

# About OTC

## What is the OTC Market?

The Over-The-Counter (OTC) Market is a market specialized in buying and selling of securities which are unlisted at the Amman Stock Exchange (ASE), aims to provide a place and a mechanism to enable those who are interested in such securities to sell and buy them easily and conveniently.

## The OTC Inception

The ASE, in cooperation with the Jordan Securities Commission (JSC) and the Securities Depository Center (SDC), prepared new directives, which allow trading at the OTC Market, and modified the Listing Securities Directives at the ASE in consistence with the establishment of this market. Accordingly, the OTC Market was established.

## The Aim of its Inception

Giving an opportunity for the shareholders of the unlisted companies to sell their shares through an electronic system prepared for this purpose and according to supply and demand forces. Also, enabling investors who are interested in buying the shares of these companies. It is worth noting that the trades of the OTC Market are independent from trades of the ASE main markets and don't affect the ASE calculated indices as well.

## Cases in which companies are allowed to trade in the OTC Market

1. If the company has been delisted from the ASE due to the continued suspension of trading or the continued trading under the restricted trading for more than one year, provided that it remains registered with the Ministry of Industry and Trade, the Jordan Securities Commission, and the Securities Depository Center.
2. Companies that are not listed on the ASE due to their failure to meet the listing conditions of the Second Market, such as:
