**Independent Auditor's Report on the Review of the Condensed Consolidated
Interim Financial Information**

**To the Chairman and Members of Board of Directors
Arab Phoenix Holdings Company
Public Shareholding Company - (Holding Company)
And its subsidiaries (the Group)
Amman - Jordan**

We have reviewed the accompanying condensed consolidated interim statement of financial position of **Arab Phoenix Holdings Company (Public Shareholding Company - Holding Company) and its subsidiaries "the Group"** as at June 30, 2024 and the related condensed consolidated interim statements of profit or loss and other comprehensive income, changes in shareholders' equity and cash flows for the six months period then ended. Management is responsible for the preparation and fair presentation of this condensed consolidated interim financial information in accordance with International Accounting Standard number (34) "Interim Financial Reporting". Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of Review

Except for what is described in the below basis for qualified conclusion paragraphs, we conducted our review in accordance with International Standard on Review Engagements (2410) "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of condensed consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit, accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

1. The company's management has not recorded the necessary provisions in accordance with IAS (37) "Provisions, contingent liabilities and contingent assets" against stamp fees and related delay fines amounted to JOD (830) thousand for the period ended June 30, 2024 which resulted from a claim raised against one of the group's subsidiaries (Tameer for Investments) regarding these stamp fees and related delay fines in relation to the partnership agreement signed between the company and Housing and Urban Development Corporation HUDC on February 14, 2008 for the construction of integrated services residential city in Giza Area (Ahl Al-Azem Project) as the subject matter still under study and follow-up with relevant parties. In case the Group's management recorded this provision, the opening balance of accumulated losses and stamp fees provision and its related fines included in the other credit balances will increase by the same amount.
2. The accumulated losses balance as of June 30, 2024 includes a credit balance amounted to JOD (810) thousand which represents accrued expenses reversed to the other income during the year ended December 31, 2017. This credit balance had been recorded in previous years under trade payables and other credit balances. We have been unable to obtain sufficient and appropriate audit evidence about the accuracy of these amounts during previous years. Accordingly, we were unable to determine whether any adjustments were necessary to the accumulated losses opening balance in the accompanying condensed consolidated interim financial information.

Qualified Conclusion

Based on our review and except for the effects and the possible effects of what is mentioned in the basis for qualified conclusion paragraphs above, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information are not prepared, in all material respects, in accordance with International Accounting Standard number (34) "Interim Financial Reporting".

**Independent Auditor's Report on the Review of the Condensed Consolidated
Interim Financial Information - Continued**

Emphasis paragraph

Without further qualifications in our conclusion, we would draw your attention to the following:

- As indicated in note No. (19) which states that there are restrictions over the Group's movable and immovable funds due to lawsuits raised against the Group by the local Jordanian Courts for the benefit of different parties, in addition to accumulated losses in the group and its subsidiaries and the deficit in the group's working capital with approximate amount of JOD (5.49) million as described in the note referred above. According to International Standards on Auditing these conditions indicate the existence of material doubts about the group's ability to continue as a going concern. Despite of the existence of the above-mentioned indicators for several years with different percentages and amounts, the group was able to continue its business. Furthermore, the Group management has prepared a plan of action till December 31, 2024 to address these conditions and to ensure the business continuity, accordingly, this condensed consolidated interim financial information have been prepared on going concern basis.
- The agreements signed between Red Sea Resort for Real Estate Development Company (Subsidiary Company) and Aqaba Special Economic Zone Authority related to the construction of the Red Sea Resort Project includes penalty clauses which states that in the event the project is not completed on the dates specified under the agreement, the company must compensate the authority for the breakdown and damage penalties arising from this delay. However, the company had obtained a written approval as last and final extension for the completion period of the project till March 31, 2025. The company also obtained approval from the Aqaba Special Economic Zone Authority to exempt the company from fines incurred as a result of the delay in the implementation of the project subject to the completion of the projects within the extended time period. The company was previously unable to complete the project on its specified dates. Moreover, the expected fines and benefits were not estimated in the event of non-compliance with the implementation period granted to the company.
- Housing and Urban Development Corporation HUDC has raised a lawsuit against the Group to prevent opposition to benefit of real estate, removing facilities and compensating expenses related to "Ahl Alazem Project" which its net value approximately amounted to JOD (5) million as at June 30, 2024. However, and based on the group's lawyer consultation that management relied on, the agreement states that the group should be compensated for all executed works if the HUDC has decided to terminate the agreement except for any off-specifications works. Regarding the claim for the expenses of assessing the executed works till now, the required provision was recorded and regarding the cost of removing any off-specifications executed works the management has considered it as immaterial although the related impairment and provisions have been recognized based on the real estate assessors. Accordingly, the management does not expect additional losses from what has been recognized in the condensed consolidated interim financial information so far. In the opinion of the group's management, the options presented are still under discussion with the concerned authorities, including the continuation of the project.
- Lands under exploitation and development, which represents lands owned by the group under agreements signed with National Resources Investment and Development Corporation (Mawared) not registered in the name of the groups' subsidiaries, as the completion of procedures for registering these lands in the name of the group depends mainly on the completion of the projects agreed under these agreements. The Group had obtained an extension from National Resources Investment and Development Corporation (Mawared) for the project completion period until September 24, 2025. Also, lands under development and residential projects under construction, includes "Ahl Al Azm Project" which is constructed over lands not owned by the Group under the partnership agreement signed between one of the group's subsidiaries and the Public Housing and Urban Development corporation HUDC.

During the second quarter of 2024, the Group sold and transferred its shares in Al Maha Land Investment and Real Estate Development Company, which was entirely owned by Al Qabas Real Estate Development Company.

* The results of the subsidiary are consolidated in the consolidated statement of profit or loss and other comprehensive income at the date of acquisition, which is the date that actual control is obtained over the subsidiary.

The parent company controls subsidiaries when it is exposed, or has rights, to variable returns from its involvement with these subsidiaries and has the ability to affect those returns through its power over these subsidiaries.

Thus, the principle of control sets out the following three elements of control:

- 1-Power over the investee.
- 2-Exposure, or rights, to variable returns from its involvement with the investee; and
- 3-The ability to use power over the investee to affect the amount of the investor's returns.

The parent company should reassess whether it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment.

Any gain on bargain purchases is recognized in statement of profit or loss and other comprehensive income immediately. Transactions costs are expensed as incurred, except if related to the issue of debt or securities.

The consideration transferred does not include amounts related to the settlement of pre-existing relationship. Such amounts are generally recognized in consolidated statement of profit or loss and other comprehensive income.

Any contingent consideration payable is measured at fair value at the acquisition date. If the contingent consideration is classified as equity, then it is not re-measured and settlement is accounted for within equity. Otherwise, subsequent changes in the fair value of the contingent consideration are recognized in consolidated statement of profit or loss and other comprehensive income.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. This means that no gain or loss from these changes should be recognized in profit or loss. It also means that no change in the carrying amounts of the subsidiary's assets (including goodwill) or liabilities should be recognized as a result of such transactions.

**Arab Phoenix Holdings Company
Public Shareholding Company - (Holding Company)
And Its Subsidiaries (The Group)**

Notes to the Condensed Consolidated Interim Financial Information

On loss of control, the parent-subsidiary relationship ceases to exist. The parent no longer controls the subsidiary's individual assets and liabilities. Therefore, the parent company:

- 1-Derecognizes the assets and liabilities of the former subsidiary from the consolidated statement of financial position.
- 2-Recognizes any investment retained in the former subsidiary at its fair value when control is lost subsequently accounts for it and for any amounts owed by or to the former subsidiary in accordance with relevant IFRS.
- 3-Recognizes the gain or loss associated with the non-controlling interest.

Consolidated financial statements are prepared for the subsidiaries to the same financial year of the parent company and using the same accounting policies adopted by the parent company. If one of the subsidiary use accounting policies other than those adopted in the consolidated financial statements for similar transactions and events in similar circumstances, appropriate adjustments are made to that Group subsidiary's financial statements, in preparing the consolidated financial statements to ensure conformity with the International Financial Reporting Standards.

Non-controlling interest are measured at their proportionate share of the acquirer's identifiable net assets at the acquisition date.

Balances, transactions and unrealized profits and expenses resulted from transactions within the group are eliminated when preparing this condensed consolidated interim financial information.

(c) Use of estimates

This condensed consolidated interim financial information has been prepared in accordance with IAS 34, "interim financial reporting" which requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this condensed consolidated interim financial information for the Six months ended on June 30, 2024, significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended December 31, 2023.

Notes to the Condensed Consolidated Interim Financial Information

Despite the existence of the conditions mentioned above from several years ago with different percentages and amounts, the Group has been able to continue its operations according to the management plan illustrated below:

- The Group's management plan to address the going concern indicators are summarized as follows:

The group was able during the year 2023 to achieve the following results:

- a. Reducing its annual losses by approximately 51% compared to the previous year.
- b. Raising completion and sales percentage in existing projects.
- c. Settlement of the group legal and financial debts.

As for the Group's plan for the next stage, it focuses on the following topics:

- a) Continuing to raise completion and sales percentage in the Group's projects.
- b) Continuing to complete legal and financial settlements that serve the interest of the group.
- c) Creating and diversifying additional sources of income for the group

Taking into account the profit and loss as possible within the financial circumstances.

20) Financial Risk Management

Market price risk

Equity price risk arises from financial assets at fair value through other comprehensive income that is held to meet the partially unfunded portion of the Group's liabilities as well as investments at fair value through statement of income. The group's management monitors the debt and securities portfolio in its market-based investment portfolio. Material investments are managed in the portfolio on an individual basis and the Risk Management Committee approves all purchases and sale decisions.

Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)

Prices quoted in active markets for similar instruments or through the use of valuation model that includes inputs that can be traced to markets, these inputs good be defend directly or indirectly.

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

a) Assets and liabilities that are measured at fair value on a non-recurring basis:

The Group measures the assets and liabilities below at fair value on a non-recurring basis:
