# SMS Messages Service Via Mobile Phones

December 22, 2019

Security Deposit Center (SDC) has announced that it has finalized the development of text messages service via mobile phones (SMS) for the investors. The SDC will launch the first phase of this service in the upcoming period through sending messages related to the completion of trades at the Amman Stock Exchange. According the SDC will send text messages regarding all types of transactions executed on the investors' accounts, including: securities transfers, corporate actions, and other transactions through mobile phone numbers of the investor's permanent address.
