H.E. the Chairman and Members of the Board of Directors
Jordan Petroleum Refinery Company
(A Public Shareholding Limited Company)
Amman - Jordan

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Jordan Petroleum Refinery Company ("the Company") and its subsidiaries ("the Group") as of March 31, 2025, and the condensed consolidated interim statement of profit or loss for the three months ended March 31, 2025, and the condensed consolidated interim statements of comprehensive income, changes in owners' equity and cash flows for the three months then ended, and a summary for the significant accounting policies and other notifying information. Management is responsible for the preparation and fair presentation of this condensed consolidated interim financial information in accordance with International Accounting Standard (34) Interim Financial Reporting. Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements No. 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Group". A review of condensed consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared in all material respects, in accordance with International Accounting Standard (34) Interim Financial Reporting.

Other Matter

The accompanying condensed consolidated interim financial information are a translation of the statutory condensed consolidated interim financial information in the Arabic language to which reference should be made.

JORDAN PETROLEUM REFINERY COMPANY
(A PUBLIC SHAREHOLDING LIMITED COMPANY)
AMMAN - JORDAN

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

1. Incorporation and Activities

Jordan Petroleum Refinery Company was established during 1956 in Zarqa, it's main headquarter is in Amman as a public shareholding limited company. And it was registered with the Companies control department and a member of the Chambers of Industry and Commerce. with a capital amounted JD 4 million. This capital was increased in multiple stages, latest decision was taken by Company's general assembly extraordinary meeting held on April 28, 2016, as the capital of the Company increased by capitalizing JD 25 million and distribute it to the shareholders. As a result, the Company's authorized and paid-up capital reached JD 100 million, as the company was established to keep pace with the economic and social development witnessed by the Hashemite Kingdom of Jordan in the second decade of the first millennium in terms of the increase in the Kingdom's population, which was accompanied by the expansion of commercial, industrial and tourism activities in the Kingdom. One of the most important reasons for establishing the company was to reduce the costs of importing finished petroleum derivatives from Outside the Kingdom, which is considered cumbersome and expensive, and to be a safe and permanent source to meet the Kingdom's growing needs for finished petroleum derivatives of all kinds in all circumstances and at prices that suit all segments of the local community in order to contribute to raising the standard of living and accelerating the wheel of economic and social growth in the Kingdom.

To keep up with the growth and development of existing and new industries, the company increased its production capacity, developed and improved the quality of its products, and introduced new types of finished oil derivatives in the local market, through successive expansions in its facilities. The company witnessed three expansion projects, the last of which was in 1983, and several projects followed. Subsequently, the company's production capacity was increased several times, with self-efforts through its staff. In 1977, a factory was established for mixing lube oil and filling it, and in 1979, three liquefied gas filling stations were established and operated in the governorates of Zarqa, Amman, and Irbid. The company also established its own storage capacities in the three airports in the Kingdom and in Aqaba Governorate, and owned gas stations throughout the Kingdom.

In 1957, the company signed a concession agreement with the government of the Hashemite Kingdom of Jordan, giving the company the exclusive right to manufacture and refine crude oil and import, store, distribute and sell finished petroleum derivatives to meet the needs of the Kingdom in exchange for a specific profit. The concession agreement extended for approximately fifty years, ending in 2008. The contractual relationship between the government and the company was regulated based on the content of the concession agreement for several times and continued until the date of September 13, 2012, then the government of the Hashemite Kingdom of Jordan concluded with the company an agreement on the minutes of the meeting for the future of the company's work, which included extending the financial relationship between the company and the government for an additional five years, ends on April 30, 2018, considering the government's strategy in the field of energy aimed at opening the market for the distribution of oil derivatives ready for competition. In 2013, the government granted marketing licenses for finished oil derivatives to three marketing companies, where these companies have the right to import oil derivative direct. The company is aware of the extent of its responsibilities and to remain the leading company in the field of energy. During 2013, it established the Jordan Petroleum Products Marketing Company as a wholly owned subsidiary to be the marketing arm for its products. It is considered one of the three licensed marketing companies in the Kingdom, It has the largest market share in marketing finished oil derivatives from the local market, noting that this company has obtained a marketing and distribution license from the Energy and Minerals Regulatory Authority for a period of (10) years starting from the first of May 2013 and was extended for an additional period of (10) years starting from the first of May 2023. Jordan Petroleum Products Marketing Company is also fully owned Hydron Energy Company at the end of the year 2018, in addition to owning fully owned subsidiaries and controlled subsidiaries, as it owns 60% or more of these companies. The company also supply a large number of fuel stations across the kingdom with finished oil derivatives under singed agreement between the company and the owners of these stations.

As of the first of May 2018, the financial and contractual relationship between the company and the government of the Hashemite Kingdom of Jordan has ended, and the company started operating on a commercial basis and is not obligated to secure all of the Kingdom's needs of finished oil derivatives, in light of allowing the three marketing companies to import finished oil derivatives, which they began importing in the year 2017.

Jordan Petroleum Refinery Company is the only company in the Kingdom that produces finished petroleum products by separating and converting the components of imported crude oil into a group of different finished petroleum products. Its operations are based on a license from the American company (UOP), and it secures about half of the needs of the local market according to its capacity. Current productivity, so the company seeks to establish the fourth expansion project (refinery modernization) by adding the necessary production units to improve the quality of products to become compatible with the highest international specifications and to be environmentally friendly, with the addition of units to convert heavy petroleum products into light petroleum products with a higher selling value, which will lead to maximizing value and profitability and reducing production costs to the minimum possible. Also, during March 2022, the company obtained from the Energy and Minerals Regulatory Authority a license to practice the various refining and storing activities for a period of (30) years and a permit to establish the company's fourth expansion project.

Jordan Petroleum Refinery Company activated Jordan Lube Oil Manufacturing Company and it is a wholly owned subsidiary company as of April 1, 2022, and annexed the entire lube oil activities and oil factory to it, and as of July 27, 2022 it transferred the licenses to practice the various lube oil activities given to it by Energy and Minerals Regulatory Authority which has a duration of (10) years to Jordan Lube Oil Manufacturing Company.

Jordan Petroleum Refinery Company is the only company in the Kingdom that fills liquefied gas cylinders through the three gas filling stations it owns in the governorates of (Amman, Irbid, and Zarqa), and in light of the government's strategy in the field of energy aimed at opening this market to competition, the company has activated Jordan Liquefied Petroleum Gas Manufacturing and Filling Company as of the first of January 2023, which is a wholly owned subsidiary company, and has included all the various liquefied gas activities (with the exception of the liquefied gas production activity) this is due to the company's belief in the necessity of developing and modernizing this activity and maximizing its profits in light of the opening of this market. On November 2, 2022, the company transferred the licenses to practice various gas activities, which had a duration of (20) years, and the central gas distribution licenses, which had a duration of (3) years, granted to it by the Energy and Minerals Regulatory Commission for Jordan Liquefied Petroleum Gas Manufacturing and filling Company.

The company also purchased the government's share in its assets in Aqaba and the airports during April 2023, which represented 51% of it, and thus it owned the entire assets in its facilities in Aqaba and the airports, in implementation of Council Decision No. (11147) taken in its session held on March 26, 2023. It is currently seeking to develop these activities, increase the storage capacities in these facilities, increasing the additional revenue from the storage process for others and reduce storage costs for others, and benefit from fluctuations in global prices for crude oil, finished petroleum derivatives, liquefied gas, and mineral oils of all kinds.

2. The Concession Agreement

- a. The concession agreement between the Jordanian Government and the Company has expired on March 2, 2008. Consequently, the Company signed a settlement agreement with the Jordanian Government on February 25, 2008, concerning the expiry of the concession, which was confirmed by the Company's General Assembly of shareholders in its extraordinary meeting dated March 22, 2008, after that, the contractual and financial relationship between the company and the government was organized based on the concession agreement for several times and continued until the date of September 13, 2012. Following this the company concluded an agreement with the government of the Hashemite Kingdom of Jordan regarding the future of the company's activities, pursuant to which the relationship with the government was extended for an additional five years. The agreement expired on April 30, 2018, and the company began operating on a commercial basis on May 1, 2018, after the financial and contractual relationship with the government had ended.
- b. The profits of the company were for the period ended April 30, 2018, and for the years 2011 until the end of the year 2017 according to the future operations minutes of meeting of Jordan Petroleum Refinery Company meeting that was approved according to the decision of the Council of Ministers no. (1329), in their meeting held on September 13, 2012, which was illustrated in the Prime Minister's Letter No. (31/17/5/24694), dated September 17, 2012, and approved by the General Assembly of Shareholders of the Company, in their extraordinary meeting held on November 8, 2012, which included the following:
 1. Through the oil derivatives pricing mechanism, annual net profit of JD 15 million after tax shall be achieved for the Jordan Petroleum Refinery Company while keeping the changes in the Company's expenditures within the normal rates. Otherwise, the Government should be consulted concerning any deviations in these rates.
 2. The Government has the right to appoint an external auditor (public accountant) to audit the Company's financial statements for the purposes stipulated by the Government.
 3. Profit from the Jordan Petroleum Products Marketing Company owned by Jordan Petroleum Refinery Company, and any other profit from other future companies owned by it and operating according to licenses issued by the Ministry of Energy and Mineral Resources or the sector regulator, shall be excluded from the above-mentioned profit, provided that their standalone financial statements or their own accounts are separated.
 4. The Lube-Oil Factory's profit shall be excluded from the above-mentioned profit, provided that the Lube-Oil Factory is charged with the related fixed and variable costs, whether directly or indirectly, and provided that its standalone financial statements or its own accounts are separated.
 5. The liquefied Petroleum gas (LPG) activity profit shall be excluded from the above-mentioned profit, provided that its standalone financial statements or its own accounts are separated.
 6. The profit granted to Jordan Petroleum Refinery Company of 10 cents for each barrel from refining the Iraqi crude oil shall also be excluded from the above-mentioned profit, provided that this profit is subjected to income tax.
 7. The current or future financial statements shall not be charged with any provisions expenditures or related to prior years, except for the committed provisions or expenditures (provisions and employees' rights, expected credit losses, gas cylinders write-off provisions, provisions for lawsuits raised against the Company, slow moving and obsolete inventory and sediment, self-insurance provisions, etc.), provided that these provisions and its financial statements shall be audited by the Government.

And the calculation of profits under this mechanism was terminated in implementation of the minutes of the meeting on the future of work of the Jordan Petroleum Refinery Company, as of the first of May 2018 where the company started to operate on a commercial basis.

3. End of the Financial Relationship with the Government

According to the minutes of meeting regarding the Company's future operations signed on September 13, 2012, the financial relationship between Jordan Petroleum Refinery Company and the Government of Jordan ended on first of May 2018 and in its meeting held on April 30, 2018, the Council of Ministers issued Decision No. (7633), which included extending the exemption of oil derivatives from Jordan Petroleum Refinery Company's refining activity from implementing the Jordanian specifications throughout the period of implementation of the Fourth Expansion Project as of first of May 2018, provided that commitment is made regarding the project implementation stages and that Jordan Petroleum Refinery Company's production may not exceed 46% of the local market needs for non-conforming oil derivatives. The decision also mandated the Ministry of Finance to follow up on the procedures' implementation concerning the below points, and submit any related observations to the Council of Ministers:

1. The Ministry of Finance calculate the amounts due to the Jordan Petroleum Refinery Company until April 30, 2018, and such amounts shall be paid in installments during the years 2018, 2019 and 2020 with interest thereon of (30%, 40% and 30%). Moreover, these amounts shall be paid after issuance of the General Budget Law and before the end of the second quarter of each year for the same year until full repayment in the year 2020, the Ministry of Finance shall provide the Jordan Petroleum Refinery Company with a letter stating the amounts due to Jordan Petroleum Refinery Company as of April 30, 2018 and guaranteeing their payment with interest at the actual cost borne by the Company during the above period at the rates outlined above.

As a result of the Government's failure to comply with the above decision and based on the agreement between the Company and the Government, the Council of Ministers' issued Decision No. (6399) that was adopted at its meeting held on September 9, 2019. This decision stipulated that the Company shall borrow an amount equivalent to around JD 457 million from banks to pay part of the debt balances due to the Company from the Government until December 31, 2018. In return, the Ministry of Finance will issue pledges to pay the loans and interest thereon to the assigned banks. Consequently, during the first half of October 2019, the Company withdrew an amount of JD 455,505,000 from the banks assigned by the Ministry of Finance. Accordingly, the Ministry of Finance issued pledges to these banks that it shall pay the loans installments and interest thereon to the assigned banks. As a result, the Company reduced the withdrawn amount from banks of JD 455,505,000 from receivables due from security agencies, ministries, government agencies, and departments, and part of the Ministry of Finance's debt under the signed agreement between the Company and the government on June 16, 2020, represented by the Minister of Finance , after the Council of Ministers' approval and authorization to the Minister of Finance to sign it on behalf of the Jordanian Government, in accordance with Council of Ministers' decision No. (9158) adopted at its meeting held on March 24, 2020.

Moreover, the Ministry of Finance has committed to pay all the bank loans and interests amounts, as these amounts were encumbered within the General Budget Law for the year 2020, under the item of loans' installments to address government arrears, according to the Ministry of Finance's Letter No. (18/4/9200) dated May 14, 2020. Noting that, the Jordanian government has paid all of the loans and interest due to the assigned banks on their due dates.

The Council of Ministers' issued Decision No. (5011) adopted in its meeting held on December 19, 2021, which included that the Jordan Petroleum Refinery Company borrows an amount of JD 105,000,000 equivalent in US dollars, from the banks assigned by the government in return for issuing Pledges to these banks by the Ministry Of Finance on behalf of the government to pay the value of the installments and interests owed on them and to guarantee the provisions that the government has allocated for this purpose in the general budget for 2022 and authorizing the Minister of Finance to sign the pledges issued to banks and authorizing him to sign an agreement to organize the payment of debts owed by the government, accordingly the Company withdrew an amount of JD 105,000,000, in the equivalent of US dollars, on December 31, 2021 from the banks assigned by the Ministry of Finance, and this amount was reduced from the receivables owed by the security authorities according to the loan payment agreement signed by the company's delegates and the Minister of Finance.

The Council of Ministers' issued Decision No. (11231) adopted in its meeting held on April 2, 2023, which included the Jordan Petroleum Refinery Company borrowing an amount of JD 105,000,000, equivalent to the US dollar, from the banks referred to by the Ministry of Finance in exchange for the Ministry of Finance issuing commitments to repay the loans and their interest for these loans. Banks on their maturity date, with guarantees of allocations allocated for this purpose in the general budget starting from the year 2023. The decision included authorizing the Minister of Finance to sign repayment pledges on behalf of the government and approving the form of the loans repayment agreement that will be signed between the company and the government and authorizing the Minister of Finance to sign it on behalf of the government, Accordingly, the company withdrew an amount of JD 105,000,000, equivalent to the US dollar, from the banks assigned by the government during of May 2023, and the loans amount was reduced as part of the indebtedness of the Jordanian Air Force and the Ministry of Finance's main account - the relationship according to the agreement signed between the company's commissioners and the government represented by the Minister of Finance.

The Council of Ministers' Resolution No. (1897) was issued in its session held on January 19, 2025, which stipulates that the Jordan Petroleum Refinery Company shall borrow an amount of JD 80,000,000 from the banks referred to it by the Ministry of Finance in exchange for the Ministry of Finance issuing pledges to repay the loans and the interest due on them to these banks on their due date, with the guarantees of the provisions allocated for this purpose in the general budget. The resolution includes authorizing the Minister of Finance to sign the repayment pledges on behalf of the government. He was also authorized to approve and sign the agreement to repay the loan amount that will be signed between the government and the Jordan Petroleum Refinery Company, and upon it the company signed loan agreements with the banks referred to it by the ministry of Finance in preparation for the Ministry of Finance to issue pledges to the banks to repay loan amounts and the interests in order for the company to utilize the amounts of these loans from the banks to which they were referred.

In the opinion of the company's management and the company's legal advisors, the company does not have any obligations regarding the above loans and pledges (Note 8/E).

The company signed a financial settlement on June 23, 2022, with the National Electricity Company to pay the debt owed by it in addition to the interest of delayed payments and installments. The agreements also included that the amount due must be paid over (12) equal installments starting from July 2022. Accordingly, the National Electricity Company committed to paying the installments owed to it under the agreement on their due dates, and the last installment of the financial settlement agreement was paid during of June 2023, leaving an amount equivalent to JD 3.2 million outstanding from the Samra Electricity Generating Company that has been pending for several years before the competent courts, so that it will be settled upon issuance of The final and final ruling decision. (Note 8/A).

The government have recorded an amount of around JD 62 Million within the General budget for the year 2025 to pay off the Liquefied Gas subsidy that is due during 2025 and no amounts have been paid off to date.

2. Jordan Petroleum Refinery Company shall treat the sediments and water in the tanks, and it shall dispose those idle materials and spare parts that are no longer needed. Moreover, the obsolete inventory shall be valued on April 30, 2018, the cost of the sediments and water, as well as the disposal costs thereof, shall be calculated and the surplus shall be transferred to the Ministry of Finance. As a result of the agreement between the Company and the Government, the Ministry of Finance issued Letter No. (4/18/28669), dated August 29, 2019, which included its approval for the Company to clean its tanks from sediments and water as the Government bears this cost, and the company must write off the materials, spare parts and supplies no longer needed, and transfer the surplus balance of the slow-moving and obsolete inventory and sediments and water provision to the Ministry of Finance. Accordingly, the Company tendered the treatment of sediments and water, whereby the Company which was awarded the tender cleaned the major part of the sediments and water, then the company left the kingdom, and they stopped working due to covid-19 virus pandemic, so the cleaning of these tanks has not been completed to this date. Additionally, a specialized committee was appointed to study the stock of spare parts and other supplies and to determine the materials and supplies that could be used instead of buying similar materials, as well as the materials and supplies no longer needed in order to write them off, and this matter is still under process where the materials are written off immediately due to the large size of the company's warehouses (Note 9).
3. Jordan Petroleum Refinery Company shall maintain JD 5 million as a provision for the write-off, repair, and replacement of the gas cylinders, and transfer the remaining JD 5 million to the Ministry of Finance's account. In case the actual value of the write-off, repair, and replacement of the cylinders exceeds the said amount, the difference shall be transferred from the Ministry of Finance from the deposits item. But, if the actual value is lower, the difference shall be transferred to the Ministry of Finance, provided that this matter be addressed in the future through the pricing mechanism. Accordingly, the Company released an amount of JD 5 million during the period ended April 30, 2018, which was reversed to the Ministry of Finance's account, and the Ministry of Finance approved this action, pursuant to the Ministry of Finance's Letter No. (4/18/28669), dated August 29, 2019 (Note 11/c).
4. Jordan Petroleum Refinery Company shall delete the interest of JD (79.2) million on the National Electricity Company's borrowings, provided that settlement be implemented between the National Electricity Company and the Government, noting that the Company has deleted these amounts from the consolidated statement of financial position based on the Ministry of Finance's Letter No. (18/73/33025), dated November 25, 2018, addressed to the National Electricity Company. The letter states that the Ministry of Finance has recorded the interest as an due amount on the National Electricity Company to the Government at the Ministry of Finance until full payment is occurred. In addition, the Ministry of Finance issued its approval to delete the interest of JD (79.2) million on the National Electricity Company's borrowings, pursuant to the Ministry of Finance's Letter No. (4/18/28669), dated August 29, 2019. Accordingly, the Company has deleted the interest on the National Electricity Company's borrowings from the Company's records.
5. Jordan Petroleum Refinery Company's tax status shall be rectified, as the tax has been included in the oil derivatives selling prices bulletin (IPP) after the refinery gate price item in this respect, the refinery gate price item does not include general and special taxes. Instead, taxes are included after this item, and it will be collected from the marketing companies and transferring it to the Government Treasury. The Income and Sales Tax Department letter No. (20/4/347) dated February 16, 2021 received and included that the collection of general and special taxes on Jordan Petroleum Refinery's sales to the three marketing companies will happen only through the marketing companies and that the JPRC is not obligated to pay taxes on its sales to the marketing companies and is obligated only to Pay the tax on its sales to other customers (Note 8/F) /(Note 11/B).
6. The Government borne afford any taxes, government fees, or tax differences during its relationship with the Company, since the company profit after tax during that period was guaranteed.

7. Gasoline (95) used for the mixing process to produce gasoline (90) and (95) shall be exempted from the tax differences between import and sale in accordance with the Council of Ministers' Decision No. (6953), adopted in its meeting held on March 19, 2018. Moreover, the necessary procedures shall be facilitated concerning the implementation of the Council of Ministers' Decision No. (13363), adopted in its meeting held on January 3, 2016, related to exempting the Company's imports sold to the marketing companies inside the kingdom. The decision stipulates exempting Jordan Petroleum Refinery Company from general and special taxes on the quantities sold exclusively to the marketing companies inside the Kingdom as of May 1, 2013. The decision also prescribes resolving all pending issues with the Customs Department and completing all customs statements, whether pending at the Customs Department or the Jordan Standards and Metrology Organization before the relationship with the Government expired. Moreover, a committee was formed by the Ministry of Finance and the Ministry of Energy and Mineral Resources comprising representatives from the Jordan Customs Department, the Income and Sales Tax Department, and Jordan Petroleum Refinery Company. During October 2019, the said committee completed its work and submitted its final report to the Ministry of Finance and the Ministry of Energy and Mineral Resources. Accordingly, the Ministry of Finance and the Ministry of Energy and Mineral Resources approved the quantities stated in the committee's report, and the Customs Department prepared the customs statements and exempted the outstanding customs statements according to the above decisions. Meanwhile, the customs statements amount subject to general and special tax were determined. Moreover, the Company submitted a request to the Ministry of Finance to offset the general and special sales taxes, included in the un-exempted customs statements that are not part of the above-mentioned decision, with part of the Ministry of Finance receivables (primary account). The Customs Department approved the offset request dated March 16, 2020. Moreover, the Offsetting Committee agreed, based on the instructions, policies, procedures, and basis for performing offset No. (1) for the year 2017, on performing the offset between the amounts due to the Jordan Petroleum Refinery Company and the amount due to of the Customs Department. The offset, dated on July 6, 2020, represents the general and special sales taxes of JD (58,042,756) on Jordan Petroleum Refinery Company's imports. In the meantime, the above-mentioned offsetting was performed, and all pending customs statements at the Customs Department have been completed (Note 8/f) / (Note 11/b).
8. The Government's strategic inventory, which has been quantified and valued, shall be transferred to the Jordan Oil Terminals Company (JOTC). Accordingly, the Jordan Petroleum Refinery Company began transferring the quantities of the strategic inventory to the Jordan Oil Terminals Company (JOTC) starting April 2018, and the company completed transferring the entire remaining quantities during the 2021 to the Jordan Oil Terminals Company (JOTC) according to the quantities that It was requested by the Jordan Oil Terminals Company (JOTC) and the Ministry of Energy and Mineral Resources. In addition, the company transferred the government's aircraft fuel material to the Royal Air Force during July 2020, and it transferred the government's asphalt to the Ministry of Public Works during 2020 upon the request of the Ministry of Energy and Mineral Resources. Moreover during February 2021 the company exported fuel oil 3.5% owned by the government at the request of the Ministry of Energy and Mineral Resources, The company also received a letter from the Ministry of Finance and the Ministry of Energy and Mineral Resources includes the sale of government-owned crude oil to the company as of the beginning of March 2021 on the basis of crude oil prices issued by Aramco for March 2021, and the company purchased these quantities from government during June 2021, in implementation of the Council of Minister's Decision No. (1150) taken in its meeting held on February 3, 2021. In addition, the remaining amount of the strategic inventory of kerosene owned by the government was exchanged for diesel, according to the Council of Minister's Decision No. (3273) taken in its meeting held on August 11, 2021. Accordingly, the government has no quantities of the strategic inventory as deposits with the company where the transfer of the entire quantity of the strategic inventory was completed by the end of 2021, bearing in mind that the approval of the Ministry of Finance was received to finally settle the value and quantity of the inventory in accordance with the letter of the Ministry of Finance No. (4/18/28669) dated August 29, 2019.

9. The Ministry of Finance shall retain the doubtful debts provision (provision for expected credit losses). In case any debt that was raised during the relationship with the Government is written off, the Ministry of Finance is committed to pay the debt to Jordan Petroleum Refinery Company. As a result of the agreement between the Ministry of Finance and the Company, the Ministry of Finance agreed that the Company shall retain the balance of the provision for doubtful debts (provision for expected credit losses). In case the Company recovers any receivable amount recorded within the provision, the recovered amount shall be recorded in favor of the Ministry of Finance's account, Under the approval of the Ministry of Finance in its letter No. (4/18/28669), dated August 29, 2019 (Note 8/j).
10. The rate of return on investment shall be determined for liquified petroleum gas filling stations for the purpose of calculating the commission at (12%) annually. Moreover, the commission amount for the period from May 1, 2018, to December 31, 2018, shall be set at JD 43 per ton. Any surplus/shortage arising from the increase/decrease in the rate of return on investment compared to the targeted value shall be treated when calculating the filling stations' commission amount in the subsequent period whether it increased or decreased. Meanwhile, the above mechanism may not cause any increase in the cylinder's cost charged to citizens or entail a subsidy by the Treasury / Ministry of Finance in this regard, based on that the Company provided the Energy and Minerals Regulatory Commission and the Ministry of Energy and Mineral Resources with all information and data related to the gas activity for determining the commission amount for the years 2019 and 2020 which reflect the rate of return on investment for this activity by 12% annually. In addition, the Ministry of Energy and Mineral Resources has appointed an auditor and an external studies company to determine the commission amount for the years 2019 and 2020. At the same time, the Company has provided the entities appointed by the said ministry with all the required data, and these entities provided the ministry of energy and mineral resources with their final report, but no decision has been reached by the government regarding the final commission amount that covers the rate of return on investment by 12% annually according to the above-mentioned Council of Ministers' Decision No. (7633). As a result, the company is still negotiating with the government to reach an agreement on the final commission amount and based on that a new studies the company has been appointed by the Ministry of Energy and Mineral Resources to determine the final commission amount, noting that this company has finished its work and provided the final reports to the Ministry of Energy and Mineral Resources , Accordingly, the Ministry informed the company of the value of the commission that it set, and the company objected to this value, as it does not reflect the fair commission according to the aforementioned Council decision. Consequently, a committee was formed from a representative of Ministry of Energy and Mineral Resources, a representative of Ministry of Finance, the Energy and Minerals Regulatory Commission, the Foreign Studies Company and JPRC to reach the fair commission value, which reflects a rate of return on investment for this activity at 12% annually. The committee completed its report for the related Ministries and is awaiting the recommendation for council of ministers for fair commission value. The government has not appointed auditors and study companies to determine the fair commission value for the gas activity for the years 2021, 2022, 2023 and 2024 until now and the company is still conducting vigorous meetings and negotiations with the relevant government agencies to obtain a fair commission that reflects what was stated in the Council of Ministers' Resolution No. (7633) mentioned above.

11. The rental value of the assets transferred from Jordan Petroleum Refinery Company to Jordan Petroleum Products Marketing Company (JPPMC) shall be calculated according to the Land and Survey Department's approved rate of (8%) on the land and buildings valued at JD (4.9) million from these buildings transfer date up to date , based on that the Company insisted on rejecting the above clause, as the transferred assets are owned by the Jordan Petroleum Refinery Company under the concession expiry agreement which stipulated that the gas stations are owned by Jordan Petroleum Refinery Company and that they are transferred to the Jordan Petroleum Products Marketing Company owned by Jordan Petroleum Refinery Company. In addition, the Company has the right to dispose of its assets legally, pursuant to Article 236 of the Civil Law. Meanwhile, the assets were transferred at their net book value similar to the assets transferred at their net book value to other marketing companies under the agreement signed between the three marketing companies and the Ministry of Energy and Mineral Resources. Moreover, the concession expiry agreement stipulated that the Jordan Petroleum Products Marketing Company owned by Jordan Petroleum Refinery Company applies to other marketing companies. Moreover, negotiations took place between the Company and the Government, resulting in an agreement that the Ministry of Finance would recommend to the Council of Ministers the cancellation of this item, Accordingly, the Council of Ministers' Decision No. (1080) was issued in its meeting held on January 24, 2021, which included considering this item as canceled from the Council of Ministers' Decision No. (7633) adopted in its session held on April 30, 2018, and the decision includes that JPRC does not require a rental return for the transferred assets of the Jordan Petroleum Products Marketing Company (a wholly owned subsidiary company).
- In implementation of the Council of Ministers' Decision No. (11110), adopted in its meeting held on August 16, 2015, and the decision of the Company's General Assembly of Shareholders, adopted in its meeting held on November 8, 2012, the land swap operation between Aqaba Special Economic Zone Authority (ASEZA) and the Jordan Petroleum Refinery Company took place during September 2019. In the swap, the authority ceded (6) plots of land of an area of four hundred forty-two thousand square meters (442,000 M²) to Jordan Petroleum Refinery Company. In return, the Company ceded its own plot of land no. (23), Parcel (13), Tract (13) of an area of approximately eighty-eight thousand square meters (88,000 M²), located within the southern port tract, to Aqaba Special Economic Zone Authority (ASEZA).
 - In accordance to the Council of Minister's Decision No. (11127) taken in its session held on March 26, 2023, the company has paid and transferred an amount of JD (20.4) million to the Ministry of Finance through April 2023, which represents the Jordanian government's share in the assets of Jordan Petroleum Refinery Company in Aqaba and the Airports, which represents 51% Of these assets according to the company's concession terminating agreement signed in 2008 between the government and JPRC, noting that, the value of the assets was determined at fair value (market) by the consultant appointed by the government (Chann Oil Consulting Company), accordingly, ownership of all these assets be lounged to the company, and the company began working to develop expand and diversify its activities in Aqaba and airports.

4. Commencing Operations on Commercial Terms after the End of the Financial Relationship with the Government

1. The Company recorded delay interests on the Ministry of Finance's "The Relationship" balance due and unpaid balances at the effective borrowing rate starting from first of May 2018, according to the Council of Ministers' Decision No. (7633), adopted in its meeting held on April 30, 2018.
2. The Company has recorded fees for storing the strategic inventory owned by the government at an amount of JD 3.5 per cubic meter according to the storage capacity for each material effective May 1, 2018 based on Ministry of Finance's approval through Letter No. (18/4/33072), dated November 25, 2018, noting that all of the strategic inventory quantities owned by the government were transferred during 2021, and according to that, no amounts were recorded during year 2022 and 2023, and 2024 and the period ended March 31, 2025.
3. Profit settlement with the Government calculation item has been discontinued, and the related balance has been recognized in the consolidated statement of profit or loss up to April 30, 2018, according to the Council of Ministers' Decision No. (7633), adopted in its meeting held on April 30, 2018. The decision terminated the financial relationship between the Company and the Jordanian Government, and consequently, the Company become operating on commercial terms from the first of May 2018 (Note 3).
4. The Jordan Liquefied Petroleum Gas Manufacturing and Filling Company, which was activated as of January 1, 2023, after transferring all its liquefied gas activities (except for the liquefied gas production activity) recorded an amount of JD 3,171,226 on the Ministry of Finance account for the period ended March 31, 2025, as revenue against the commission difference of filling the Liquefied gas according to the Council of Ministers' Decision No. (7633) adopted in its meeting held on April 30, 2018. This decision has set the commission amount for the period from the first of May to the end of December 2018 at JD 43 per ton sold. Accordingly, the Company recorded an amount of JD 18 per ton of gas sold, representing the commission difference included in the (IPP) JD 25 and the stated commission, in the Council of Ministers Decision mentioned above JD 43 in consistency with year 2018 as a precautionary measure of raising the value of the commission before it is approved by the official authorities. Whereas the Government has not amended the oil derivatives price bulletin (IPP) up to date, and the company has not been provided with the final commission value for the years 2019, 2020, 2021, 2022, 2023 and 2024, which reflect the rate of return on investment by 12% annually and that is according to the council of ministers decision No (7633) taken in its meeting held on April 30, 2018. Noting that after the agreement on the final commission amount is reached, its financial impact will be reflected in the subsequent periods.

6. Significant Accounting Policies

The accounting policies used in the preparation of the condensed consolidated interim financial information for the period ended March 31, 2025 are consistent with those used in the preparation of the annual consolidated financial statements for the year ended December 31, 2024. However, the Group has adopted the following amendments and interpretation that was effective for all period after January 1, 2025 in preparing the condensed consolidated interim financial information for the Group and have not materially affected the amounts and disclosures in the condensed consolidated interim financial information for the period and prior years, which may have an impact on the accounting treatment of future transactions and arrangements.

New and Amended IFRS Standards effective for the current period

- Amendments to IAS 21 – Lack of Exchangeability.
- Amendments to the SASB standards to enhance their international applicability.

Issued Standards Not Yet Effective

New and Amended IFRS Standards	Effective for annual periods beginning on or after:
Amendments IFRS 9 and IFRS 7 regarding the classification and measurement of financial instruments	1 January 2026
Annual Improvements to IFRS Accounting Standards — Volume 11	1 January 2026
IFRS - 18 Presentation and Disclosures in Financial Statements	1 January 2027
IFRS - 19 Subsidiaries without Public Accountability	1 January 2027

The Group has not early adopted the following new and amended standards that have been issued but are not yet effective. Management is currently assessing the impact of the new requirements.

Management expects to adopt these new standards, interpretations, and amendments in the consolidated financial statements of the Bank in the initial application period. Management also expects that the adoption of these new standards, interpretations, and amendments will not have a material impact on the financial statements in the initial application period, except for IFRS 18, which relates to the reclassification and arrangement of items in the financial statements.

7. Changes in Critical Accounting Judgments and Key Sources of Estimation Uncertainty

The preparation of the condensed consolidated interim financial statements and the adoption of accounting policies require the management to make judgments, estimates, and assumptions that affect the amounts of financial assets and financial liabilities and the disclosure of contingent liabilities. These estimates and judgments also affect revenues, expenses, and provisions, in general, as well as expected credit losses, and changes in fair value shown in the condensed consolidated interim statement of comprehensive income and in owners' equity. In particular, the Company's management is required to make judgments to estimate the amounts and timing of future cash flows. The above-mentioned estimates are based on multiple hypotheses and factors with varying degrees of estimation and uncertainty. Actual results may differ from estimates as a result of changes in these conditions and circumstances in the future.

Management believes that its estimates in the condensed consolidated interim financial information are reasonable and similar to the estimates adopted in preparing the consolidated financial statements for the year 2024.

- In accordance with the Council of Minister's Decision No. (11131), taken in its meeting held on August 16, 2015, a quantity discount was granted to jet fuel consumers on the selling price of Jet fuel approved by the monthly Fuel Pricing Committee according to the consumption segments from August 1, 2015 to December 31, 2016, provided that the said discount is calculated annually. Moreover, the Council of Ministers issued Decision No. (293), adopted in its meeting held on October 23, 2016, which stipulated amendment of the Jet fuel consumption segments for one year as of October 31, 2016. Additionally, in its meeting held on February 26, 2017, the Council of Ministers issued Decision No. (1958), which retroactively approved amendment of the implementation commencement date of the decision amending the discount segments under the Council of Ministers' Decision No. (293), retrospective effective from August 1, 2015, instead of October 31, 2016. Based on the above decisions, the discount due to Alia Company – Royal Jordanian Airlines for the period from August 1, 2015 to July 31, 2017 amounted to JD 29,947,993.
- Pursuant to the Company's Board of Directors' Decision No. (5/2/1), adopted in its meeting No. (1/2018), dated March 12, 2018, the Company reduced the amount of JD 15,523,797 from Alia Company – Royal Jordanian Airlines debt during the year 2017, provided that the remaining discount balance is reduced from the Company's monthly withdrawal invoices after deducting the outstanding and unpaid invoices from the date of signing a new agreement between the two Companies until July 31, 2018. The discount due for the period from August 1, 2017 to the expiry of the specified discount shall be treated under the Council of Ministers' decisions by reducing (40%) of Alia Company – Royal Jordanian Airlines debts, and (60%) of the Company's monthly withdrawals. In case the relationship with the Government is terminated, the discount shall be calculated up to April 30, 2018, according to the same rates stated above. After this date, the Council of Ministers' decisions shall be applied independently from Jordan Petroleum Refinery Company. Pursuant to the Council of Ministers' Decision No. (4141), adopted in its meeting held on August 20, 2017, the extension of the discount period granted to Alia Company – Royal Jordanian Airlines was approved for an additional year effective from October 31, 2017.
- Pursuant to the Council of Ministers' Decision No. (5614), adopted in its meeting held on December 17, 2017, the interest rate charged on Alia Company – Royal Jordanian Airlines' debt due to Jordan Petroleum Refinery Company, which was 4.4% per annum on December 20, 2016, has been reduced to 0.5% per annum. Moreover, interest income for the years 2015 and 2016 to date has been reversed in the form of a future balance, so that the resulting financial impact will be settled within the financial relationship between the Ministry of Finance and Jordan Petroleum Refinery Company. As of May 1, 2018, the Company has calculated the effective borrowing average interest rate annually in accordance with the debt settlement agreement with Alia Company. Moreover, implementation of the above decision has been suspended.
- Pursuant to the Council of Ministers' Decision No. (1958), adopted in its meeting held on February 26, 2017, it was approved to charge the discount granted to Alia Company on the Ministry of Finance's account directly without reducing the discount from the Company's sales revenue.
- During the period ended April 30, 2018, the Company recorded an amount of JD 11,659,699 on the Ministry of Finance's account as a discount to Alia Company according to the above-mentioned Council of Ministers' decisions. The amount of JD 4,663,880 has been reduced from the balance of the debt settlement agreement, and the amount of JD 6,995,819 was recorded as deposits to Alia Company, pursuant to the Company's Board of Directors' Decision No. (5/2/1). The Company did not calculate any discounts from May 1, 2018.

- The Company addressed its Letter No. (2/25/51/1/1/6814), dated September 30, 2018, to Alia Company – Royal Jordanian Airlines, stating that if Alia Company is willing to continue to implement the decisions of the Council of Ministers regarding the discount and reduce the interest rate through Jordan Petroleum Refinery Company, the Company shall be provided with a letter from the Ministry of Finance stating its approval to record the amount of the discount and interest difference directly on the Ministry of Finance’s accounts. These amounts shall be taken within the settlement of the financial relationship between Jordan Petroleum Refinery Company and the Government, pursuant to the Council of Ministers’ Decision No. (7633), adopted in its meeting held on April 30, 2018.
- Alia Company – Royal Jordanian Airlines has invited licensed Companies to tender for supplying Royal Jordanian aircraft with jet fuel according to the decision of the Ministry of Energy and Mineral Resources, which includes the decision for the licensed marketing companies to start the activity of supplying jet fuel. The tender was awarded to the Jordan Petroleum Products Marketing Company (a wholly owned subsidiary). As a result, an agreement for the jet-fuel supply was signed between Alia Company – Royal Jordanian Airlines and Jordan Petroleum Products Marketing Company on November 1, 2018. Consequently, the direct supply activity to Alia Company – Royal Jordanian Airlines has been transferred from Jordan Petroleum Refinery Company to Jordan Petroleum Products Marketing Company – (a wholly owned subsidiary). A new supply agreement was also signed between Alia Company - Royal Jordanian Airlines and the Jordan Petroleum Products Marketing Company - (a wholly owned subsidiary) that expires on February 11, 2024, and The agreement was extended until the end of May 2024. - e. This item represents advance payments from fuel and gas and lube oil clients against finished oil derivatives purchases and liquefied petroleum gas and lube oil.
- f. This item represents pricing differences from imported finished oil derivatives between the cost of imported finished oil derivatives during the years from 2017 until the period ended March 31, 2025, and the Refinery Gate price included in the oil derivatives pricing bulletin (IPP) concerning the imports of Jordan Petroleum Products Marketing Company (a subsidiary) related to finished oil derivatives. In this regard, the Company recorded the difference between the actual import cost and the refinery gate price of oil derivatives as per the oil derivatives of prices bulletin (IPP) under the item of import pricing differences within payables and other credit balances, as the Company is uncertain as to whether it is the right for the Company or for the Ministry of Finance, and therefore, If it was the company's rights, this balance becomes a revenue for the company, and if it is the Ministry of Finance's rights, it is transferred from the deposits account without affecting the consolidated statement of profit or loss.

g. The Company has recorded a provision for storage fees against the claim of the Jordan Oil Terminals Company (JOTC) under its Letter No. (1/64/2018), dated April 3, 2018. In the letter, JOTC claimed storage fees on fuel oil at 3.5% and 1%, by JD 3.5 per cubic meter stored as of May 25, 2017. However, Jordan Petroleum Refinery Company rejected this claim. Based on this rejection, Letter No. (2/20/408), dated January 3, 2019, from the Energy & Minerals Regulatory Commission (EMRC) was received. The letter specified the initial storage fees at JD 2 per month, instead of JD 3.5 per cubic meter stored. However, the fees shall be studied by the Energy & Minerals Regulatory Commission (EMRC) during the first half of the year 2019. Moreover, the claim shall be re-examined for the period from May 25, 2017 until the end of the financial relationship between the Company and the Government, together with the related impact on the Government.

- The Company received Letter No. (18/4/12022), dated September 23, 2020, from the Ministry of Finance, which includes the Ministry of Finance's request to the Company to pay the fuel oil storage fees for JOTC for the period from May 25, 2017, until April 30, 2018, as the government has borne the cost of storage fees according to the financial relationship between the Company and the government for that period. In this respect, the Company paid the amount recorded until the end of the financial relationship with the government.
- The company signed a settlement report with the JOTC on June 6, 2021, included matching the balance between the two companies and record the due amount for the JOTC which include that it has to be paid on six equal monthly instalments, In Addition, the payment of storage fees of fuel oil 3.5% on a monthly basis. Provided that the National Electricity Company claims its right to storage for the fuel oil 1%. Moreover, the company through April 2021 exported the Fuel Oil 1% which was imported for The national Electricity Company since the Egyptian Oil was interrupted , The National Electricity pledged the Company to purchase the fuel oil and to pay all the costs , but it did not commit the pledge and as a result of that the Company sent a judicial warning including their claim for the difference of Importing and exporting values , Included in claimed costs the cost of the material storage in JOTC tanks. As a result of the non-response of the National Electric Company, the company filed a case against the National Electric Company to collect the difference in the value of fuel oil 1% exported and all the costs of importing and storing it with the competent courts, and the case is still pending for the competent courts

- b. There are lawsuits filed against the company in the courts for claims amounting in total JD 3,196,542 as of March 31, 2025, of which an amount of JD 2,080,000 is related to the refining activity and an amount of JD 1,083,542 is related to the Jordan Petroleum Products Marketing Company and an amount of JD 23,000 related to the Jordan Lube Oil Manufacturing Company and an amount of JD 10,000 related to the Jordan Liquified Petroleum Gas Manufacturing and filling Company (JD 3,189,542 as of December 31, 2024). And the obligations that could ensue on the Company from the outstanding lawsuits were estimated and the required provision for the outstanding lawsuit has been recorded within payables and other credit balances item, and in the opinion of the Company's management and the legal advisor, the provisions taken are sufficient to meet any future obligations.
- c. According to the minutes of the Company's meetings with the Ministry of Finance held on November 8, 9 and 16, 2017, to determine the balances of the financial relation between Jordan Petroleum Refinery Company and the Government (excluding Jordan Petroleum Products Marketing Company and the Lube-Oil Factory) for the balances as of September 30, 2017, it was agreed as follows:
1. To confirm the balance of the Ministry of Finance's main account of JD 195,194,153, and the balance of the general sales tax deposits of JD 97,388,860, and the balance of special sales tax deposits of JD 937,034 as of September 30, 2017 as a right for Jordan Petroleum Refinery Company for the refining and gas activity. Moreover, the Ministry of Finance has also taken a pledge for all of the debt balances of the Armed Forces, Royal Air Force, Public Security Directorate, the General Directorate of the Gendarmerie, other security forces, and governmental departments, within its budget as well as the debts of the National Electric Power Company for refining and gas activities of JD 319,468,856 as of September 30, 2017. In the meantime, the two parties have agreed that no provision would be recorded for the debts of Royal Jordanian Company, municipalities, governmental universities, and administratively and financially independent governmental institutions during the relationship period, provided that if those amounts are not collected through the judiciary, and the Company is required to write them off, the Ministry of Finance pledges to pay those debts and any related costs.

2. To confirm the deposits balances of price differences and surplus of JD 43,488,857, and deposits for setting up alternative tanks of JD 93,500,103 as well as fees, stamps and allowances according to (IPP) of JD 9,051,757 as of September 30, 2017 as a right for the Government.
 3. The two parties have not reached an agreement on the value of the strategic inventory deposits, as the Government is claiming the amount of valuation in 2008 of JD 156,787,303. Meanwhile, Jordan Petroleum Refinery Company is objecting to this amount since these quantities of inventory are deposits booked by the Company and will be refunded as quantities in case the relationship with the Government is terminated.
 4. The two parties have not reached an agreement as to which party will maintain the gas cylinders write off replacement, maintenance and repair provision balance of JD 10 million.
 5. The two parties have agreed that the provision for lawsuits and other liabilities balance of JD 6.3 million as of September 30, 2017 is a right to Jordan Petroleum Refinery Company. In this regard, if any amount for a lawsuit was won by the Company, the booked amount will be transferred to the Government. On the other hand, any judicial expense incurred by the Company during the period of its relationship with the Government will be borne by the Ministry of Finance except for the booked provision.
 6. The two parties have agreed that the other provisions balance of JD 234 thousand as of September 30, 2017 is the right of Jordan Petroleum Refinery Company.
 7. The two parties have agreed that the income tax provision as of September 30, 2017 is the right of the Government and shall be transferred to the Income and Sales Tax Department on the due date in accordance with the Income and Sales Tax Law.
 8. The two parties have agreed that the labor provisions balance (provision for work injuries compensation; provision for employees' vacation; provision for end- of- service indemnity; and provision for death, compensation, and end-of-service indemnity) as of September 30, 2017 is the right of Jordan Petroleum Refinery Company.
 9. The two parties have not reached an agreement as to which party will maintain the provision for doubtful debts balance (expected credit losses provision) of JD 10.5 million as of September 30, 2017.
 10. The two parties have agreed that the provision for the legal compensation balance of JD 6.27 million as of September 30, 2017 is a right to the Jordanian Government. Meanwhile, the full amount has been paid before the end of 2017.
 11. The two parties have agreed that the penalty and delay in payments provision balance of JD 2.74 million as of September 30, 2017 is a right to the Jordanian Government. Meanwhile, the full amount has been paid before the end of 2017.
 12. The two parties have not reached an agreement as to who will maintain the provision for slow-moving and obsolete and sediments inventory balance of JD 19.9 million as of September 30, 2017.
- d. In accordance with the Council of Ministers' Decision No. (7633), taken in its meeting held on April 30, 2018, the financial relationship between the company and the government has ended and the company has been operating on a commercial basis as of May 1, 2018 (Note 3).

18. Ministry of Finance and Related Parties' Balances and Transactions

19. Distribution of Assets, Liabilities and Results by Sector

The information relating to the Company's disclosed segments is set out below in accordance with IFRS 8. This standard requires identifying segments that can be reported based on the internal reports that are regularly reviewed by the Company's chief operating decision maker and are used to allocate resources to segments and to assess their performance. In addition, the Company's primary activity is represented in conducting activities related to crude oil, oil derivatives, liquefied petroleum gas and lube oil. The majority of the Company's revenues, profits, and assets relate to its operations in the Hashemite Kingdom of Jordan. Inter-sectorial sales are restricted at normal selling prices.

- The Company is organized, for management purposes, into the following four major business sectors:
 - a. Refining: This sector import separates and converts the components of imported crude oil into a set of various finished oil derivatives. This sector depends on licensing from the American UOP Company in the majority of its operations. The company also imports oil derivatives and liquefied gas to meet the excess demand for production.
 - b. Distribution: Distribution links the Company's production and refining activities, on one hand, and all customers in the various areas of the Kingdom, on the other. Moreover, distribution fulfills customers' demands for the Company's Products and imports from finished oil derivatives and lequified gas and lube oil.
 - c. Lube-oil Manufacturing: This sector includes the manufacturing, production, filling, and marketing of various types of oil required in the local and foreign markets.
 - d. Liquefied Gas Manufacturing and Filling: This sector includes producing and importing and filling liquefied gas; and manufacturing, repairing, maintaining, and filling gas cylinders through three of the Company's Gas Stations.
- All of the Company's assets, liabilities, and operations are inside the Hashemite Kingdom of Jordan.

- The following are the Company's activities distributed according to activity type:

20. Future Plan

Regarding the company's fourth expansion project, as a result of the failure of the preferred joint venture (i.e. Sinopec (GPEG) of China and Itochu of Japan) to reach an agreement to resolve the differences with the American KBR company the owner of process technology, and the JV's declaration of its inability to maintain the bid price due to the significant increase in the prices of raw materials and services. Also due to the inability to meet the requirements of the parties interested in the project financing process regarding project exemptions and the full repayment of the government's debt, and as a result of the political and security conditions in the world and in particular the region, the most important of which is the Israeli aggression on the Gaza Strip and the negative economic effects that accompanied it on the Middle East region, which resulted in financiers' reluctance to invest in large projects, especially in our region, the company has decided to stop negotiations with Sinopec (GPEG) and Itochu JV and to move forward with the company's fourth expansion project "refinery upgrade" with a production capacity for the project of (73) thousand barrels per stream day (instead of (120) thousand barrels per stream day), to cover all the needs of the Jordan Petroleum Products Marketing Company (a wholly-owned subsidiary company of JPRC) for finished petroleum products. The company has also added the necessary units to improve product quality to meet the latest international standards, along with the addition of a unit to convert heavy fuel oil into lighter, more valuable products. The modified configuration will reduce the total cost of the upgrade project to approximately (1.7) billion US dollars, instead of approximately (3) billion US dollars as was before. A detailed roadmap prepared by the project management consultant, Technip Energies, shall be adopted by the company which outlines the necessary steps and a timeline for project implementation, ensuring the selection of an EPCF contractor so that project implementation will start by the end of November 2025.

The company also decided to contract the American company UOP and signing the Engineering Agreement to obtain licenses for the technologies used in the fourth expansion project "refinery upgrade". UOP will provide technical and engineering services related to the implementation of "managing licensor" work and preliminary engineering designs for the new units, in addition to updating the basic engineering designs previously prepared for the units included in the company's fourth expansion project and in order to shorten the time required for project documents preparing stages for the fourth expansion project "refinery upgrade". All major production units were licensed by UOP, both for the upgrade project and those currently operating in the existing refinery.

In addition, the company Technip was contracted to prepare the terms of reference, prepare all tender documents, and carry out the technical and financial qualification for the parties to be contacted, conduct a technical and financial study of the bids, and select the best bid, both technically and financially, and to discuss all the agreements before signing them, as Technip is the company most familiar with the details of the fourth expansion project and has full knowledge of the project requirements and preliminary engineering design documents.

It should be noted that it was agreed that the American company UOP will provide the British company Technip with the necessary documents to solicit bids from EPCF contractors during May 2025, ensuring the company's ability to solicit bids from EPCF contractors and select the best contractor by November 2025.

An offer was received from the British company Freshfields to study the possibility of appointing it as legal advisor for the project. The offer is currently being studied and evaluated.

The company is currently in discussions with the Jordanian company Eco Consult, which prepared the environmental and community studies for the project and whose offer was received, to study the possibility of appointing it as environmental advisor for the project.

With respect of the financial relationship with the government, the company is still communicating with the relevant ministries and government agencies to agree on the remaining matters related to the financial relationship between the company and the government, and to resolve all remaining outstanding issues, especially the payment of amounts due from the government. As a result of these negotiations, the Ministry of Finance allocated amounts to pay gas subsidy in the general budget for the year 2025 in the amount of approximately JD (62) million, during the first quarter of 2025, the company signed loan agreements JD (80) million with banks referred by the Ministry of Finance, in preparation for the Ministry of Finance to issue pledges to these banks to repay the loan amounts and the interest due in implementation of the Council of Ministers decision No. (1897) issued in its session held on January 19, 2025, which stipulates that the Jordan Petroleum Refinery Company borrow an amount of JD (80) Million on behalf of the government to pay the debt owed to the company in exchange for the government issuing pledges to banks to pay the loan amounts and interest due on them. Negotiations with the government are still ongoing to determine the value of the gas activity commission, which reflects a rate of return on investment of (12%) annually, in implementation of what was stated in Council of Ministers decision No. (7633). Taken at its session held on April 30, 2018.

The Jordan Petroleum Products Marketing Company continues its path of development and expansion by opening and managing new stations, in which during the first quarter of 2025 the Hizam Station/Salman and Mnour Al- Wezan Station and Zain Station/ Ajloun have entered into service. In addition, (22) Electric Vehicles Chargers were installed in (10) new locations.

And the company expanded its activities by entering into a partnership with the Jordan Gas Company under the name of the National Advanced Natural Gas Company in order to operate in the compressed natural gas CNG gas activity by transporting, storing, selling and distributing it to factories and gas stations after preparing the infrastructure and the required equipment.

During the second quarter of 2025, it is planned and expected to open and manage the Al-Salman 2 station, the Shaidieh Al-Dakhelieh station, the Manja/Madaba station, the Al-Karak Al-hadetheh/Al-Hijazin station and Al-Faouri Station/Salt. It is also expected to start constructing the Al-Shidiya Al-kharigiyah station, the North Development Station, the Al-Hurra/Al-Jaish station, the Jordan Street station, The Assaf Gas Station, and the Tabarbour A-Saeden Charging Station, and to install (41) electric vehicle chargers in (15) new locations.

By 2025, the company plans to complete the automation of inventory and e-commerce systems at all stations managed and supplied by the company. It also plans to continue installing solar-powered power generation systems using solar panels at a number of stations, expand the company's fleet of finished petroleum products owned by the company, and automate all of the company's financial information so that it can be displayed on a real-time screen.

It also plans to continue increasing the number of fast-charging stations for electric vehicles, both within the company's stations and outside them, by installing them at various stations and customer locations, such as malls and parking lots. The company is also currently working on automating fuel requests from stations through electronic interconnection between systems. Work is also underway to implement an energy consumption audit system using artificial intelligence, which monitors load behavior and generation sources.

The Jordan Lube Oil Manufacturing Company is planning to increase its share of the local market by increasing sales of various types of lube oils and greases. The company is moving towards keeping pace with the latest technologies and globally recognized technical developments in the manufacturing, packaging, and testing of lube oils, ensuring continued excellence in producing the best and most efficient types of lube oils in the local market to meet the needs and requirements of the local market, the company is currently working to raise the performance levels of some oils, such as automatic transmission fluid (ATF) with a performance level of (VI) and diesel engine oils with a performance level of (CK), to meet the needs of modern vehicles.

It is planned to increase the storage capacity of base oils and additives by (300) tons during the year 2025, and it is planned to continue updating the lube oil filling lines and updating the tanks and to expand the transportation fleet in the company.

The company plans to maintain the international accreditation of its lube oil laboratory in accordance with the requirements of the (ISO 17025:2017) certification by expanding the laboratory's scope and equipping it with the latest equipment to keep pace with developments in the lube oil industry, and to continue renewing the (ISO 9001:2015) certification, the Jordanian Quality Mark certificates, and the Mercedes and MAN accreditation.

It is also expected to continue exporting to Palestine, Iraq, Lebanon, and Chad. Work is currently underway to add new markets, especially exporting to Syria.

Jordan Liquefied Petroleum Gas Manufacturing and Filling Company, after being activated at the beginning of 2023, continues to develop and improve the performance of its various activities and reduce its costs to the minimum possible, as projects were referred to install energy generation systems using solar panels in the three gas stations. The implementation of these projects began during the year 2023, and the company completed part of these projects. In order to increase the company's storage capacities to meet the increase in demand for liquefied gas and to ensure the security of the Kingdom's needs and to reduce storage costs for others and to achieve additional revenue resulting from providing storage services for others, the company awarded a tender to establish storage capacities for liquefied gas of about (10,000) tons at the company's site in Zarqa. Construction work for these tanks began during the month of October 2023, and work to complete the project is still ongoing. The company also awarded a new tender during the year 2024 to establish new storage capacities at its site in Aqaba with storage capacities of about (4,000) tons and it is expected to start the project during 2025. The company is currently working on developing and expanding in bulk LPG distribution, either directly or through entering into strategic partnerships with third parties, to ensure the development and activation of this business.
