date of initial recognition. In assessing whether the credit risk of an asset has significantly increased, the Bank takes into account qualitative and quantitative reasonable and supportable forward-looking information. Estimates used by the Bank's management, which are related to the significant change in credit risk that led to a change in classification within the three stages (1, 2, and 3) are detailed in Note (41).

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

3-10 Establishing groups of assets with similar credit risk characteristics:

When the expected credit losses are measured on a collective basis, the financial instruments are grouped based on common risk characteristics (such as the type of instrument, the degree of credit risk, the type of collateral, the initial recognition date, the remaining period of maturity date, the industry, the borrower's geographic location, etc.). The Bank monitors the appropriateness of the credit risk characteristics on an ongoing basis to assess whether they continue to be similar. This is required in order to ensure that should credit risk characteristics change there is appropriate re-segmentation of the assets. This may result in new portfolios being created or assets moving to an existing portfolio that better reflects the similar credit risk characteristics of that group of assets.

3-11 Re-segmentation of portfolios and movement between portfolios:

Re-segmentation of portfolios and movement between portfolios is more common when there is a significant increase in credit risk (or when that significant increase reverses) and so assets move from 12- month to lifetime ECL, or vice versa, but it can also occur within portfolios that continue to be measured on the same basis of 12-month or lifetime ECL but the amount of ECL changes because the credit risk of the portfolios differ.

3-12 Models and assumptions used:

The Bank uses various models and assumptions in measuring fair value of financial assets as well as in estimating ECL, as outlined in Note (41). Judgement is applied in identifying the most appropriate model for each type of asset, as well as for determining the assumptions used in these models, including assumptions that relate to key drivers of credit risk.

A- Classification and measurement of financial assets and liabilities

- The Bank classifies financial instruments or components of financial assets upon initial recognition, either as a financial asset, financial liability, or an equity instrument in accordance with the substance of the contractual agreements and the definition of the instrument. Reclassification of a financial instrument in the consolidated financial statements is subject to its substance rather than its legal form.
- The Bank determines the classification upon initial recognition as well as a reassessment of that determination, if possible and appropriate, at the date of each consolidated statement of financial position.
- When measuring financial assets and liabilities, some of the Bank's assets and liabilities are remeasured at fair value for the purposes of preparing financial reports. When estimating the fair value of any of the assets or liabilities, the Bank uses the observable available market data. In the absence of Level 1 inputs, the Bank performs the assessments using professionally qualified independent evaluators. The Bank works in close cooperation with qualified external evaluators to develop appropriate valuation techniques and data on the fair value estimation model.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

B. Classification and measurement of financial assets and liabilities

- In the event that it is not possible to obtain from the active markets the fair values of the financial assets and financial liabilities included in the consolidated statement of financial position, those fair values are determined using a set of valuation techniques that include the use of mathematical models. The data entered for these models is obtained from the market data, if possible. In the absence of such market data, fair values are determined by judgment. These provisions include considerations of liquidity and data entered for the models, such as volatility of derivatives, longer-term discount ratios, prepayment ratios and default ratios on securities backed by the assets. Management believes that the valuation techniques used were appropriate to determine the fair value of the financial instruments.

3-13 Options of extension and termination of leases

Extension and termination options are included in a number of leases. These conditions are used to increase operational flexibility in terms of contract management. Most of the extension and termination options held are renewable by both the Bank and the lessor.

3-14 Determination of lease term

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. The extension options (or periods after the termination options) are included only in the term of the lease if the lease is reasonably certain to be extended (or not terminated). The evaluation is reviewed in the event of a significant event or significant change in the circumstances that affect this evaluation and that are under the control of the lessee.

3-15 Key sources of estimation uncertainty

The following are key estimations that the management has used in the process of applying the of the Bank's accounting policies and that have the most significant effect on the amounts recognized in the consolidated financial statements:

- **Establishing the number and relative weightings of forward-looking scenarios for each type of types product/ MARKET and determining the forward-looking information relevant to each scenario:**
When measuring ECL, the Bank uses reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other.
- **Probability of default (PD)**
PD is a key entry point in the measurement of expected credit loss. PD is an estimate of the probability of default, over a certain period of time, which includes the computation of historical data, assumptions and projections related to future conditions.
- **Loss given default (LGD)**
LGD is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements.
- **Measurement and assessment procedures of fair value**
When estimating the fair value of assets or liabilities, the Bank uses the observable available market data. In the absence of Level 1 inputs, the Bank performs the assessments using appropriate valuation models to determine the fair value of financial instruments.
- **Discounting lease payments**
Lease payments are discounted using the bank's additional borrowing rate ("IBR"). Management applied provisions and estimates to determine the additional borrowing rate at the start of the lease.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

The impact of (COVID 19) pandemic

The Corona Virus (COVID-19) pandemic has spread across different geographical regions of the world, disrupting business and economic activities, and caused doubts globally. For which financial and monetary authorities, both domestic and international declared various support measures in all parts of the world to face the potential negative effects, as at the present time there is a significant increase of uncertainty in determining the economic impact that is manifested, for example, in the volume of liquidity and volatility in assets prices, foreign currency exchange rates, a noticeable decrease in long-term interest rates, an assessment of the significant increase in credit risk and different macroeconomic factors. Accordingly, the Group's management has closely monitored the situation and has activated its business continuity plan and other risk management practices to manage any potential disruptions that the Corona Virus (COVID -19) outbreak may cause to the Group's business, operations, and financial performance.

(COVID-19) and the Expected Credit Losses

In determining expected credit losses during the 2021, the Group considered (based on the best available information) conditions of uncertainty about COVID-19, economic support, relief work from Jordanian government and the Central Bank of Jordan. Also, the Group considered the instructions NO. 10/3/4375 issued by Central bank of Jordan on 15 March 2020 and the instructions issued by the International Accounting Standards Board dated 27 March 2020, which is related to classifying the stages, as a result of the existence of a significant increase in credit risk (SICR) and the following are some procedures implemented by the group:

- 1- when calculating expected credit losses as at the end of the year, the Group excluded the best-case PD when calculating the probability of default PD and has adopted the worst-case scenario PD and base case scenario PD, for the purposes of hedging the anticipated effects of the pandemic on the group's financial position.
- 2- The PD ratio for Stage 2 clients has been set at a minimum of 2.4% for the expected credit risk hedging.
- 3- A careful consideration for the correct transitioning in between stages for all clients whether affected or not by the impact of COVID-19
- 4- Taking into account the macroeconomic factors when calculating expected credit losses such as GDP, Unemployment Rate, Inflation Rate, and Real Estate Price Index.
- 5- Test several scenarios for stress situations to hedge against the expected impact of the pandemic, such as assuming the decline of customer credit rating and assuming a ratio of 100% for worst case scenario and increase the value of the deduction on collateral haircut.

The Group has implemented a deferral program for its customers working in highly vulnerable sectors by deferring interest accrued and the payment of the original installment due for one to three months. These repayment delays are short-term liquidity to address borrowers' cash flows. Deferrals to clients may indicate a substantial increase in credit risk, however, the Bank believes that extending this repayment deferral period does not automatically mean a substantial increase in credit risk, requiring the borrower to be transferred to the next stage for the purposes of calculating expected credit losses. The deferral process to provide assistance to borrowers affected by the Covid-19 outbreak aims to resume payments regularly. At this stage, there is insufficient information to enable the group to differentiate between the short-term financial difficulties associated with Covid-19 from those associated with the substantial increase in credit risk to borrowers over the lifetime of the financial instrument. This approach is in line with the expectations of the Central Bank of Jordan as indicated in its circular (No. 10/3/4375 issued on March 15, 2020), which did not consider the arrangements for the affected sectors during this period as a rescheduling or restructuring of credit facilities during the period for the purpose of assessing the substantial increase in credit risk and therefore were not considered as an amendment to the terms of the contract.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

Reasonable forward-looking weighted probabilities

Any changes made to Expected credit losses resulting from estimating the impact of the Covid-19 pandemic on macroeconomic indicators are subject to very high levels of uncertainty, with limited future information on these changes currently available. A number of positive factors were taken into account when examining the impact of the epidemic, including:

- Initiatives of the Central Bank of Jordan and the Jordan Loan Guarantee Company.
- Central Bank's instructions regarding the postponement of loan and interest installments.
- Government initiatives and the Social Security Corporation.
- Reducing interest rates.
- The Central Bank of Jordan has fortified the bank's liquidity (including reducing the ratio of cash reserves) and granting facilities at low interest rates.

The procedures taken by the Group to confront the potential impact of the pandemic on the Group:

In accordance with the best available information and uncertainties about the epidemic, and after taking into account the support measures taken by government agencies and the actions taken by the Central Bank of Jordan in accordance with the circular no. 10/3/4375 on March 15, 2020, the Group studied some measures to counter the possible effects of the epidemic on the group, such as conducting the required stress tests from the Central Bank of Jordan and conducted several internal tests to assess the bank's ability to withstand the expected impact of the Covid-19 epidemic, the group has therefore taken additional allocations as a result of the expected effects of Covid-19 worth JD 5 million as at the end of 2021, and the actions taken will be evaluated continuously during 2022.

The impact of such uncertain economic conditions is discretionary, and the Group will continue to reassess its position and associated impact on a regular basis, and, as with any economic forecast, expectations and prospects are subject to a high degree of uncertainty and therefore actual results may differ significantly from those expected, and management expects greater clarity on the impact of Covid- 19 on the group's business results during 2022.

(4) Cash and balances at the Central Bank of Jordan

The details of this item are as follows:

	December 31, 2021	December 31, 2020
	JOD	JOD
Cash on hand	13,646,336	13,396,731

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2021

(41) Risk management

The overall risk management framework:

The Bank has set the supervisory levels (defense lines) to manage risk at the Bank's level, by setting the general framework for these levels as follows:

- **Business Units:** Employees within the business units represent the first line of defense and are directly responsible for managing risks and evaluating control procedures related to them.
- **Risk Management Function:** The risk management staff represents one of the elements of the second defense line and they are responsible for coordinating the risk management efforts and facilitating the process of supervising the mechanisms used and followed by the Bank to manage the risks.
- **Compliance Department:** Compliance Department is another component of the second line of defense. Compliance Department staff are concerned with ensuring compliance with laws, regulations, instructions, orders, codes of conduct, standards and sound banking practices.
- **Internal Audit:** The internal audit staff represents the third line of defense and are responsible for conducting the independent review of the control procedures, processes, and systems associated with risk management at the Bank's level.

The Bank formed a risk and compliance management committee emanating from the Board of Directors.

This committee is concerned with risk management to ensure that all risks to which the Bank is exposed or may be exposed, are managed in an efficient manner to mitigate its impact on the various activities of the Bank and to ensure the proper functioning of its management, and its consistency with the Bank's strategy to maximize equities and maintain the Bank's growth within the approved risk framework the committee has the following main tasks:

- A- Reviewing the Bank's risk management strategy before approving it by the Board of Directors.
- B- Reviewing the Bank's risk management policies before approving it by the Board of Directors.
- C- Ensuring the availability of policies and a framework for managing the necessary risks, programmed and tools, with annual reviews as a minimum to ensure their effectiveness and amending them if necessary.
- D- Ensuring that adequate and appropriate support is provided to the Risk Management Function to perform its tasks in accordance with the approved policies and procedures and the instructions of the Central Bank of Jordan.
- E- Ensuring the use of modern methods in managing and evaluating the Bank's risks.
- F- Reviewing periodic risk management reports.
- G- Reviewing the Bank's acceptable risks documents and before approving it by the Board of Directors.
- H- Reviewing the methodology by which the expected credit loss is calculated and submitted to the Board for approval.
- I- Verifying the existence and application of effective internal control systems, internal credit rating systems, and automated systems for calculating expected credit losses and appropriate screening and verification procedures so that this system is able to reach results within adequate hedging against expected credit risks.
- J- Ensuring that there is an independent body that has the power to decide on exception or amendment on the calculation of ECL and to present these cases to the Board of Directors or its relevant committees at its first meeting and to obtain its approval.
- K- Reviewing the internal evaluation methodology of the Bank's capital adequacy and submitting the same to the Board of Directors for approval, so that this methodology is comprehensive, effective and capable of identifying all risks that the Bank may face and take into account the Bank's strategic plan and capital plan. Reviewing this methodology periodically and verifying its application and ensuring that the bank maintains sufficient capital to meet all the risks it faces.
- L- Ensuring the independence of the risk management.

As for compliance management, the Committee aims to add value to the Bank's operations by improving the effectiveness of risk management, internal control systems and corporate governance, through ensuring that the Bank and its internal policies comply with all laws, regulations, instructions, orders, codes of conduct, standards, and sound banking practices issued by local and international oversight bodies and reporting to the Board of Directors on the Bank's compliance.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2021

The Committee carries out the following main tasks:

- A-Ensuring full compliance with the laws, regulations, policies and orders that the Bank's business is subject to and the existence of a general framework for correct professional behavior and monitoring the Bank's compliance and commitment to implementing the provisions of the legislation in force and the requirements of regulatory authorities.
- B-Ensuring that there is an integrated general framework for internal control, improving it when necessary, and reviewing compliance with the corporate governance manual.
- C- Reviewing the related parties' dealings with the Bank and giving recommendations to the Board of Directors before concluding them.
- D-Verifying that sufficient qualified human resources are available to comply with compliance management and to train them and is responsible for assessing the performance of the compliance manager and staff and determining their remuneration.
- E -Reviewing and approving any disclosures in the annual report related to risks and internal control systems.
- F- Adopting the compliance control policy, money laundering and terrorist financing policy, and evaluating the degree of effectiveness with which the Bank manages the compliance department at least once a year and reviewing it when making any changes to it.
- G-Monitoring and following up the implementation of the compliance policy and verifying compliance with the Bank's internal policies, international standards and related .
- H- Reviewing clients' complaints reports and making sure that appropriate measures are taken to follow up on these complaints.
- I- Taking the necessary measures to enhance the values of integrity and sound professional practice within the Bank in a manner that makes compliance with applicable laws, regulations, instructions, orders and standards a primary goal to be achieved.
- J- Reviewing and approving compliance programmers and plans annually.

In addition, the Bank has formed an Executive Risk Management Committee, which in turn supervises efforts to manage all types of risks that the Bank may face in addition to the overall risk management framework. The Risk Management Committee submits the necessary reports to the Risk Committee of the Board of Directors.

The Risk Management Function undertakes the process of managing the Bank's various risks on a daily basis (credit, operating and market risks) within the general framework of the approved risk management policies, through:

- Risk identification.
- Risk assessment.
- Risk control mitigation.
- Risk monitoring.

Noting that the Bank adheres to the requirements of the Central Bank of Jordan related to each of the Basel III decisions and the process of (ICAAP) in addition to the requirements of stress tests and the requirements of the IFRS No. (9).

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2021

41/ A Credit risk:

Credit risk is defined as: “the probability that the principal or interest will not be recovered on time and completely, resulting in a financial loss for the Bank.

Given the importance of credit risks as the largest part of the risks to which the Bank is exposed in general, the Bank has given credit management great importance by activating the appropriate tools to monitor and identify these risks at the level of the credit portfolio. To achieve this, the Bank, based on its risk management strategy, conducted the following:

- 1- Approving a document of acceptable risks, setting credit limits for credit risks and monitoring them periodically to mitigate the credit risks that the Bank can be exposed to.
- 2- The Bank implements a credit risk rating system from Moody’s for clients of major companies and commercial companies, which would reflect on the quality of the credit portfolio and help in making appropriate credit decisions as follows:
 - Through the system, the clients’ credit rating is obtained as follows:
 - Large corporate
 - SMEs
 - Classification of clients on the system to ten levels, where the rating scores are distributed from 1 (high quality companies with few risks) to 10 (classified company not performing), as the classification system includes classification of performing debts within (7) degrees and non-performing.
 - Analyzing the borrower’s risks as per economic sector, management, financial status, experience, etc.
 - Analyzing client’s data and financial statements to extract the most important financial ratios and indicators that help in making credit decisions.
 - There is a specific matrix for each credit rating on the Moody’s system, as the rating is correlated with the likelihood of default corresponding to that rating.
- 3- Mitigating credit risk through credit risk mitigators (cash, real estate, shares or other guarantees) that are commensurate with the credit risk to which the Bank is exposed and in a manner that ensures that appropriate guarantees are met.
- 4- Preparing and conducting stress testing for credit risk.
- 5- Approved business policies and procedures that cover the approved basis for managing credit related operations and which include the following:
 - Specific powers of approval of granting credit
 - Defining the tasks and responsibilities of all parties and departments related to the credit granting process.
 - Defining the necessary supervisory reports and statements that ensure that activities related to credit granting operations are monitored and followed up by the various departments involved in credit granting operations.
- 6- The existence of departments and committees to manage credit granting operations, in a manner that ensures separation of duties between the various business departments and the credit monitoring and reviewing of credit risk management departments, as follows:
 - Specialized committees for the approval of credit.
 - Specialized departments for reviewing credit.
 - Specialized departments for managing credit.
 - A specialized unit for legal documentation.
 - Specialized departments for following up the collection of receivables and past-due debts.
- 7- The Bank ensures that it is committed to the instructions of the Central Bank of Jordan regarding credit concentrations in addition to preparing and monitoring credit concentrations and declaring banking risks to the Bank's customers.
- 8- Sound and appropriate legal and credit documentation for all conditions associated with credit facilities, including legal documentation required for the Bank’s guarantees.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2021

General framework for the application of the requirements of IFRS (9):

- Based on INVESTBANK's keenness to adhere to the IFRS (9), and based on the instructions of the Central Bank of Jordan regarding the implementation of the IFRS (9), INVESTBANK implemented the standard within the following:
 1. Engaging with a specialized company to provide necessary consultations on the application of the standard.
 2. Purchasing an automated system specialized to apply the standard requirements.
 3. Developing the framework document for the implementation of the standard and its approval by the Board of Directors.
 4. Recognizing (classifying) all credit exposures/ debt instruments that are subject to the measurements and calculation of ECL within one of the following stages:
 - **Stage 1:** This represents the expected credit loss weighted with PD for credit exposure/ debt instrument during the next (12) months, as credit exposures/ debt instruments have been included in this item, which did not have a significant increase or affecting its credit risks since the initial recognition of exposure/ instrument or that which has low credit risk at the date of preparing the financial statements, and credit risk is considered low if the conditions mentioned within the instructions of the Central Bank of Jordan based on the requirements of the standard are met, and examples of these indicators include the following:
 - Low default risk.
 - The debtor has a high ability in the short term to meet commitments.
 - **Stage 2:** This stage includes credit exposure/ debt instruments, which had a significant increase in credit risk since their initial recognition but have not yet reached a default stage due to the lack of objective evidence to establish default. The expected credit loss for the entire lifetime of the credit exposure/ debt instrument is calculated as the ECL resulting from all PDs over the remaining time period of the credit exposure/ debt instrument.
 - **Stage 3:** The Bank is taking into account the indicators included in the instructions of the Central Bank of Jordan, which is derived from the requirements of the standard relative to the classification of credit exposures/ debt instruments within this stage. Examples of these indicators are as follows:
 - Non-compliance with contractual conditions such as the existence of maturities equal to or greater than (90) days.
 - The existence of clear indications that the debtor is near bankruptcy.
 - In addition to the indicators received in the instructions of the Central Bank No. 2009/47.
 5. The mechanism adopted to calculate expected credit losses (ECL) on financial instruments for each item:
 - The calculation of ECL depends on the PD, which is calculated according to credit risk and economic factors, and the LGD ratio, which is based on the collectible value of the collateral, the EAD. Accordingly, the Bank adopted the following mathematical model to calculate the ECL in accordance with IFRS No. (9). The following equation applies to all exposures as follows:
$$ECL = PD\% \times EAD (JOD) \times LGD\%$$

ECL: Expected credit loss
PD: Probability of default
EAD: Exposure at Default
LGD: Loss Given Default
 - Scope of application/ ECL:
 - In accordance with the requirements of IFRS (9), ECL measurement model is applied within the following framework (except as measured at fair value through the consolidated statement of profit or loss):
 - Loans and credit facilities (direct and indirect).
 - Debt instruments carried at amortized cost.
 - Debt instruments classified at fair value through other comprehensive income.
 - Financial guarantees provided in accordance with the requirements of IFRS 9.
 - receivables related to leases are within the requirements of IAS (17) and IFRS (16).
 - Trade receivables.
 - Credit exposures to banks and financial institutions [excluding current balances used to cover bank transactions such as remittances, guarantees and credits within a very short period of time (days)].

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2021

6. Calculation of the PD: The Bank calculates the PD according to the following data:
- Economic indicators and macroeconomic factors (GDP, unemployment and inflation, real interest rates) to be used in calculating ECL (PD) were taken into account.
 - With regard to clients who are treated on an individual basis and classified through the credit rating system, the PD extracted from the credit rating system has been relied upon as a calibration of the default rates on the system to align with the requirements of the standard and after taking into account the historical defaults data of the Bank. As for the clients who are treated individually and not classified through the credit rating system, they are included in Stage 2, according to the instructions of applying the IFRS (9) No. (2018/13).
 - As for the clients who are dealt with on an collective basis, the “Roll Rate” methodology was adopted to calculate the percentage of future loss at default, as it was relied upon to study the historical data of the Bank by taking into account an analysis of the results of the methodology at a collective level (collective basis) for credit exposures that have similar credit characteristics by taking into consideration a group of factors; of which the most important are as follows:
 - Type of product
 - Type of collaterals
 - Sector
7. Calculation of (EAD): The Bank has taken the following data into account when calculating EAD:
- Credit exposure type.
 - Balance of credit exposure.
 - Credit Conversion Factor – CCF
8. Calculating LGD, as the Bank made the calculation by analyzing historical data of the Bank's recovery rates (recovery rates), after taking into consideration a set of factors, the most important of which are the nature of guarantees and products and clients' classification. Accordingly, LGD ratios have been developed either on individual level for clients classified through the credit rating system or at collective basis for exposures that bear similar characteristics to clients not rated on the credit rating system.

The fair value of collateral is valued upon granting the facilities based on the valuation techniques usually adopted for these collaterals, and in subsequent periods the value is updated at market prices or the prices of similar assets.

- Rescheduled debts

These are the debts that were previously classified as non-performing credit facilities and were taken out of the framework of non-performing credit facilities under a fundamental schedule and classified as watch list debt or transferred to performing and they amounting to JD 3,227,741 as at December 31, 2021 compared to JD 14,630,551 as at December 31, 2020.

- Restructured debt

Restructuring means re-arranging the status of credit facilities in terms of adjusting the premiums, extending the life of credit facilities, postponing some of the instalments or extending the grace period, amounting to JD 39,220,949 as at December 31, 2021 compared to JD 43,074,252 for the year 2020.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2021

- Provisions that are no longer required as a result of debt settlement or repayment:

The value of provisions for the impairment of non-performing debt and watch list debt that were no longer required as a result of settlements or repayment of debts and transferred against other debts amounted to JD 2,978,061 for the period ended 31 December 2021 compared to JD 2,397,998 as at December 31, 2020,

3-Bills, bonds and notes

The following table shows the classifications of bills, bonds and notes according to the external rating institutions and the internal classification of the Bank:

2021

Rating grade	Within financial assets at fair value through statement of profit or loss	Within financial assets at amortized cost	Total
Unrated	-	37,500,000	37,500,000
Rated (A - B+)	-	3,521,068	3,521,068
According to the Bank's internal rating	-	14,427,111	14,427,111
Governmental and under its guarantee	-	131,942,339	131,942,339
Total	-	187,390,518	187,390,518

2020

Rating grade	Within financial assets at fair value through statement of profit or loss	Within financial assets at amortized cost	Total
Unrated	-	19,821,735	19,821,735
Rated (A - B+)	-	4,248,302	4,248,302
According to the Bank's internal rating	-	43,362,537	43,362,537
Governmental and under its guarantee	-	105,439,062	105,439,062

41 B Operational risk

This represents the “loss resulting from the failure or inadequacy of internal procedures, human element, systems, or external events. This definition includes legal risk”.

The Invest Bank adopted the Control and Risk Self-Assessment methodology for managing operational risks through the use of an automated system designed for this purpose (CARE System). The Invest Bank manages operational risk within the following data:

- Preparing a policy for managing operational risks and adopting it by the Bank's Board of Directors.
- Preparing the Operational Risk Accountability Policy and approving it by the Bank's Board of Directors.
- Preparing the Invest Bank Anti-Fraud Policy and approving it by the Bank's Board of Directors.
- Preparing the Reputable Risk Management Policy and approving it by the Bank's Board of Directors.
- Creating risk profiles (risk profile) through which risks and control measures that limit them are identified for the important departments of the Bank, and work is underway to complete all the Bank's departments within the plans of approved work programmes.
- Applying an automated system for operating risk management (core system) to implement the methodology of self-assessment of risks and control procedures.
- Building a database of events resulting from risks and operational errors.
- Expressing an opinion on work procedures to state the risks contained therein and adequacy of control procedures associated with them.
- Preparing the procedures of stress testing of operational risk.
- Providing the risk management committees (the Risk Management Committee of the Board of Directors and the Executive Risk Management Committee) with the necessary reports.

41- C Compliance risks:

Compliance risks are defined as the risks of legal and regulatory penalties, material loss or reputation risks to which the Bank may be exposed due to non-compliance with laws, regulations, instructions, orders, codes of conduct, standards and sound banking practices.

Non-compliance with the instructions and laws issued by the various supervisory authorities is considered one of the most important risks that any bank can be exposed to, due to the large financial losses resulting from violating these instructions and laws, which in turn are reflected in the bank's reputation. Recent years witnessed a significant increase in issuing instructions and laws related to organizing the work of various institutions. In view of this, the need to manage compliance risks across the Bank has become an imperative, as the existence of the compliance function leads to increased efficiency in risk management and a reduction in the costs to which the Bank may be exposed as a result of non-compliance with laws and regulations.

41- D Market risk

Market risks are defined as the risks that affect the value of investments and financial assets of the Bank resulting from a change in market factors (such as interest rates, exchange rates, stock prices, commodity prices ...).

The Bank monitors market risks through the use of appropriate methodologies to evaluate and measure these risks in addition to conducting stress tests based on a set of assumptions and changes in different market conditions and according to the instructions of the regulatory authorities. These methods include:

1- Value at Risk (VaR).

VaR is determined by using special calculation models such that the standard deviation is calculated and then VaR is at the confidence levels (99% - 95%) of the total investment portfolio and the ratio is extracted via dividing the result by equity.

2- Stress testing.

3- Stop loss limit.

4- Monitoring open financial positions in foreign currencies.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

D- 1 Interest rate risk

Interest rate risk arises from the possibility of a change in interest rates and thus affects cash flows or the fair value of financial instruments. The Bank is exposed to interest rate risk due to the existence of a time gap for re-pricing between assets and liabilities. These gaps are monitored periodically by ALCO.

- **Sensitivity analysis:**

As of December 31, 2021	Change of increase in interest rate (percentage point)	Sensitivity of interest and profit and (loss) income	Sensitivity of equity

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

D- 2 Currency risk

The table below shows the currencies that the Bank is exposed to and the effect of a possible and reasonable change on their prices against the Jordanian Dinar on the statement of profit or loss, given that the currency centres are monitored on a daily basis to verify they remain within the specified ceilings and the market risk unit submits a daily report thereon to the Head of Risk Management Function.

Currency	Change (increase) in exchange rate	Impact on profit and loss	Impact on equity
	%		
Euro	5+	(263,174)	103,585
Sterling Pound	5+	(4,355)	-
JPY	5+	448	-
Other currencies	5+	35,139	17,930

2020

Currency	Change (increase) in exchange rate	Impact on profit and loss	Impact on equity
	%		
Euro	5+	(52,297)	86,893
Sterling Pound	5+	(6,021)	-
JPY	5+	692	-
Other currencies	5+	95,490	17,981

In the case that there is a negative change in the exchange rate, the effect will be equal to the change above, with a reversed sign.

D- 3 Risk of change in shares prices:

It is the risk of a decrease in the fair value of the shares portfolio because of the change in the value of shares indices and the change in the value of individual shares.

2021

cker	Change in index (%)	Impact on profit and loss	Impact on equity
Amman market index	5	-	(984,785)
Palestine market index	5	-	(98,060)
International markets index	5	-	(490,456)

2020

Ticker	Change in index (%)	Impact on profit and loss	Impact on equity
Amman market index	5	(298)	(1,176,085)
Palestine market index	5	-	(88,996)
International markets index	5	-	(357,467)

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

Re-pricing interest gap:

Adopting the methodology for assessing interest rate risk by analyzing the average lifetime of gaps (assuming that interest rates change by a certain amount is determined based on market conditions and then calculating the gap by identifying the categories of interest rate risk in the banking portfolio and distributing the Bank's assets and liabilities, which are sensitive to change in interest rates by specific categories then the gaps for each of the categories are identified.

Interest rate sensitivities are as follows:

	Re-pricing interest gap							Non-interest-bearing elements	Total
	Less than 1 month	1 to 3 months	3 to 6 months	6 months to 1 year	1 to 3 years	3 years and above

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

42/ d Liquidity risk

Liquidity risk is the Bank's inability to provide the necessary financing to fulfil its liabilities at their maturity dates. In order to prevent these risks, the Bank adopts a conservative policy in managing liquidity risk, which includes managing assets and liabilities, aligning and analyzing their maturities, and meeting short or long-term maturities of assets and liabilities with a sufficient balance of cash and cash equivalents and negotiable securities. The cash liquidity is reviewed and managed periodically and at several levels. According to the instructions issued by the Central Bank of Jordan, the Bank maintains cash reserves with the Central Bank of Jordan to reduce liquidity

Noting that the Bank prepares the procedures of stress testing of operational risk.

First: The table below summarizes the distribution of liabilities (not discounted) based on the remaining time period for contractual maturity at the date of the consolidated financial statements.

(B) Geographical distribution information

The Bank and its subsidiaries practice their activities mainly in the Kingdom. These activities represent the local business. Therefore, most of the income, assets and capital expenditures are within the Kingdom.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

(43) Capital management

(A) Description of what is considered to be capital:

Regulatory qualified capital comprises the following elements:

- Tier 1 of capital (capital that guarantees the going concern). This comprises the following:

1- Common equity tier 1 (CET1).

2- Additional tier 1 (AT1).

- Tier 2 (T2) is the capital used in case of failure of going concern (liquidation)
- Each of the three types of capital (CET1, AT1, T2) has a specific set of criteria that a financial instrument must meet before including it in the relevant category.

The bank is also committed, according to Article (62) of the Banking Law, to deduct annually 10% of its net profit to the legal reserve account and continues to deduct it until the reserve reaches the equivalent of the Bank's subscribed capital.

(B) Regulatory requirements for capital, and how to meet these requirements:

Banks must meet the minimum capital requirements in relation to risk-weighted assets, and they should be as follows:

1- The minimum of (CET1) should not be less than (6%) of the risk weighted assets.

2- The minimum of (Tier 1) should not be less than (7.5%) of the risk weighted assets.

3- The minimum (CAR) should not be less than (12%) of the risk weighted assets.

(C) How to achieve the capital objectives:

The management of the Bank aims to achieve the goals of managing the Bank's capital, achieving a surplus in operating profits and revenues, and optimizing the operation of available sources of funds in order to achieve the targeted growth in shareholders' equity through growth in the legal reserve, realized profits and retained earnings.

When entering into investments, effects on the capital adequacy ratio are carried and capital and adequacy are monitored periodically as the capital adequacy ratio is calculated by the Risk Management.

The capital adequacy ratio is calculated according to the instructions of the Central Bank of Jordan based on Basel III decisions as at December 31, 2021 and December 31, 2020.

(D) Liquidity Coverage Ratio:

The liquidity coverage ratio as a gross for consolidated financial statements was (253.0%) as on December 31, 2021 against to (206.9%) as on December 31, 2020.

The liquidity coverage ratio as a in JOD for consolidated financial statements was (253.0%) as on December 31, 2021 against to (206.9%) as on December 31, 2020.

(45) Accounts managed for the interest of clients

There are no portfolios guaranteed by capital managed by the Bank or its subsidiaries for the interest of clients.

(46) Fair value hierarchy

The following table represents financial instruments carried at fair value based on the valuation method, where different levels are defined as follows:

Level 1: inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: inputs for the asset or liability that are not based on observable market data.

INVESTBANK (PUBLIC SHAREHOLDING COMPANY LIMITED)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3*</u>	<u>Total</u>
	<u>JOD</u>	<u>JOD</u>	<u>JOD</u>	<u>JOD</u>
<u>2021</u>				
Financial assets at fair value through statement of profit or loss	1	-	-	1
Financial assets at fair value through other comprehensive income	31,016,048	-	6,799,935	37,815,983
	31,016,049	-	6,799,935	37,815,984
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
	<u>JOD</u>	<u>JOD</u>	<u>JOD</u>	<u>JOD</u>
<u>2020</u>				
Financial assets at fair value through statement of profit or loss	5,961	-	-	5,961
Financial assets at fair value through other comprehensive income	32,450,995	-	6,792,615	39,243,610
	32,456,956	-	6,792,615	39,249,571

Other assets include non-financial assets, which represent investments properties in subsidiaries (Jordan Trade facilities and Bindar for Trade and investment), and are not measured through fair value in financial statements, considering that the fair value of investments properties are within the level two which amounted to JD 3,234,644 as at December 31, 2021, against 3,183,695 JD as at December 31, 2020.

* Investments at fair value through other comprehensive income include JD 450,000, which is due to investments in a listed company, but the market price of the share has not been adopted in determining the fair value of the investment as there is no active trading on the company's shares, as the company distributed free shares during 2021 by increasing the company's capital and the impact on the market price of the share was not reflected as a result of the absence of any trading per share during the year.

(47) Fair value of financial instruments

The fair value of financial instruments that are not measured in the consolidated statement of financial position at fair value is not materially different from the carrying amount included in the consolidated financial statements. Also, the fair value of direct credit facilities, investments at amortized cost, banks' and financial institutions' deposits, clients' deposits, cash insurance, borrowed funds and loan bonds that are included at amortized cost are not fundamentally different from the book value included in the consolidated financial statements because there is no material difference in the market interest rates for similar financial instruments for the contracted rates, as well as due to the short periods in relation to the deposits of banks and financial institutions. The fair value stated at amortized cost is determined through the quoted prices in the market on availability or through assessment forms used with some bonds at a fixed commission.

(48) Contingent and commitments liabilities (off the statements of financial position)-Net

(A) Credit commitments and liabilities
